**Formula funding of local public services** Great Britain: Parliament: House of Commons: Committee of Public Accounts,2011-11-16 This report examines existing approaches to formula funding across government, and the principles that should be carried forward to new arrangements. Government departments distributed £152 billion, one-fifth of all government spending, to local public bodies in 2011-12 based on the three grants considered: Primary Care Trust Allocations; Dedicated Schools Grant; and the Department for Communities and Local Government's Formula Grant. These distribute funding to local public bodies in a range of sectors, including health, education, local government, police and fire and rescue services. The formula funding systems are complex, difficult to understand, and have led to inequitable allocations. For Dedicated Schools Grant, based mainly on historical spending patterns, per pupil funding for schools with similar characteristics can vary by as much as 40%. Under Formula Grant, nearly 20% of authorities received allocations which are more than 10% different from calculated needs. The priorities accorded to different elements of the formulae are judgements which have a direct impact on the distribution of funds. In some cases the basis for the judgement is guided by authoritative, published independent advice. In other cases, the basis for judgement lacks transparency, and external advice lacks status and influence. Only 4% of respondents to DCLG's consultation supported the current version of the model used to calculate Formula Grant. Some of the data used by departments in calculating relative needs is inaccurate and out of date. Current reviews of formula funding provide opportunities to address the weaknesses identified in this report.

**Independent Parliamentary Standards Authority** Great Britain: Parliament: House of Commons: Committee of Public Accounts,2011-09-23 This report examines the first year of implementation of the MPs' expenses scheme, and proposals for improving service levels in the future. The Independent Parliamentary Standards Authority (IPSA) was established in the wake of the 2009 crisis in public confidence on MPs' expenses. IPSA established itself quickly and introduced a functioning expenses system on time in May 2010. Since then, IPSA has also been paying the salaries of MPs and their staff. Expenses have been paid within the rules, and MPs have been reimbursed accurately. In 2010-11, IPSA paid out over £118 million in total, comprising £98.6 million in salaries for MPs and their staff, and £19.5 million in MPs' expenses. IPSA assesses that 99.7% of all claims made by MPs are within the rules it has set. But its expenses scheme is expensive to administer and is not yet demonstrating value for money. Overall, 38% of claims submitted in 2010-11 were for less than the average cost IPSA incurs to process them. The Committee is also concerned about the lack of clear, easily accessible guidance for MPs and their staff, and the cumbersome nature of some processes, such as payment card reconciliation. There are two remaining issues which IPSA needs to address. Public confidence could be improved further if IPSA made clearer public statements about approved claims being wholly within the rules. And salaries should be separated from true expenses.

**What I Play When Dad's Away** Lucas Cash Creasy,2019-02 This book was written on the rodeo trail by a father who was wondering if his son missed him nearly as much as he missed his son. In this story, a young boy plays various roles and games by himself while waiting for his dad to come home from rodeos. The reader sees a young boy in his actual surroundings, whisked away by his imagination into the roles he assumes. Though his imagination keeps him busy, only one role truly takes him to where he wants to be.

Tony Scott Larry Taylor,2019-01-17 Tony Scott got his start as a film director when he joined his brother at the lucrative commercial directing company Ridley Scott Associates. After directing Top Gun--his second film, which changed not only the trajectory of his own life but of the entire action-movie industry--Scott's career would be a roller coaster of blockbuster hits, personal films and confounding failures. With extensive research and original interviews with actors, cinematographers and writers, this book documents Tony Scott's larger-than-life persona from his early days to his untimely death, which left a hole in genre filmmaking yet to be filled.

Texas Ranger James Patterson,2018-08-13 Instant #1 New York Times bestseller In James Patterson's white-hot Western thriller, a Texas Ranger fights for his life, his freedom, and the town he loves as he investigates his ex-wife's murder. Across the ranchlands and cities of his home state, Rory Yates's discipline and law-enforcement skills have carried him far: from local highway patrolman to the honorable rank of Texas Ranger. He arrives in his hometown to find a horrifying crime scene and a scathing accusation: he is named a suspect in the murder of his ex-wife, Anne, a devoted teacher whose only controversial act was ending her marriage to a Ranger. In search of the killer, Yates plunges into the inferno of the most twisted and violent minds he's ever encountered, vowing to never surrender. That code just might bring him out alive.

**Charlie's Resurrection** T-Way Creasy,2017-09-11 Charlie's Resurrection By: T-Way Creasy Imagine if you will, a talking scarecrow named Charlie with an intellectual mind and the ability to communicate to the animal world. When Charlie on his cross is suddenly blown over by a powerful thunderstorm and he doesn't have the "spine-bone strength to come to his own aid," it takes his animal friends to come to his rescue. Surprisingly, a crow named Cornelius even takes part in the rescue. To make matters worse, however, a large clan of crows (in the thousands), including a crow-militia, are about to descend upon the cornfield. The story includes a cat named Randolph\* who befriends two mice, an erratic brown rabbit named Bernice who gets into more trouble than she deserves, a fox who eats crow (in more ways than one), a nervous raccoon who has a speech problem, a crow who must defend his rights in the crow community and a scarecrow who dreams he is a human. The story unfolds from dusk to dawn as prey versus predator versus predator, the evolution of unusual friendships, family ties becoming broken, tragedy and mishap ensue, all coming together for one spectacular event—Charlie's Resurrection!
