The Jewel Box Tim Blackburn,2023-05-16 A plastic box with a lightbulb attached may seem like an odd birthday present. But for ecologist Tim Blackburn, a moth trap is a captivating window into the world beyond the roof terrace of his London flat. Whether gaudy or drab, rare or common, each moth ensnared by the trap is a treasure with a story to tell. In *The Jewel Box*, Blackburn introduces these mysterious visitors, revealing how the moths he catches reflect hidden patterns governing the world around us. With names like the Dingy Footman, Jersey Tiger, Pale Mottled Willow, and Uncertain, and at least 140,000 identified species, moths are fascinating in their own right. But no moth is an island—they are vital links in the web of life. Through the lives of these overlooked insects, Blackburn introduces a landscape of unseen ecological connections. The flapping of a moth's wing may not cause a hurricane, but it is closely tied to the wider world, from the park down the street to climatic shifts across the globe. Through his luminous prose and infectious sense of curiosity, Blackburn teaches us to see—and respect—the intricate web of nature in which we're all caught. *The Jewel Box* shows us how the contents of one small box can illuminate the workings of all nature.

Dinosaur Island Max Haynes,1991 Maddy and Bing take off in their little boat to find Dinosaur Island, which only appears once a year.

DINOSAUR ISLAND K. T. Tomb,2016-10-26 In *DINOSAUR ISLAND*, a military deserter steals the identity of a dead man and becomes John Lee. After years on the lam while acquiring skills as a yogi and a thug, John Lee sets sail on Captain Sykes' clipper ship to finally head back to England with his new identity. However, when Dr. Pikeham discovers that John Lee is an imposter, instead of turning him into the authorities, he offers him a job as his personal aide and protector on forays to dangerous, primitive islands so he can continue his work of studying and cataloguing the native animals. While on a shore expedition, John, Pikeham, and Sykes abandon Pikeham's scientific equipment and flee back to the ship before Siamese pirates can attack. Losing the pirates in a typhoon, the damaged ship encounters a mysterious island. When they go ashore to gather supplies and items to repair the ship, they encounter dinosaurs. And some of them are carnivorous...

Pirates on Dinosaur Island Mark Edwards,2012-02-22 Dr. Christopher Lemuel escapes England on a privateer after he has the misfortune of winning a duel. With his life in jeopardy, he signs on as ship's doctor only to face further dangers on the high seas. The good doctor is wounded in a sea battle, captured by pirates, and reluctantly becomes a buccaneer. Then matters become stranger still when Dr. Lemuel is marooned on an island populated by enormous beasts unknown in natural history.
