The High Cost of Dying Gregory W. Young,2011-03-04 This important volume offers a comprehensive overview of the funeral home business and provides valuable inside information needed by thoughtful consumers, legal advisors, trust officers, and even clergy - all those who must confront the hard, practical questions that surround one of life's most trying and emotion-filled experiences. How does one select a funeral home? What obligations and functions are properly the family's and which should be expected of a funeral home? Who is financially responsible for the funeral? What funeral options are available and which are best? Is it possible to arrange a dignified, yet affordable funeral? Is it crass to be concerned about costs? These are just some of the questions addressed by former funeral home director Gregory W. Young in this easy-to-read reference guide that aids consumers in arranging a funeral and avoiding unnecessary charges. Young's compassion for the grief-stricken and his in-depth understanding of funeral preparation combine to provide a unique perspective on the history and psychology of the American funeral. Each chapter of this information-packed book covers an important aspect of the contemporary funeral: the need for consumerism, the funeral in history, how the funeral director can help survivors, making the choice between burial and cremation, the importance of the funeral arrangement conference, outlining the funeral contract, describing common funeral rip-offs, how to pre-arrange a funeral, answering frequently asked consumer questions, and much more. Of vital importance are the special features of this remarkable volume: the handy funeral arrangement checklist that helps consumers determine their needs, and a discussion of price ranges for specific services, caskets, burial vaults and miscellaneous expenses. Never before has so much valuable information been compiled by such a noted authority on a topic that will inevitably touch us all.

The American Way of Death Jessica Mitford,1963 An expose on America's multimillion-dollar burial policy.

Affairs in Order Patricia June Anderson,1992 Anderson tells how to plan ahead by making a will and planning for disposition and commemoration; focuses on how to deal with imminent death, bioethics, mercy killing, life support systems, and hospice programs; and tells how to make funeral arrangements, deal with finances, and handle grief and bereavement.

Sourcebook on Death and Dying James A. Fruehling,1982

Preparing to Die Troy L. Gafford,2006-10-01 Dying remains one of the last taboo subjects. Most people will talk about money, or even sex, before they will dying. I think this is true of most people, but it seems especially true of Baby Boomers, the generation of which I am a member... This reluctance to discuss dying is one of the things I considered when deciding how to structure this book. In reality, my target audience should be anyone with whom God has not shared their departure date for leaving this world. But part of my experience in dealing with the reluctance of people my own age to discuss their own death is that they do have the reality of dealing with the approaching death of their own parents. Thus some of this material, Section Two, will be given from the viewpoint of helping someone prepare to die, while the primary section, Section One, will be addressed directly to those preparing for themselves.

Dying in America Institute of Medicine,Committee on Approaching Death: Addressing Key End-of-Life Issues,2015-03-19 For patients and their loved ones, no care decisions are more profound than those made near the end of life. Unfortunately, the experience of dying in the United States is often characterized by fragmented care, inadequate treatment of distressing symptoms, frequent transitions among care settings, and enormous care responsibilities for families. According to this report, the current health care system of rendering more intensive services than are necessary and desired by patients, and the lack of coordination among programs increases risks to patients and creates avoidable burdens on them and their families. Dying in America is a study of the current state of health care for persons of all ages who are nearing the end of life. Death is not a strictly medical event. Ideally, health care for those nearing the end of life harmonizes with social, psychological, and spiritual support. All people with advanced illnesses who may be approaching the end of life are entitled to access to high-quality, compassionate, evidence-based care, consistent with their wishes. Dying in America evaluates strategies to integrate care into a person- and family-centered, team-based framework, and makes recommendations to create a system that coordinates care and supports and respects the choices of patients and their families. The findings and recommendations of this report will address the needs of patients and their families and assist policy makers, clinicians and their educational and credentialing bodies, leaders of health care delivery and financing organizations, researchers, public and private funders, religious and community leaders, advocates of better care, journalists, and the public to provide the best care possible for people nearing the end of life.

Values at the End of Life Roi Livne,2019-06-10 Once defiant of death—or even in denial—many American families and health care professionals are embracing the notion that a life consumed by suffering may not be worth living. Sociologist Roi Livne documents the rise and effectiveness of hospice and palliative care, and the growing acceptance that less treatment may be better near the end of life.

Passport To A Happy Death Diana Ingram,2004 It has often been said that the two things in life you can't avoid are death and taxes. While the IRS puts out numerous publications and there are CPAs and lawyers around every corner ready to dish out advice for the taxpayer, the best lawyer in the world can't get you out of dying. Death is the one trip we all take, with no tour guide or travel agent to hold our hand. Diana Ingram has written a much needed and uncommonly positive book to help us deal with death, both our own and those closest to us. Her work as a grief counselor and hospice volunteer has given Ingram a unique view of our last journey, all of which, along with extensive research, she has brought to this guide. Covering all aspects of death from the practical to the personal, Passport includes information on legal preparations, funeral services, Hospice care and religion. Ingram has even included a workbook to help you through what can be a daunting process. Passport to a Happy Death makes you think, prepare, and even laugh. Moreover it will help give peace of mind to both you and your loved ones. This is an altogether unique and useful read.

Dealing Creatively with Death Ernest Morgan,1994 This manual on death education is a 'must' for any involved in hospice care or work with the terminally ill. It covers everything from living with terminally ill individuals to the right to die, memorial societies, and death ceremonies. Its focus on the emotional and economic costs of death is unparalleled.--Midwest Book Review.

The Cost of Dying Peter Brandvold,2019-07-30 Of all the legends of the Old West, few are as stained with ink, blood, and bullets as the violent days of bounty hunter Lou Prophet. But what happens when the hunter becomes the hunted? Heaven knows there'll be hell to pay . . . THE DEVIL RIDES AGAIN After a hard night with his sometime lover Louisa Bonaventure—"the Vengeance Queen"—Lou Prophet decides to cool his heels at a local honky tonk. Things heat up fast when he defends one of the girls from a sadistic brute who also happens to be the deputy sheriff. And now Prophet is running for his life . . . WITH A BOUNTY ON HIS HEAD Heading south of the border to Mexico, Prophet isn't the only man marked for death. The young red-headed pistolero Colter Farrow has made an awful lot of enemies, too—and now practically every bounter hunter south of the Rio Grande is gunning for blood. For money. For fun. And, now, for Lou Prophet . . . "Here's a writer with hot, fast violence and the guts to write what he wants." —Tom McNulty, Dispatches from the Last Outlaw

Death and Dying in New Mexico Martina Will de Chaparro,2007-06-30 This thoroughly researched study uses death to explore the intersection of religious culture and politics in colonial New Mexico.

Death and Dying Barbara A. Backer,Natalie Hannon,Noreen A. Russell,1994 It is important to recognize and accept the uniqueness of each individual's response to loss, dying and death. This excellent second edition conveys the message that understanding and care should be valued as highly as efficiency and cost-effectiveness in today's high-tech medical system. Death and Dying: Understanding and Care identifies

patterns of response to dying and death in American society, it discusses problems associated with the cessation of life, and it examines the structure and process of interaction among the terminally ill, their families and helping professionals. THIS TITLE IS DESIGNATED AS A KIP (KEEP IN PRINT) EDITION AS OF 1/6/00 AND WILL BE REPRINTED BASED ON CUSTOMER NEED/DEMAND.

How to Beat the High Cost of Dying Tom Moon Mullins,2018-02-22 Louie doesn't want to die alone or in a Nursing home.The paradise of Thailand appears to be a panacea! The clock of life is ticking and waits for no man! Louie is trying to delay the inevitable and the Disneyland milieu of Bangkok seems the place to live the dream! Louie is sick physically and sick of his existence in America. Louie is an aging Social Worker who has come to grips with his mortality. He will now decide how to deal with the inevitable.

The Dying Patient Orville G., Jr. Brim,Howard E. Freeman,Sol Levine,Norman A. Scotch,1970-12-31 There has hitherto been limited systematic social research on the prolongation and termination of life, and minimal agreement of the resolution of the moral and social dilemmas that dying provokes. Among the topics discussed by the contributors are: the social context of dying—when, where, and why people die; what they think about death; the cultural background of the patients' attitudes; and how medical practitioners cope with terminal illness. The social, ethical, legal, and economic problems arising from the prolongation and termination of life are also set forth.

The High Cost of Dying Reed Crandall,Al Feldstein,2016-02-10 Reed Crandall's mastery of fine line detail and expertly nuanced pen-and-ink texture is a perfect fit for EC Comics. This collection of 21 Crandall favorites, delineated in his classically illustrative style, includes “The Silent Towns,” a Ray Bradbury story about the last man and woman on Mars; “Carrion Death,” a stark horror story about a man struggling through the desert with a corpse handcuffed to his wrist as the vultures circle closer; “Sweetie-Pie,” the grisly story of a ghoul who sets up a roadside hazard to procure, um, fresh meat; “The Kidnapper,” about a man who decides to kidnap a baby to replace the baby that had been stolen from him and his wife; “Space Suitors,” a science fiction love triangle that leads to jealousy, betrayal, and murder, and “The High Cost of Dying,” the title story, in which a man must make an awful choice between burying his wife and feeding his children.

Death: The High Cost of Living Neil Gaiman,1994-05-10 From the pages of Neil Gaiman's SANDMAN comes the young, pale, perky, and genuinely likable Death. One day in every century, Death walks the Earth to better understand those to whom she will be the final visitor. Today is that day. As a young mortal girl named Didi, Death befriends a teenager and helps a 250-year old homeless woman find her missing heart. What follows is a sincere musing on love, life and (of course) death. Collects Death: The High Cost of Living #1-3.

Approaching Death Committee on Care at the End of Life,Institute of Medicine,1997-10-30 When the end of life makes its inevitable appearance, people should be able to expect reliable, humane, and effective caregiving. Yet too many dying people suffer unnecessarily. While an overtreated dying is feared, untreated pain or emotional abandonment are equally frightening. Approaching Death reflects a wide-ranging effort to understand what we know about care at the end of life, what we have yet to learn, and what we know but do not adequately apply. It seeks to build understanding of what constitutes good care for the dying and offers recommendations to decisionmakers that address specific barriers to achieving good care. This volume offers a profile of when, where, and how Americans die. It examines the dimensions of caring at the end of life: Determining diagnosis and prognosis and communicating these to patient and family. Establishing clinical and personal goals. Matching physical, psychological, spiritual, and practical care strategies to the patient's values and circumstances. Approaching Death considers the dying experience in hospitals, nursing homes, and other settings and the role of interdisciplinary teams and managed care. It offers perspectives on quality measurement and improvement, the role of practice guidelines, cost concerns, and legal issues such as assisted suicide. The book proposes how health professionals can become better prepared to care well for those who are dying and to understand that these are not patients for whom nothing can be done.
