This includes analyses of recent, sometimes fatal mining disasters in South and North America, challenges and opportunities for rural development in Africa and Australia, an exploration of the role of women for sustainable development in Palestine, water safety and water security issues in Asia and Australia, the environmental exploitation of popular tourism destinations like Acapulco, and deforestation in Malaysia, suggesting innovative approaches to turn challenges into opportunities to effectively tackle these problems. Other topics addressed involve sustainable energy creation for future generations, a research survey among Romanian students on sustainable consumption behavior, validity testing for a heat transfer model in a greenhouse, and a case study on sustainability risk management practices at Malaysia's environmentally sensitive companies. As parents, we simply need to follow the leading of the Lord with the understanding that our children's natural abilities are actually the Lord working out their destiny. When we give Christ unlimited control of our parenting, we learn that Jesus is a better parent to our children than we can ever hope to be. As Sheila Erwin shares personal stories of raising two successful filmmakers and delves into biblical principles, you will be encouraged to cultivate your children's gifts and help them reach their dreams—no matter how impossible they seem. By parenting from a position of trust and rest in God, you can guide your children to chase their God-given dreams and channel their talents to glorify God instead of being gripped by the world.
