Smart Universities Vladimir L. Uskov, Jeffrey P.

Bakken, Robert J. Howlett, Lakhmi C. Jain, 2017-05-18 This book presents peer-reviewed contributions on smart universities by various international research, design and development teams. Smart university is an emerging and rapidly evolving area that creatively integrates innovative concepts; smart software and hardware systems; smart classrooms with state-of-the-art technologies and technical platforms; smart pedagogy based on

modern teaching and learning strategies; smart learning and academic analytics; as well as various branches of computer science and computer engineering. The contributions are grouped into several parts: Part 1—Smart Universities: Literature Review and Creative Analysis, Part 2—Smart Universities: Concepts, Systems and Technologies, Part 3—Smart Education: Approaches and Best Practices, and Part 4—Smart Universities: Smart Long Life Learning. The book is a valuable source of research data and findings, design and development outcomes, and best practices for faculty, scholars, Ph.D students, administrators, practitioners and anyone interested in the rapidly growing areas of smart university and smart education.

Webinars For Dummies Sharat Sharan, John

Carucci, 2014-07-14 Gather an audience from around the globe with webinars Webinars For Dummies takes the guesswork and uncertainty out of webinar creation. Written by John Carucci under the guidance of webinar technology company ON24, the book provides a roadmap for creating a webinar that effectively communicates to the audience without boring them to sleep. Webinars For Dummies gives you the insider's perspective on techniques that have been proven effective time and again. Webinars are becoming increasingly common as a way for businesses to connect with customers and partners without distance being a factor. Whether they take the form of a live presentation, a PowerPoint slideshow, or a combination of both, the beauty of the webinar is that it can be archived and viewed again after the initial set presentation. But this feature also adds a burden to the webinar creator, as the presentation must be understood outside of the live context. Creating what is essentially an archival presentation means considering a host of factors surrounding both content and organization. Webinars For Dummies includes all the information your business needs to start creating custom webcasts, including: A webinar overview, and how to determine your need, budget, and available tools Topic

selection, script creation, graphic production, and marketing Creation advice, including live troubleshooting and how to handle viewer questions Archiving tips, and how to integrate webinars into a marketing plan You'll also find special tips for effective production and marketing, tips for readying yourself for the webinar, and case studies that illustrate successful webinar techniques. Modern business is rarely localized, and webinars are an effective way to communicate live, on a global scale. Webinars For Dummies helps you ensure your business doesn't get left behind.

Multidisciplinary Research and Practice for Informations Systems Gerald Quirmayer,Josef Basl,Ilsun You,Lida Xu,Edgar Weippl,2012-08-14 This book constitutes the refereed proceedings of the IFIP WG 8.4, 8.9, TC 5 International Cross Domain Conference and Workshop on Availability, Reliability and Security, CD-ARES 2012, held in Prague, Czech Republic, in August 2012. The 50 revised papers presented were carefully reviewed and selected for inclusion in the volume. The papers concentrate on the many aspects of information systems bridging the gap between research results in computer science and the many application fields. They are organized in the following topical sections: cross-domain applications: aspects of modeling and validation; trust,security, privacy, and safety; mobile applications; data processing and management; retrieval and complex query processing; e-commerce; and papers from the colocated International Workshop on Security and Cognitive Informatics for Homeland Defense, SeCIHD 2012.

Visualizing Digital Discourse Crispin Thurlow,Christa Dürscheid,Federica Diémoz,2020-02-10 The first dedicated volume of its kind, Visualizing Digital Discourse brings together sociolinguists and discourse analysts examining the role of visual communication in digital media. The volume showcases work from leading, established and emerging scholars from across Europe, covering a diverse range of digital media platforms such as

messaging, video-chat, gaming and wikis; visual modalities such as emojis, video and layout; methodologies like discourse analysis, ethnography and conversation analysis; as well as data from different languages. With an opening chapter by Rodney Jones, the volume is organized into three parts: Besides Words and Writing, The Social Life of Images, and Designing Multimodal Texts. From the perspective of these broad domains, chapters tackle some of the major ideological, interactional and institutional implications of visuality for digital discourse studies. The first part, beginning with a co-authored chapter by Crispin Thurlow, focuses on micro-level visual practices and their macro-level framing – all with particular regard for emojis. The second part, beginning with a chapter from Sirpa Leppänen, examines the ways visual resources are used for managing personal relations, and the wider cultural politics of visual representation in these practices. The third part, beginning with a chapter by Hartmut Stöckl, considers organizational contexts where users deploy visual resources for more transactional, often commercial ends.

Researching Language and Social Media Ruth Page,David Barton,Carmen Lee,Johann Wolfgang Unger,Michele Zappavigna,2022-02-27 Researching Language and Social Media: A Student Guide introduces the linguistic frameworks currently used to analyse language found in social media contexts. This highly accessible guidebook outlines the practical steps and ethical guidelines entailed when gathering linguistic data from social media sites and platforms. In this new edition, the authors update the range of social media interactions used as examples and draw attention to important developments such as “fake news” and new areas of debate such as hate speech. Expanding the geographical and multilingual aspects, this edition also includes examples from Asia and the Arabic-speaking world. With updated methods that help students study the language of social media from a multimodal perspective, the recent uptake in image sharing, video-chat, and graphicons will also be addressed. Each chapter begins with a clear summary of the topics covered and also suggests sources for further reading to supplement the initial discussion and case studies. This timely book is an essential guide for students of English language and linguistics, media, and

communication studies.

Exploring the Effectiveness of Online Education in K-12 Environments Heafner, Tina L.,2014-08-31 The integration of technology in classrooms is rapidly emerging as a way to provide more educational opportunities for students. As virtual learning environments become more popular, evaluating the impact of this technology on student success is vital. Exploring the Effectiveness of Online Education in K-12 Environments combines empirical evidence and best practices in current K-12 distance learning and virtual schools. Emphasizing current research and opportunities, this book is an all-inclusive reference source for administrators, teachers, researchers, teacher educators, and policymakers interested in the development and implementation of blended and electronic learning in primary and secondary education.

Handbook of Research on Emerging Practices and Methods for K-12 Online and Blended Learning Heafner, Tina Lane,Hartshorne, Richard,Thripp, Richard,2019-01-11 National efforts have been made to encourage technology integration in teacher preparation with expectations for frequent and successful applications with K-12 learners. While online learning has become pervasive in many fields in education, it has been somewhat slow to catch on in K-12 settings. The Handbook of Research on Emerging Practices and Methods for K-12 Online and Blended Learning is a collection of innovative research on the applications of technology in online and blended learning environments in order to develop quality courses, explore how content is delivered across disciplines and settings, and support the formation of relationships and enrichment opportunities. While highlighting topics including learning initiatives, institutional policies, and program structures, this book is ideally designed for teachers, principals, early childhood development centers, university faculty, administrators, policymakers, researchers, and practitioners.

Group Decision and Negotiation: Behavior, Models, and Support Danielle Costa Morais,Ashley Carreras,Adiel Teixeira de

Almeida,Rudolf Vetschera,2019-05-31 This book constitutes the refereed proceedings of the 19th International Conference on Group Decision and Negotiation, GDN 2019, held in Loughborough, UK, in June 2019. The field of Group Decision and Negotiation focuses on decision processes with at least two participants and a common goal but conflicting individual goals. Research areas of Group Decision and Negotiation include electronic negotiations, experiments, the role of emotions in group decision and negotiations, preference elicitation and decision support for group decisions and negotiations, and conflict resolution principles. The 17 full papers presented in this volume were carefully reviewed and selected from 98 submissions. They were organized in topical sections named: preference modeling for group decision and negotiations; collaborative decision making processes; conflict resolution; behavioral OR, and negotiation support systems and studies.

Social Research Methods Joshua Iyadurai,2023-06-15 This book demystifies designing and conducting qualitative, quantitative, and mixed methods research with scientific rigor. *Social Research Methods*, benefits researchers from theology and religious studies in designing interdisciplinary research and interacting with social sciences and other disciplines to study contextually relevant issues by focusing on lived religion, lived theology, lived experience, and real-world problems. Joshua Iyadurai skillfully guides researchers with a step-by-step guide on the practical nuances of choosing a topic, engaging literature, selecting a paradigm, collecting and analyzing data, interpreting the findings, and writing a research proposal and a dissertation/thesis/article for qualitative, quantitative, and mixed methods research. A separate chapter on supervising and examining social research helps students and professors to understand each other's role in field-based studies. *Social Research Methods* is an indispensable resource for researchers from theology and religious studies and a valuable practical guide for researchers from social sciences and

humanities. Why Read this Book? · Instills confidence in researchers to design and conduct qualitative, quantitative, and mixed methods research with scientific rigor. · The first of its kind to introduce qualitative, quantitative, and mixed methods strategies with guidance for choosing a topic and collecting and analyzing data for theology and religious research. · Up to date and authoritative by arraying current and leading methodology texts with examples for researching lived experiences, lived religion, and lived theology. · A step-by-step guide for writing every section of a research proposal and for writing each chapter for qualitative, quantitative, and mixed methods dissertation/thesis, which will make the research journey pleasant for students. · Provides tips for writing DMin dissertation and journal article. · Offers guidelines for supervisors and examiners for assisting and assessing student projects. · Review Questions and Further Help at the end of each chapter; Glossary and Index, which are among other helpful resources for researchers. · An invaluable resource for students and professors from social sciences, education, development, management, and the humanities, besides theology and religious studies. · A practical guide for researchers from churches, religious bodies, NGOs, and others. Review Quotes: “Compared to other approaches to theology and religious studies, missiology has the propensity to use social science methods. This clearly written introduction to complex terrain will enable students to navigate it and develop tools for their own project, and students are more likely to recognize their research interests in its examples. Especially useful features include the glossary and the section on student supervisors/mentors and examiners. This volume is authoritative and cognisant of other leading texts.” KIRSTEEN KIM, Pierson Professor of World Christianity, Fuller Theological Seminary, co-editor of *The Oxford Handbook of Mission Studies* “This textbook fills an important niche for postgraduate researchers embarking on empirical research in Practical Theology or Religious Studies.

Those who have little or no background in the social sciences will find this a clear and well-structured introduction on how to conceive a research project and what methods are available to answer their research questions. Reading this before they embark on their journey could save a lot of problems further down the road.” ANDREW VILLAGE, Professor of Practical and Empirical Theology, York St John University, author of *The Church of England in the First Decade of the 21st Century* “Here is a fascinating and engaging handbook every researcher in theology and religious studies should read and assimilate. It fulfils a felt need by pooling the wealth of sociological methodologies and applying them to the scientific study of lived religion. The author has done a unique service, and his work will remain a point of reference for years.” FELIX WILFRED, Founder and Director of Asian Centre for Cross Cultural Studies, Chennai, editor of *The Oxford Handbook of Christianity in Asia* It is very good to see the use of social science methods being developed to aid religious studies and theological research. My hope is that this very practical book, using such up-to-date resources as Alan Bryman’s *Social Research Methods* (OUP) now in its fifth edition, will help to develop this important form of study further. ROBIN GILL, Emeritus Professor of Applied Theology, University of Kent, author of the trilogy on *Sociological Theology* “This volume fills an important gap in the field by bringing social scientific methods into theology and religious studies. All parties in this conversation have much to gain from a sustained dialogue, and this book moves us in that direction.” JOHN BARTKOWSKI, Professor - Sociology, University of Texas at San Antonio “This is a valuable resource written in a way that theological students will understand, and supervisors will appreciate! It takes the student “by the hand” from the formulation of the research topic through methodological positioning and choices and closes with a chapter on supervision expectations. I look forward to prescribing it to my own postgraduate students.” NADINE BOWERS DU TOIT, Professor -

Theology and Development, University of Stellenbosch, editor of *Race, Faith and Inequality amongst Young Adults in South Africa*: “The highly readable, yet exhaustive and authoritative text covers all aspects of the variety of methods available to contemporary scientists who either produce or evaluate empirical research. The text is intended for students and scholars of theology and religious studies, but anyone interested in how religion is practiced in different cultural contexts and want to understand individual lived experiences and interpretations will find this text an invaluable guide.” RALPH W. HOOD Jr., Professor of Psychology, University of Tennessee, co-editor of *Research in the Social Scientific Study of Religion* series Upon launching out on research, students and scholars are always on the lookout for good books on research methodology. In Dr Iyadurai’s book, they will find an excellent manual spanning the length and breadth of what they are looking for. I strongly recommend this book to all those engaged in research. FRANCIS GONSALVES SJ, President, Jnana Deepa: Pontifical Athenaeum of Philosophy & Theology, author of *God of Our Soil: Towards Subaltern Trinitarian Theology* Joshua Iyadurai has been teaching research methods to PhD students in Christian Studies for over a decade. He is an expert facilitator in this hybrid field, helping both theology and religious studies students use social research methods more rigorously and effectively. This book will be immensely helpful to anyone wanting to do research in the field of religion, as well as to those in classes focused on research methods. I highly recommend it. ROBERT K. JOHNSTON, Professor of Theology and Culture, Fuller Theological Seminary, co-author of *Deep Focus: Film and Theology in Dialogue* *Social Research Methods for Students and Scholars of Theology and Religious Studies* is a masterpiece that draws from Joshua's experience of teaching social research for two decades. The book aims to catalyze theological scholarship using social research methods with scientific precision. Scholars, educators, and graduate students will find this text a welcome resource. I highly

recommend it! DAVID TARUS, Executive Director, Association for Christian Theological Education in Africa (ACTEA), author of *A Different Way of Being*

Dopaminergic System Function and Dysfunction:

Experimental Approaches José Antonio Fuentealba-Evans, Pablo Henny, 2022-12-07 This volume provides a variety of technical approaches to study dopamine system function and dysfunction. Chapters guide readers through dopamine release in ex vivo and freely moving animals, multi-recording devices for in vivo simultaneous single cell and population activity, in silico modeling of dopamine neurons activity, neuroanatomical approaches, unbiased stereology, ultrastructural analyses of dopaminergic neurons, and axonal innervation. Additionally, chapters also incorporate pharmacological tools to model neuropsychiatric diseases, novel behavioral paradigms to dissect dopamine's role in behavior, and functional imaging to follow human dopamine system development. In the Neuromethods series style, chapters include the kind of detail and key advice from the specialists needed to get successful results in your laboratory. Comprehensive and cutting-edge, *Dopamine Neurotransmission* aims to be a valuable resource for researchers in various disciplines.

Research Anthology on Developing Effective Online Learning Courses

Management Association, Information Resources, 2020-12-18 In the current educational environment, there has been a shift towards online learning as a replacement for the traditional in-person classroom experience. With this new environment comes new technologies, benefits, and challenges for providing courses to students through an entirely digital environment. With this shift comes the necessary research on how to utilize these online courses and how to develop effective online educational materials that fit student needs and encourage student learning, motivation, and success. The optimization of these online tools requires a deeper look into curriculum, instructional design, teaching techniques, and new models for student assessment and evaluation. Information on how to create valuable online course content, engaging lesson plans for the digital space, and meaningful student activities online are only a few of many current topics of interest for promoting student achievement through online learning. The Research Anthology on Developing Effective Online Learning Courses provides multiple perspectives on how to develop engaging and effective online learning courses in the wake of the rapid digitalization of education. This book includes topics focused on online learners, online course content, effective online instruction strategies, and instructional design for the online environment. This reference work is ideal for curriculum developers, instructional designers, IT consultants, deans, chairs, teachers, administrators, academicians, researchers, and students interested in the latest research on how to create online learning courses that promote student success.

Blended Learning: Concepts, Methodologies, Tools, and Applications

Management Association, Information Resources, 2016-08-18 Traditional classroom learning environments are quickly becoming a thing of the past as research

continues to support the integration of learning outside of a structured school environment. Blended learning, in particular, offers the best of both worlds, combining classroom learning with mobile and web-based learning environments. Blended Learning: Concepts, Methodologies, Tools, and Applications explores emerging trends, case studies, and digital tools for hybrid learning in modern educational settings. Focusing on the latest technological innovations as well as effective pedagogical practice, this critical multi-volume set is a comprehensive resource for instructional designers, educators, administrators, and graduate-level students in the field of education.

Windows 7 Annoyances David Karp, 2010-05-04 Explains how to improve Windows 7 and do more with the software than Microsoft intended, with helpful information on setup, installation, upgrade from other Windows versions, the new interface, new security features, user accounts, troubleshooting, and In

Intersections of Peace and Language Studies Erin A. Mikulec, Sai Bhatawadekar, Cuhullan Tsuyoshi McGivern, Paul Chamness Iida, 2022-01-01 Readings in Language Studies, Volume 7: Intersections of Peace and Language Studies features international contributions that represent state-of-the-field reviews, multi-disciplinary perspectives, theory-driven syntheses of current scholarship, reports of new empirical research, reflections on pedagogical practices, and critical discussions of major topics centered on the intersection of language studies and peace. Consistent with the mission of ISLS, the collection of 13 chapters in this volume seeks to “bridge these arbitrary disciplinary territories and provide a forum for both theoretical and empirical research, from existing and emergent research methodologies, for exploring the relationships among language, power, discourses, and social practices.” Language and peace are in themselves incredibly complex concepts. They are simultaneously interpersonal in their function and effect as well as intimately personal in their experience. From everyday

communication to the pragmatics of world diplomacy, from embracing a foreign culture to embarking upon a journey of self-awareness, language and peace are inseparably intertwined. To reveal their myriad interconnections, in local and global contexts, is a limitless task; nevertheless, we attempt to bring you a few glimpses from far corners of the world. It is also a linguistic and postcolonial mission of this society and the book series to publish the voices of non-native speakers of English. Decolonizing the academic enterprise is part of our commitment to diversity.

Smart Education and e-Learning 2016 Vladimir L.

Uskov, Robert J. Howlett, Lakhmi C. Jain, 2016-06-13 This book contains the contributions presented at the 3rd international KES conference on Smart Education and Smart e-Learning, which took place in Puerto de la Cruz, Tenerife, Spain, June 15-17, 2016.
