Variant Readings of the Qur'an Ahmad Ali Al-Imam, 2006, ﺑﺎﺭﻭﻧﻲ ﻟﯩﻐﺎﺗﻰ ﺑﺎﺭﻭﻧﻲ ﻟﯩﻐﺎﺗﻰ This fascinating and important book attempts to investigate the nature of the seven Ahruf in which the Qur'an has been revealed and the reason for the variations in readings among

the Qurraa of the Quran. It studies, examines, and discusses: the revelation of the Qur'an in the seven ahurf concluding that they represent seven linguistical ways of recitation; the compilation of the Quran during the lifetime of the Prophet and the preservation of the Quran in the memories of the Companions as well as in written form, the compilation during the time of Abu Bakr, and the further compilation during the time of Uthman; the problem of naskh to demonstrate the completeness and trustworthiness of the Quran and that no verses are missing or were read and abrogated by naskh al-tilawah either with or without hukm; the Uthmanic masahif and their relation to the seven ahurf; the language of the Quran and whether it includes one, several, or all the dialects of the Arabs; the origin of the qiraat and conditions governing accepted readings; and ikhtiyar (i.e., the selection of one reading rather than another) and the rules governing the Qurraa' who selected a reading.

**The Concise Encyclopedia of Islam** Cyril Glassé, 1991

*Running Like Zebras* Edip Yksel, 2012-01-19 This book contains numerous debates on the prophetic numerical system embedded in the Quran. Edip Yksel responds and refutes critics and skeptics, such as: Abu Ameenah Bilal Philips: Sunni scholar Carl Sagan: astronomer, astrophysicist, cosmologist, and skeptic author Daniel Abdurrahman Lomax: Sunni computer engineer Ayman Mutaakher: anonymous Sunni critic James (Amazing) Randi: founder of Randi Foundation, a skeptic activist Michael Shermer: editor and publisher of the Skeptic Magazine, author, columnist The miraculous function of the number 19 prophesized in Chapter 74 was unveiled in 1974 through a computerized analysis of the Quran. Though, in retrospect, the implication of 19 in Chapter 74

traditionally called Hidden One, were obvious, it remained a secret for 1406 (19x74) lunar years after the revelation of the Quran. Ironically, the first words of the Chapter 74, The Hidden One, was revealing, yet the code was a divinely guarded gift allocated to the computer generation; they were the one who would need and appreciate it the most. As we have demonstrated in various books, hundreds of simple and complex algorithms, we witness the depth and breath of mathematical manipulation of Arabic, an arbitrary human language, to be profound and extraordinary. This is the fulfillment of a Quranic challenge (17:88). While the meaning of the Quranic text and its literal excellence was kept, all its units, from chapters, verses, words to its letters were also assigned universally recognizable roles in creation of mathematical patterns. Since its discovery, the number 19 of the Quran and the Bible has increased the appreciation of many of those who acknowledge the truth, has removed doubts in the minds of many People of the Book, and has caused discord, controversy and chaos among those who have traded the Quran with men-made sectarian teachings. This is indeed a fulfillment of a Quranic prophecy (74:30-31). 14. The improbability and impossibility of the numerical structure of the Quran being produced by a medieval Arab genius becomes evident when we consider the following factors: It includes simple elements of the Quran and goes deeper to an interlocking system of complex numerical patterns and relationships. It involves not only frequencies of letters and words but also the numerical values of letters. It involves not only an intricate numerical pattern but also a huge set of data consisting of units with multiple functions, such as letters that are also digits, words that are also numbers. The numerical aspect of the Quran were not known by the adherents of the Quran until late

1960s and especially, 1974. The literary aspect of the Quran has received praises from many literary giants throughout centuries. The scientific accuracy of Quranic statements on various fields has been immaculate. Muhammad was one of the busiest and greatest social and political reformists in human history. The timing of the discovery of the code is precise and prophetic. A series of prophetic events regarding the code has been fulfilled.

Islamic and Comparative Religious Studies William A. Graham, 2017-05-15 William A. Graham, a leading international scholar in the field of Islamic Studies, gathers together his selected writings under three sections: 1. History and Interpretation of Islamic Religion; 2. The Qur'an as Scripture, and 3. Scripture in the History of Religion. Each section opens with a new introduction by Graham, and a bibliography of his works is included. Graham's work in Islamic studies focuses largely on the analysis and interpretation of the religious dimensions of ritual action, scriptural piety, textual authority/revelation, tradition, and major concepts, such as grace and transcendence. His work in the comparative history of religion has focused in particular on the 'problem' of scripture as a cross-cultural religious phenomenon that is more complex than simply 'sacred text'. This invaluable resource will be of primary interest to students of the Islamic tradition, especially as regards Qur'anic piety, Muslim 'ritual' practice, and fundamental structures of Islamic thought, and to students of the comparative history of religion, especially as regards the phenomenon of 'scripture' and its analogs.

**Al - Hidayah (The Guidance)** Burhan Ad-Din Al-Farghani Al-Marghinani, 2020-10-13 The Hidayah has dominated the field of Islamic jurisprudence since the day it was written over 800 years ago. It has been the primary text used by Muslims jurist to issue authentic

and reliable rulings on Islamic law according to the school of Imam Abu Hanifa (d 150H/767CE). The Hidayah commands such an authoritative position amongst the doctors of law that the knowledge of a scholar who has not read it is not considered reliable. It has been a standard text in the curricula of Islamic law schools since the 12th century. It was first translated into English by Charles Hamilton in 1791. Around 70 huge commentaries, some spread over more than a dozen volumes have been written on it. The number of explanatory glosses is in thousands. Comprehensive in content and conveniently organized, with the publication of this all previous works that discussed Islamic jurisprudence according to the Hanafi law become outmoded and soon fell into disuse. If revealed books are not taken into account, never has a book received so much attention as the Hidayah. This landmark publication of the Hidayah not only has been translated in its entirety for the first time but has been done so from Arabic, the language in which it was written. The author, Shaykh Al Islam, Burhan Al-Din Marghanani (d 593 AH/ 1197 CE) was considered to be the leading jurist of the Muslim world in his times. The hidayah is justly celebrated as the most practical and useful summary compilation of Hanafi jurisprudence. It has been a standard text in the curricula of Islamic law schools since the 12th century. It was first translated by Charles Hamilton in 1791. A new translation into modern English has been long overdue. This translation by Imran Ahsan Khan Nyazee is both precise and straight forward. With his knowledge of Islamic law and jurisprudence combined with his command of both the Arabic and English languages, he has conveyed the meaning of the original with great clarity. The hidayah is a dense work, intended for use in teaching Hanafi fiqh - it is a work that needs explication if its arguments are to be understood fully.

This the translator has provided through this valuable notes Dr Mohammad Akram Nadwi, research fellow, Oxford centre for Islamic studies, Oxford

**People of the Prophet's House** Fahmida Suleman, 2015 Despite their distinct theological differences, Shi'a and Sunni Muslims, followers of the two main branches of Islam, share a number of core beliefs including an allegiance to and love for the Prophet Muhammad and members of his family. For Shi'a Muslims, reverence for the Prophet and allegiance to his household (Ahl al-bayt, 'People of the House'), comprising his immediate family and their descendants, constitutes an essential principle of belief that has directly

impacted how Shi'i artists, rulers, patrons and ritual participants have conveyed their love and loyalty through material culture and religious ritual. The 22 essays in this volume, richly illustrated with over 200 colored images, present a diversity of beliefs and practices expressed through the arts, architecture, material culture and ritual that spans Shi'i history from the tenth century to the present day. With contributions from experts in the fields of anthropology, religious studies, art and architectural history, numismatics, film studies and contemporary art, the book also calls attention to the global diversity of the artistic and devotional expressions of Shi'a Muslims from across Trinidad, Senegal, Egypt, Syria, Iraq, Iran, Pakistan, India and China. Additionally, some essays draw upon important female Shi'i figures and female ritual practices and many chapters underscore the theme of love for the Ahl al-bayt beyond Sunni and Shi'i demarcations. This work contributes to a growing body of scholarship dedicated to the religious arts and rituals of Shi'a Muslims around the world.

Decoding the Quran (a Unique Sufi Interpretation) Ahmed Hulûsi, 2013 In this incredible age of increasing awareness and the rise of consciousness, where the intellect is craving to find the answers to the place and purpose of one's existence, we often find ourselves at an intersection of ancient texts and modern science, falling into an array of

dichotomies. Decoding the Quran is a unique interpretation, which shows the integration of the two ways, highlighting non-duality of existence, and more importantly how the human being is an integral factor of this Oneness. It employs a holistic approach to the seemingly disconnected events, laws, edicts and commands of God, integrating this miraculous knowledge, to define how and why it is a concern to humans. What is the reality of a human being? Why is mankind reminded of their reality? What does the narrations of past events mean to us in our everyday? How should we understand the metaphors of the Quran? What is awaiting us after death? The answers to these questions, along with how man should understand the One denoted by the name Allah, are the most important and prominent topics covered in the Quran... Since the Quran addresses the whole of humanity throughout all ages as guidance to the truth, this particular construal has been done in the light of the realities of today.
