Left Sentence Peripheries in Spanish Andreas Dufter,Álvaro S. Octavio de Toledo y Huerta,2014-07-31 Since the advent of syntactic cartography, left sentence peripheries have begun to take center stage in linguistic research. Following the lead of Rizzi (1997), much work on left peripheries has been focused on Italian, whereas other Romance languages have attracted somewhat less attention. This volume offers a well-balanced set of articles investigating left sentence peripheries in Spanish. Some articles explore the historical evolution of left dislocation and fronting operations, while others seek to assess the extent – and the limits – of variation found between different geographical varieties and registers of the contemporary language. Moreover, the volume comprises several case studies on the interfaces between syntax, semantics, and information structure, and the implications of these for pragmatic interpretation and the organization of discourse. Cross-linguistic and typological perspectives are also provided in due course in order to position the analyses developed for Spanish within a larger research context.

**Theme Park** Scott A. Lukas, 2008-12-01 Theme parks are a uniquely interactive and enduring form of entertainment that have influenced architecture, technology, and culture in surprising ways for more than a century, as Scott Lukas now reveals in his compelling historical chronicle. Theme Park takes the primitive amusements of pleasure gardens as its starting point and launches from there into a rich, in-depth investigation of the evolution of the theme park over the twentieth century. Lukas examines theme parks in countries around the world—including in the United States, Mexico, Europe, Japan, China, South Africa, and Australia—and how themed fairs and parks developed through diverse means and in a variety of settings. The book examines world-famous and lesser-known parks, including the early parks of Coney Island; Madrid's Movieworld; a series of World Fairs and their luxurious exhibition halls; Six Flags parks and virtual theme parks today; and, of course, the unparalleled achievements of Disneyland and Disney World. Lukas analyzes the theme park as a living entity that unexpectedly shapes people, their relationships, and the world around them. Theme parks have now become complex representations of the human mind itself, he contends, through its interpretations of books, feature films, video games, and Web sites. Ultimately, Theme Park reveals, the wider influence of theme parks can be found in the shopping malls, branded stores, and casinos that employ the tricks and techniques of amusement parks to dominate our entertainment world today. Packed with captivating illustrations, Theme Park takes us on historical roller coaster ride that both reanimates the places that shaped our childhoods and anticipates the future of escapism and fantasy fun.

The Dealer Jim Ciardella, 2022-07-15 When Ferrari of Los Gatos opened, few people could afford an expensive sports car. In 1976, the average annual income was \$12,686, and a new home cost about \$48,000. Motorists in California could only buy gas on odd or even-numbered days based on the last digit of their license plate, due to the global oil crisis. Times were tough, and people were hesitant to take chances, especially with a car that cost more than a house. At the same time, Brian Burnett and his friend Richard Rivoir had the idea of starting a Ferrari dealership. *The Dealer* is the story of how one dealership, Ferrari of Los Gatos, fueled the rise of the iconic Italian sports car in the U.S. market on its way to becoming the number one Ferrari dealer in North America. Even Enzo

Ferrari himself took notice, flying Brian and the other dealers to Italy to show his appreciation for their success. Customers included movie stars, sports celebrities, entertainers, and some with unusual sources of income and a strong desire for a low profile. Along the way, Burnett made friends, enemies, and millions of dollars, only to lose everything in the blink of an eye. Author Jim Ciardella shows readers a part of Ferrari that no one has even seen, with behind-the-scenes stories as told to him by Richard Rivoir and Brian Burnett, their customers and employees, and other North American dealers who all rode high and eventually burned out on selling fast cars.
