Interactive Dictations Judy DeFilippo, Catherine Sadow, 2014 Interactive Dictations is a low-intermediate to intermediate level text that is intended to improve the listening, speaking, and writing skills of ESL students. Each dictation is preceded by an introduction and vocabulary/pronunciation work and is followed by discussion topics. Pair and small-group work is encouraged. Following the discussions, there are an optional writing topic and a variety of other activities, including idiom/vocabulary work, role plays, and many cooperative learning activities. Reading skills are also reinforced, along with attention to vocabulary and grammar. This text provides a wide variety of dictations that include provocative news items, problems to solve, and decisions to make. - There are four different types of dictation: - Partial (Cloze): Students listen and fill in the blanks in the activity. - Pair: Students work in pairs with different gaps in their passages. - Dictogloss: Students hear a sentence once and have to write the gist of that sentence. - Prediction: Students predict what should be in the sentence blank and then check to see if their prediction was correct. An (optional) audio program is available for download. Visit ProLinguaLearning.com for details.
