Humanism and Education in Medieval and Renaissance Italy Robert Black, 2001-09-20 Based on the study of over 500 surviving manuscript school books, this comprehensive 2001 study of the curriculum of school education in medieval and Renaissance Italy contains some surprising conclusions. Robert Black's analysis finds that continuity and conservatism, not innovation, characterize medieval and Renaissance teaching. The study of classical texts in medieval Italian schools reached its height in the twelfth century; this was followed by a collapse in the thirteenth century, an effect on school teaching of the growth of university education. This collapse was only gradually reversed in the two centuries that followed: it was not until the later 1400s that humanists began to have a significant impact on education. Scholars of European history, of Renaissance studies, and of the history of education will find that this deeply researched and broad-ranging book challenges much inherited wisdom about education, humanism and the history of ideas.

Brotherton,2008-05-06 The national bestselling World War II memoir by Buck Compton, a hero from the famed Band of Brothers, with a foreword by John McCain. As part of the elite 101st Airborne paratroopers, Lt. Lynn Buck Compton fought in critical battles of World War II as a member of Easy Company, immortalized as the Band of Brothers. This is the true story of a real-life hero. From his years as a two-sport UCLA star who played baseball with Jackie Robinson and football in the 1943 Rose Bowl, through his legendary post-World War II legal career as a prosecutor, in which he helped convict Sirhan Sirhan for the murder of Robert F. Kennedy, Buck Compton's story truly embodies the American Dream: college sports star, esteemed combat veteran, detective, attorney, judge.
