*Learn French* Oliver Robichaud, 2019-08 Are you looking for the best way to learn French? Well, look no further. This book is, simply put, the best on the market for learning French. Why do I say that? Because this book does what language books should do - teach you the mechanics of the language, not a bunch of tourist trap phrases that you'll forget the second you leave the country. If books don't do that, then they make the critical mistake of going into far too much detail and managing to bore you half to death by virtue of the fact that they've spent 30 pages going on about three different kinds of articles. I don't do that either. What this book does do, and does very well in fact, is set you up with the knowledge that you want and need of French in a very short time

frame, so that you can blast through this book and already feel like you're set up for success. This book isn't a reference, nor is it a crash course on the French language; it's both. You'll read through this book and understand, then you'll apply what you've learned (and inevitably look back at this book down the line to rehash your memory), and you'll grow even more as a French speaker. Don't waste your time and money on a subpar French book. Go with the best from the get-go.

This book is split up into nine lessons, each of which will teach you a selection of useful words and phrases, and you'll learn how to put them together to form sentences, enabling you to communicate effectively in French from the very first lesson. You need no prior experience with French, you need no other materials; everything you'll need is contained within this book. You'll have opportunity to practise what you've learnt thanks to hundreds of recap exercises, and you'll also learn about the 3 Minute Ideology and why extremely short bursts of study are much more effective for your overall learning than long, drawn out study sessions. Each word or phrase also comes with a useful pronunciation guide to show you how to say it in French. I wrote this book under the assumption that you know nothing about the French language, in fact, I wrote it under the assumption that you know nothing about languages full stop. This is because when I first started learning languages, I was always thrown off by specific grammar terms or strange rules that weren't really explained properly. I explain everything in an easy-to-follow manner so you won't get lost. So, give 3 Minute French: Course 1 a go today and start speaking this beautiful language.
