What God Thinks When We Fail Steven C. Roy, 2011-09-13 What does God think of us when we fail? Does he think You're a loser. There's no hope for you. What a wimp! You're good for nothing! Or does he think something very different? If you've ever lost a job or a relationship, let your friends down, seen your finances collapse, found your ministry crumbling or failed to meet your own ethical standards, you might wonder if recovery is possible. Perhaps you've wondered if you can ever repair the damage done to others, to yourself and to your relationship with God. Steve Roy has good news for you. He had to face his own failures, but his failures also drove him deep into what God thinks about us and success, especially in Christian ministry. He searched deeply in Scripture and listened carefully to the stories of others. He found that God's view of success is very different from ours. And that a biblically grounded view of success and failure challenges our preconceived notions but leads to hopeful renewal that goes beyond what we often ask or think.

Divided We Fail Sarah Garland, 2013-01-29 Examines why school desegregation, despite its

success in closing the achievement gap, was never embraced wholeheartedly in the black community as a remedy for racial inequality. In 2007, a court case originally filed in Louisville, Kentucky, was argued before the Supreme Court and officially ended the era of school desegregation—both changing how schools across America handle race and undermining the most important civil rights cases of the last century. Of course, this wasn't the first federal lawsuit to challenge school desegregation. But it was the first—and only—one brought by African Americans. In *Divided We Fail*, journalist Sarah Garland deftly and sensitively tells the stories of the families and individuals who fought for and against desegregation. By reframing how we commonly understand race, education, and the history of desegregation, this timely and deeply relevant book will be an important contribution to the continued struggle toward true racial equality.

Divided We Fail Crystal M. England, 2005 In *Divided We Fail*, Crystal England calls for a new unity among public education professionals, asking them to raise their consciousness beyond the walls of

their own school buildings to recognize the stubborn inequities between the educations of our country's haves and have-nots.

To Life Rachel Angel Sussman, 2015-12-18 *To Life* brings to paper the author's thirty-year journey of inner and outer exploration. It aims to support the readers toward the way back home and to ultimately contribute to humanity and our planet. The author recognises that it is only by means of each individual coming home that personal lives can be enriched and bettered and that hope can be brought to today's troubled world and humanity. *To Life* asks the essential questions about life, humanity, and individual existence—questions that must be asked if we are to live consciously,

meaningfully, joyfully, and fully and be whole and at peace with ourselves, with each other, and with all life on this planet. To Life is not only inspirational but also practical. The nature of an inner journey with its potential joys and trials unveils as the author takes the readers by the hand, supports, encourages, and guides them toward taking the steps required to make their own discoveries and to realise who they are at essence as human beings and as the individuals they are. Indeed, they are shown the path back home. These steps include the unveiling of the human condition with its gifts and pitfalls, the discovery of one's centre and learning how to stay with it, the unveiling of the mystery of life's experiences, of one's feelings and thoughts and learning how to be with them, and the realisation of the true power, freedom, and love within.

Most of the education reform community has sought ways to make separate but equal schooling work

better, but is this really the best course for our students? This report recommends improving schools by promoting economic and racial integration through public school choice.

Christ the Logos of Creation: An Essay in Analogical Metaphysics John R. Betz, 2023-09-28 The Prologue of the Gospel of John identifies Jesus Christ as the eternal Word or Logos of the Father, who became flesh for the salvation of the world. Yet the world that Christ saves is his world from the beginning, for he is also the Logos of creation, the one “through whom all things were made” (John 1:3). This divinely revealed claim has profound implications not only for theology but also for metaphysics, whose relation to Christian doctrine was undermined over the course of the twentieth century, such that the Christian faith has become an increasingly private affair rather than a credible account of reality and an invitation to participate more fully in it. With Christ, the Logos of Creation, John Betz seeks to recover a Christ-centered, analogical metaphysics and to establish the indispensability of such metaphysics for Christian theology and the Christian vision of reality. In Part I, he dispels the fog of confusion about analogical metaphysics and addresses the ecumenical issues

posed by Karl Barth's famous rejection of the *analogia entis*. Part II demonstrates how analogical metaphysics helps to explain Christian doctrine and sheds new light on the interrelationship between individual doctrines, including Trinitarian theology, Christology and soteriology, and theological anthropology. In Part III, Betz explores how this analogical perspective can aid in resolving a number of theological disputes, including the metaphysical relationship between nature and grace and the issue of divine humility. Finally, Part IV outlines further directions toward a fully Christological metaphysics that is proportionate both to the challenges of modern theology and the reality of our life in Christ the Logos.

Performing a Christian Life Thomas D. Kennedy, 2019-11-13 We want to live good lives, but determining what a good life is isn't easy, especially if we want the lives we lead to be ours, rather than somebody else's. Tom Kennedy helps us see why it is hard to find our way when it comes to living well and what we can do about that. Finding our way requires knowing who we are,

understanding ourselves, and Christians, because of their experience with God, will understand themselves differently than others in at least some ways. Kennedy explores that understanding and discovers that Christian encounters with God lead to beliefs about God, human nature, forgiveness, values, and loving well that have important implications for what we do and feel, for how we should live. In clear and familiar language, and with probing questions, he helps us think more carefully, and deeply, about our identities and what it should look like for us to live well.

Organizing through Empathy Kathryn Pavlovich, Keiko Krahne, 2013-09-11 Empathy dissolves the boundaries between self and others, and feelings of altruism towards others are activated. This process results in more compassionate and caring contexts, as well as helping others in times of suffering. This book provides evidence from neuroscience and quantum physics that it is empathy that connects humanity, and that this awareness can create a more just society. It extends interest in values-based management, exploring the intellectual, physical, ecological, spiritual and aesthetic well-

being of organizations and society rather than the more common management principles of maximising profit and efficiency. This book challenges the existing paradigm of capitalism by providing scientific evidence and empirical data that empathy is the most important organizing mechanism. The book is unique in that it provides a comprehensive review of the transformational qualities of empathy in personal, organizational and local contexts. Integrating an understanding based upon scientific studies of why the fields of positive psychology and organizational scholarship are important, it examines the evidence from neuroscience and presents leading-edge studies from quantum physics with implications for the organizational field. Together the chapters in this book attempt to demonstrate how empathy helps in the reduction of human suffering and the creation of a more just society.

Faith Embodied Stephen Ko, 2024-04-16 Scientist, physician, and pastor Stephen Ko explains how to live and worship incarnationally and glorify God with our bodies. Many of us don't see much connection between spiritual and physical health. We say grace before digging into greasy, fatty meals we know are bad for us. We read Scripture on our phones before switching to social media feeds that

hijack the neural circuitry in our brains. Or we take our physical health too seriously, distancing ourselves from the sick and the needy whom Jesus embraced. On his journey from pediatrician to public health officer for the CDC to senior pastor of the largest New York Chinese Alliance Church, Stephen Ko has seen that these divisions between physical and spiritual health are artificial. In Faith Embodied, he reminds us that our bodies are temples of the Holy Spirit (1 Corinthians 6:19). Christ incarnate is deity in flesh, and His spirit is incarnate in us. Living and worshiping incarnationally is consciously embracing what the Creator has designed in His image, from the finest, microscopic details to vital organs within our body, enabling the Holy Spirit to work in us. Faith Embodied will teach you to: Understand subconscious ways that thwart the design of the Creator. Embrace choices that invite incarnational health, living, and worship. Experience God in every aspect of your life, from flesh and bone to heart and soul. View the five senses (sight, smell, hearing, touch, taste) in a different light. Reflect the image of God in the way you breathe, move, create, love, and rest. Weaving together insights from faith, science, and medicine, Ko reveals the marvelous ways in which our physical and

spiritual health can prepare us to become instruments of God's healing in the world. A companion streaming video study is also available.
