GUI Design Shan ben tu shu,2015 As technology has rapidly advanced, so too has the way we use and interact with it. Gone are the days of flat black backgrounds dotted with blocky green text; now, users expect a massive range of colors, layouts, and fonts to be used to entertain and assist them in their daily lives. GUI Design assembles the best of recent graphic user interface for a collection that provides practical encouragement for those new to the world as well as inspiration for experienced designers. The book gathers Twitters Vine video creation app for Windows phones, the vulgar-yetamusing Authentic Weather app, an application designed to help tourists follow the physical and ideological path of the Iron Curtain, and more to showcase programs that balance information flow with user experiences and highlight the creativity, inspiration, and expressive techniques used in their design. The projects within demonstrate the increasingly significant role of user interfaces in both design and our everyday lives in the modern world.

The Avestan Hymn to Mithra ,2007-12-03 The Avestan Hymn to Mithra, written in the fifth century BC, is the one extensive, ancient literary record of the attributes, companions and cult of the Iranian god whose worship spread, five or six centuries later, as far as Britain. Dr Gershevitch here reproduces Geldner's text and critical apparatus of the Hymn, adding his own introduction, translation and commentary. The introduction offers an orientation on the main problems concerning Mithra: how the god came to be included in the Zoroastrian religious system, his relation to Zarathustra's god Ahura Mazdah, his functions, his development from the stage at which the Indian Mitra is found in the Rig Veda, and the extent to which the Western Mithras has preserved the characteristics of the Avestan Mithra. The text is faced by the English translation, and is followed by Dr Gershevitch's exhaustive commentary.

Living Zoroastrianism Philip G. Kreyenbroek,2013-01-11 This text describes the realities of modern Parsi religion through 30 interviews in which urban Parsis belonging to different social milieus and religious schools of thought discuss various aspects of their religious lives. Zoroastrianism, the faith founded by the Iranian prophet Zarathustra, originated around 1000BCE and is widely regarded as the world's first revealed religion. Although the number of its followers declined dramatically in the centuries after the 7th century Islamic conquest of Iran, Zoroastrians survive in Iran to the present day. The other major Zoroastrian community are the Parsis of India, descendants of Zoroastrians who fled Muslim dominion.

Conflict and Cooperation Jamsheed Kairshasp Choksy, 1997 Conflict and Cooperation explores the consequences of the meeting of two important religious communities - Zoroastrians and Muslims. This book examines patterns of communal behavior during the seventh to thirteenth centuries A.D. and suggests how both groups were radically transformed, ultimately reshaping Iranian society. The spread of Islam, the success of Muslim institutions, and the gradual decline of Zoroastrianism are viewed in the light of politics, literature, religion, and socioeconomics. Although Zoroastrians and Muslims lived within a shared region and jointly contributed significantly to Iranian culture, they have been studied together only marginally in the past. This absorbing, informative book offers powerful new insights into the tensions and transitions of a medieval society and has important implications for current societies facing conflicts of religion and ethnicity.

Evil, Good and Gender Jamsheed Kairshasp Choksy, 2002 Societies often link the phenomena of evil and good to the feminine and masculine genders and, by extension, to women and men. Evil, Good, and Gender explores doctrinal and societal developments within a context of malevolence that came to be attributed to the feminine and the female in contrast to benevolence ascribed to the masculine and the male by Zoroastrians or Mazda worshipers. This study authoritatively elucidates implications of the feminine and the masculine in religion and suggests that images in theology have been fundamental for defining both women's and men's social roles and statuses.

Ancient Persia Josef Wiesehöfer, 2001-08-18 Of all the great civilizations of the ancient world, that of Persia is one of the least understood. Josef Wiesehöfer's comprehensive survey of the Persian Empire under the Achaemenids, the Parthians, and the Sasanians focuses on the primary Persian sources--written, archaeological, and numismatic. He avoids the traditional Western approach which has tended to rely heavily on inaccurate Greek and Roman accounts. Part of the freshness of this book comes from its Near Eastern perspective.

Zoroastrians in Britain John R. Hinnells, 1996 Zoroastrianism is the religion of ancient Iran, dating back over a thousand years before the time of Christ. It is also the religion of Britain's oldest South Asian minority, with a history going back to 1724. From the contribution of the Zoroastrian MPs Naoroji and Bhowmagrae in the nineteenth century to the transmission of their heritage and concerns today, this is the first complete study of the community right up to the 1990s. With the largest Zoroastrian population outside the 'old countries' living in London, the British community has played an important part in the modern history of Zoroastrianism. They furnish a unique opportunity to trace the history and experience of an Asian community in the West for well over a hundred years, with a wide variety of members from rural and urban India, Pakistan, East Africa, as well as the original homeland, Iran, and a substantial proportion of Zoroastrians who are British-born. The book is based on extensive study of archival sources, a large survey questionnaire, a programme of structured interviews, and over twenty years of the author's personal contact with the community. The book includes discussion of many important contemporary issues, such as racial prejudice, gender issues, generational differences, attitudes both to British society and to the 'old country' - and argues that religion is an increasingly important concern among British South Asian minorities.
