*My First Amharic Dictionary* ,2019-09-24 Learn Amharic with new picture dictionary series from trusted publisher of foreign language study guides, Hippocrene Books Amharic is the official working language of Ethiopia, with approximately 30 million speakers. It is the second most widely spoken

Semitic language in the world after Arabic. Unlike Arabic, however, Amharic is written left-to-right and uses a distinct script called Ge'ez script. With colorful, eye-catching illustrations to stimulate imagination and curiosity, My First Amharic Dictionary is specially designed for children ages 5 to 12. It contains more than 1,000 everyday words (from colors, animals, household items, foods and more)-each illustrated and translated into Amharic with accompanying phonetic pronunciation. The illustrations are arranged alphabetically by English so even young readers can easily search for words. Each one is labeled with clear, bold type and the commonsense pronunciation makes it easy to begin speaking Amharic right away! Recent studies suggest that children should begin learning a foreign language before age 10 for best results. This dictionary is a fun, engaging way for parents or grandparents to introduce Amharic to young children. Teachers will also find the dictionary useful for students who are learning Amharic from Kindergarten and up.

*Introductory Grammar of Amharic* Wolf Leslau, 2000 This book closes the gap for beginners who want to study the Amharic language and had difficulties in finding the right grammar for this purpose: The first grammar of Amharic, the national language of Ethiopia, was published by Hiob Ludolf in 1698. The Amharic grammar published by Praetorius in 1879 is based on Amharic religious texts and on scattered material, usually composed by missionaries. A milestone in the study of Amharic is Marcel Cohen's *Traite de langue amharique* (1936), but this grammar, too is not completely suited for beginners since the author's generalizations are at times aimed at linguists. The grammar that comes closest to the concept of a beginner's grammar is that of C.H. Dawkin (1960), yet this grammar is extremely short, does not give examples and does not introduce the student to the intricacies of the language. The new book gives all the grammatical forms and the sentences of the present grammar in Amharic script and in phonetic transcription. The illustrative examples have a free and a literal

translation. This procedure should likewise prove to be useful for the Semitist as well as for the general linguist.
