Management 3.0 Jurgen Appelo,2011 In many organizations, management is the biggest obstacle to successful Agile development. Unfortunately, reliable guidance on Agile management has been scarce indeed. Now, leading Agile manager Jurgen Appelo fills that gap, introducing a realistic approach to leading, managing, and growing your Agile team or organization. Writing for current managers and developers moving into management, Appelo shares insights that are grounded in modern complex systems theory, reflecting the intense complexity of modern software development. Appelo's Management 3.0 model recognizes that today's organizations are living, networked systems; and that management is primarily about people and relationships. Management 3.0 doesn't offer mere checklists or prescriptions to follow slavishly; rather, it deepens your understanding of how organizations and Agile teams work and gives you tools to solve your own problems. Drawing on his extensive experience as an Agile manager, the author identifies the most important practices of Agile management and helps you improve each of them. Coverage includes • Getting beyond "Management 1.0" control and "Management 2.0" fads • Understanding how complexity affects your organization • Keeping your people active, creative, innovative, and motivated • Giving teams the care and authority they need to grow on their own • Defining boundaries so teams can succeed in alignment with business goals • Sowing the seeds for a culture of software craftsmanship • Crafting an organizational network that promotes success • Implementing continuous improvement that actually works Thoroughly pragmatic--and never trendy--Jurgen Appelo's Management 3.0 helps you bring greater agility to any software organization, team, or project.

The Adventure of French Philosophy Alain Badiou,2022-03-01 The Adventure of French Philosophy is essential reading for anyone interested in what Badiou calls the "French moment" in contemporary thought. Badiou explores the exceptionally rich and varied world of French philosophy in a number of groundbreaking essays, published here for the first time in English or in a revised translation. Included are the often-quoted review of Louis Althusser's canonical works *For Marx* and *Reading Capital* and the scathing critique of "potato fascism" in Gilles Deleuze and Félix Guattari's *A Thousand Plateaus*. There are also talks on Michel Foucault and Jean-Luc Nancy, and reviews of the work of Jean-François Lyotard and Barbara Cassin, notable points of interest on an expansive tour of modern French thought. Guided by a small set of fundamental questions concerning the nature of being, the event, the subject, and truth, Badiou pushes to an extreme the polemical force of his thinking. Against the formless continuum of life, he posits the need for radical discontinuity; against the false modesty of finitude, he pleads for the mathematical infinity of everyday situations; against the various returns to Kant, he argues for the persistence of the Hegelian dialectic; and against the lure of ultraleftism, his texts from the 1970s vindicate the role of Maoism as a driving force behind the communist Idea.

Dear American Airlines Jonathan Miles,2009 From the cocktails columnist at the The New York Times comes the scathingly funny, deeply moving story of a stranded airline passenger, whose enraged letter of complaint transforms into a lament for a life gone awry.

Queer Bangkok Peter A. Jackson, 2011-03-01 The Thai capital Bangkok is the unrivalled centre of the country's gay, lesbian and transgender communities. These communities are among the largest in Southeast Asia, and indeed in the world, and have a diversity, social presence and historical depth that set them apart from the queer cultures of many neighbouring societies. The first years of the 21st Century have marked a significant transition moment for all of Thailand's LGBT cultures, with a multidimensional expansion in the geographical extent, media presence, economic importance, political impact, social standing, and cultural relevance of Thai queer communities. This book analyzes the roles of the market and media - especially cinema and the Internet - in these transformations, and considers the ambiguous consequences that the growing commodification and mediatization of queer lives have had for LGBT rights in Thailand. A key finding is that in the early 21st Century processes of global queering are leading to a growing Asianisation of Bangkok's queer cultures. This book traces Bangkok's emergence as a central focus of an expanding regional network linking gay, lesbian and transgender communities in Hong Kong, Singapore, Taiwan, Indonesia, the Philippines and other rapidly developing East and Southeast Asian societies. Peter A. Jackson is associate professor in the School of Culture, History and Language at Australian National University. The myriad faces of Thai gender/sexuality culture have been an attraction for both pleasure-seekers and researchers/scholars/activists. Exploring the rapidly changing LGBT cultures and Thai queer identities, the essays collected here provide insightful analyses of historical continuities as well as developing variations within the highly complex erotic/economic texture of Thai society. A must-read for anyone in the booming field of gender/sexuality studies. - Josephine Ho, Chair Professor, Center for the Study of Sexualities, National Central University, Taiwan

Your Immortal Reality Gary R. Renard, 2010-07-09 In this fascinating book, Gary Renard and his Ascended Master Teachers, Arden and Pursah, teach you how to integrate advanced spiritual principles into your everyday life. Doing so leads beyond theory to an experience of the Divine and the undoing of the ego. Your progress will be accelerated to such a degree that, with continued practice, you can't help but stop the need to reincarnate . . . once and for all. Like Gary's first book, *The Disappearance of the Universe*, this work elaborates on the teachings of two spiritual classics, *The Gospel of Thomas* and *A Course in Miracles*. By focusing on a unique brand of quantum forgiveness, rather than the old-fashioned kind, and taking the understanding of the importance of thought up to a whole new level, your goal will become nothing less than to break the cycle of birth and death.

A History of the Book in America David Paul Nord, Joan Shelley Rubin, Michael Schudson, 2015-12-01 The fifth volume of *A History of the Book in America* addresses the economic, social, and cultural shifts affecting print culture from World War II to the present. During this period factors such as the expansion of government, the growth of higher education, the climate of the Cold War, globalization, and the development of multimedia and digital technologies influenced the patterns of consolidation and diversification established earlier. The thirty-three contributors to the volume explore the evolution of the publishing industry and the business of bookselling. The histories of government publishing, law and policy, the periodical press, literary criticism, and reading--in settings such as schools, libraries, book clubs, self-help programs, and collectors' societies--receive imaginative scrutiny as well. The *Enduring Book* demonstrates that the corporate consolidations of the last half-century have left space for the independent publisher, that multiplicity continues to define American print culture, and that even in the digital age, the book endures. Agricultural Extension Reforms in South Asia Suresh Chandra Babu,P.K. Joshi,2019-06-27 Agricultural Extension Reforms in South Asia: Status, Challenges, and Policy Options is based on agricultural extension reforms across five South Asian countries, reflecting past experiences, case studies and experiments. Beginning with an overview of historical trends and recent developments, the book then delves into country-wise reform trajectories and presents several cases testing the effectiveness of different types (public and private) and forms (nutrition extension, livestock extension) of extension systems. Further, the book provides a comprehensive overview of challenges and constraints faced in formulating and implementing reforms, tying the results into a concrete set of lessons and highlighting areas that require further research. Presents the current challenges and solutions by region, and provides insights for application in global settings Provides key foundational information for the effective and efficient design of future intervention programs Includes workshops and presentations based on real-world research of specific aspects of extension systems and provision of advisory and consultation services to various governments
