The Rough Guide to MySpace Peter Buckley,2006 From Bebo

and Friendster to MySpace Music--Cover.

How To Be A Professional Drummer Matt Jones,

Traction Gabriel Weinberg, Justin Mares, 2015-10-06 Most

startups don't fail because they can't build a product. Most startups fail because they can't get traction. Startup advice tends to be a lot of platitudes repackaged with new buzzwords, but *Traction* is something else entirely. As Gabriel Weinberg and Justin Mares learned from their own experiences, building a successful company is hard. For every startup that grows to the point where it can go public or be profitably acquired, hundreds of others sputter and die. Smart entrepreneurs know that the key to success isn't the originality of your offering, the brilliance of your team, or how much money you raise. It's how consistently you can grow and acquire new customers (or, for a free service, users). That's called traction, and it makes everything else easier—fund-raising, hiring, press, partnerships, acquisitions. Talk is cheap, but traction is hard evidence that you're on the right path. *Traction* will teach you the nineteen channels you can use to build a customer base, and how to pick the right ones for your business. It draws on inter-views with more than forty successful founders, including Jimmy Wales (Wikipedia), Alexis Ohanian (reddit), Paul English (Kayak), and

Dharmesh Shah (HubSpot). You'll learn, for example, how to:

- Find and use offline ads and other channels your competitors probably aren't using
- Get targeted media coverage that will help you reach more customers
- Boost the effectiveness of your email marketing campaigns by automating staggered sets of prompts and updates
- Improve your search engine rankings and advertising through online tools and research

Weinberg and Mares know that there's no one-size-fits-all solution; every startup faces unique challenges and will benefit from a blend of these nineteen traction channels. They offer a three-step framework (called Bullseye) to figure out which ones will work best for your business. But no matter how you apply them, the lessons and examples in Traction will help you create and sustain the growth your business desperately needs.

Best iPad Apps Peter Meyers, 2010-12-08 What really wows iPad fans is when their touchscreen does what's impossible on other gadgets: the finger-painting app that turns a cross-country flight into a moving art class, the mini music studio (two-dozen instruments strong, each with motion-induced warble effects), and the portable fireworks display that you sculpt by swiping. Problem is, with tens of thousands of apps available for your iPad, who knows what to download? You can try to sort through a gazillion customer reviews with a mix of 5- and 1-star ratings, but that's a head-hurting time-waster. The stakes are getting higher, too: instead of freebies and 99-cent trinkets, the price of iPad apps is steadily creeping up and beyond their iPhone predecessors. Best

iPad Apps guides you to the hidden treasures in the App Store's crowded aisles. Author Peter Meyers stress-tested thousands of options to put together this irresistible, page-turner of a catalog. Inside these pages, you'll find apps as magical as the iPad itself. Flip through the book for app suggestions, or head directly to one of several categories we've loaded up with best of selections to help you: Get work done Manipulate photos Make movies Create comics Browse the Web better Take notes Outline ideas Track your health Explore the world No matter how you use your iPad, Best iPad Apps will help you find the real gems among the rubble - - so you make the most of your glossy gadget.
