*Dictionaries. An International Encyclopedia of Lexicography* Rufus Gouws,Ulrich Heid,Wolfgang Schweickard,Herbert Ernst Wiegand,2013-12-18 The basis for this additional volume are the three volumes of the handbooks *Dictionaries. An International Encyclopedia of Lexicography* (HSK 5.1-5.3), published between 1989 and 1991. An updating has been perceived as an important desideratum for a considerable time. In the present Supplementary Volume the premises and subjects of HSK 5.1-5.3 are complemented by new articles that take account of the practice-internal and theoretical developments of the last 15 years. Special attention has been given to the following topics: the status and function of lexicographic reference works, the history of lexicography, the theory of lexicography, lexicographic processes, lexicographic training and lexicographic institutions, new metalexicographic methods, electronic and, especially, computer-assisted lexicography.

Developing Microsoft Dynamics GP Business Applications Leslie Vail,2012-01-01 Written in a hands-on and friendly manner, *Developing Microsoft Dynamics GP Business Applications* takes a practical approach to teaching you how to develop and customize ERP applications. If you are a Microsoft Dynamics GP developer, consultant, or power user who wants to create and customize applications, then this book is for you. *Ancient Greece and Rome* Keith Hopwood,1995 Sir Thomas Fairfax, not Oliver Cromwell, was creator and commander of Parliament's New Model Army from 1645 to1650. Although Fairfax emerged as England's most successful commander of the 1640s, this book challenges the orthodoxy that he was purely a military figure, showing how he was not apolitical or disinterested in politics. The book combines narrative and thematic approaches to explore the wider issues of popular allegiance, puritan religion, concepts of honour, image, reputation, memory, gender, literature, and Fairfax's relationship with Cromwell. 'Black Tom' delivers a groundbreaking examination of the transformative experience of the English revolution from the viewpoint of one of its leading, yet most neglected, participants. It is the first modern academic study of Fairfax, making it essential reading for university students as well as historians of the seventeenth century. Its accessible style will appeal to a wider audience of those interested in the civil wars and interregnum more generally.

*California. Court of Appeal (2nd Appellate District). Records and Briefs* California (State).,

**Murdering Animals** Piers Beirne,2018-03-12 *Murdering Animals* confronts the speciesism underlying the disparate social censures of homicide and “theriocide” (the killing of animals by humans), and as such, is a plea to take animal rights seriously. Its substantive topics include the criminal prosecution and execution of justiciable animals in early modern Europe; images of hunters put on trial by their prey in the upside-down world of the Dutch Golden Age; the artist William Hogarth’s patriotic depictions of animals in 18th Century London; and the playwright J.M. Synge’s representation of parricide in fin de siècle Ireland. Combining insights from intellectual history, the history of the fine and performing arts, and what is known about today’s invisibilised sites of animal killing, *Murdering Animals* inevitably asks: should theriocide be considered murder? With its strong multi- and interdisciplinary approach, this work of collaboration will appeal to scholars of social and species justice in animal studies, criminology, sociology and law.
