The Ring of Five Dragons Eric Van Lustbader, 2002-07-14 A towering epic of fantasy, The Pearl, is launched in The Ring of Five Dragons. Filled with action, color, and the myriad details of another world, The Pearl is the first great fantasy series of the new millennium, set to rival Robert Jordan, David Eddings, George R. R. Martin, Terry Brooks, and Terry Goodkind in popular appeal. This astonishing first volume opens as the Kundalan people have suffered for a century under the viciously oppressive, technologically-superior V'ornn invaders. In the resulting crisis of faith -- why hasn't their goddess Miina saved them? -- Kundalan religion has fallen under the control of evil forces from within who forbid the teaching of traditional sorcery, pretending to have no magic of their own. The V'ornn's mysterious leaders, the Gyrgon, know better, and search for the lost Ring of Five Dragons, the key to the door of the fabled Kundalan Storehouse, and perhaps to Kundalan sorcery as well. But misused, the Ring is the trigger of seemingly inexorable annihilation for V'ornn and Kundalan alike. Now from among the oppressed must arise the hero of prophecy, the Dar Sala-at, who alone can wield the sorcerous power to save the world. Thus begins a huge epic rooted in the conflict between spiritual and technological cultures. The twisting plot raises

difficult and provocative moral questions in the course of a constantly surprising, sometimes shocking, fantastic adventure that will transport fantasy readers to new heights of enthusiasm, and make them ask for more. Draknos Daniel Willyard, 2009-09 One thousand years ago, the Alpha Quadrant was in turmoil as a great civil war raged between planets. To put an end to the senseless fighting, King Acco, from the planet Delphinus, used superior technology to build an enormous fighting robot called DrakNos. After many fierce battles, DrakNos put an end to the war and the opponents, the Drakkaunes, were banished into the Great Void as punishment for their war crimes. With the war over, DrakNos was no longer needed. As years of peace followed, the robot became nothing more than a legend, until the Drakkaunes rebuilt their civilizations and started a new campaign to reclaim the Alpha Quadrant. With their fleet now ready to attack, DrakNos the legend has returned. Inspired by Star Trek and other sci-fi series and movies, Daniel J. Willyard created his robotic hero DrakNos, who will also be featured in the author's next book. Willyard is currently converting this story into a screenplay. He is an aircrew survival equipment man in the Navy, caring for aircrew flight gear. Willyard grew up in Paradise, California, and now resides in Oak Harbor, Washington.

Digital Gambling César Albarrán-Torres, 2018-03-28 This book develops the concept of gamble-play media, describing how some gambling and gambling-like practices are increasingly mediated by digital technologies. Digital gambling brings gambling closer to the practices and features of videogames, as audio-visual simulations structure users' experiences. By studying digital gambling from media studies, videogame and cultural studies approaches, this book offers a new critical perspective on the issues raised by computer-mediated gambling, while expanding our perspective on what media and gambling are. In particular, it

critically analyses terrestrial, mobile and online slot machines, online poker and stock trading apps through a selection of case studies.

The Last Dragon Lord: The Complete Trilogy Michael La Ronn,2021-12-17 CONTAINS THE COMPLETE SERIES: BOOKS 1-3. Save over buying each book individually! He's a supreme dragon lord at the height of his power, but there's a conspiracy brewing. Old Dark is a viperous dragon lord who rules the world with brute force. For two hundred years, he and his dragons have terrorized humanity, forcing it to pay tribute or die. Dark's palace of blood and bone sits on caverns of treasure. He's stockpiled all the world's magic for his own personal use, making him akin to a god. There is another dragon in Dark's inner circle who wants Dark's power and fortune for himself. And if Dark doesn't stop his own overthrow, he'll suffer a fate far worse than death. But Dark won't fall easily. There's a reason the ancients called him Dark the Wicked... Old Dark is a different kind of dark fantasy, told through the eyes of a blood-thirsty dragon. Readers who like antiheroes, the Age of Fire series, and Smaug from Lord of the Rings will love this heart-pounding story of power, revenge, and true evil. V1.0

Magic, Monsters, and Make-Believe Heroes Douglas E.

Cowan,2019-02-26 Magic, Monsters, and Make-Believe Heroes looks at fantasy film, television, and participative culture as evidence of our ongoing need for a mythic vision—for stories larger than ourselves into which we write ourselves and through which we can become the heroes of our own story. Why do we tell

and retell the same stories over and over when we know they can't possibly be true? Contrary to popular belief, it's not because pop culture has run out of good ideas. Rather, it is precisely because these stories are so fantastic, some resonating so deeply that we elevate them to the status of religion. Illuminating everything from Buffy the Vampire Slayer to Dungeons and Dragons, and from Drunken Master to Mad Max, Douglas E. Cowan offers a modern manifesto for why and how mythology remains a vital force today.

The Dragon's Apprentice Dugald Steer, 2013-09-01 A vicious attack; a mysterious kidnapping; an ancient society shrouded in mystery... In the third title in the Dragonology Chronicles, young dragonologists Daniel and Beatrice must save their dragon chick, Torcher, from the clutches of the sinister organisation Dragonsbane. With help from the Guardian's Apprentice, they must find the spy in the Secret and Ancient Society of Dragonologists, rescue Torcher and defeat Dragonsbane once and for all.

Dragon Kings of the New World Dante Doom, WOW!! What a FANTASTICAL Ride This was a solid LitRPG that went in an interesting direction! It was a great story that kept me hooked through the entire book. I liked the contrast between Van and Sang, an ambitious gamer who lives to game, and an aggressive agent who thinks it's a waste of time. They were both likable and their banter cracked me up. Grab Dante Doom's gripping LitRPG series, Dragon Kings of the New World. The Star Dragon, The Black Dragon, and The Iron Dragons are available for the first time as a boxset. The Star Dragon When the real world is threatened, it's up to the players in a virtual one to save it. Van Vanyushin doesn't see the point in ever leaving the beautiful digital world of the game he loves—and for good reason. In the industrial wasteland he calls home, it is often the only way people can experience life's simplest pleasures. But his allegiance to the game is tested when an ambitious CIA agent named Sang Ngo calls upon him to help as

she goes undercover in the game to investigate Draco—the corporation responsible for creating the massively popular role-playing game Dragon Kings of the New World. Sang is a gifted hacker who feels nothing but contempt for those who waste their lives in what she sees as a false reality...but when people start dying in the game, she must find out why. Van, a talented gamer, is her guide to navigate the world, level up their newbie characters fast and get into some of the most dangerous areas of the game. He dreams of becoming a pro gamer sponsored by Draco one day, but his partnership with Sang threatens to expose secrets from his past that could jeopardize those plans. The Black Dragon Mysteries abound as a dangerous game becomes deadly... Dedicated gamer Van and his CIA agent partner Sang have successfully infiltrated Dragons Kings of the New World, but the further they go, the more questions arise. They return to find that the in-game kingdom of Silver Peak, which Van once ruled as one of the most powerful players in the game, has now fallen into disrepair. There they recruit a mercenary party of adventurers from among Van's old comrades and venture to find the hidden realm of Bloodrock—which Van suspects could hold the key to the game's mysterious origins. The Iron Dragons Can two fugitives beat Draco at its own game? Van and Sang are on the run, forced to log on and play Dragons of the New World from a dank basement hideout with borrowed characters while the world crumbles around them. Sang is losing hope after being fired by the CIA, but Van's resolve is only growing.

Flame Dragons of the Korean War Jerry Ravino, Jack Carty, 2003 This book is the result of collaboration by Jerry Ravino and Jack Carty, veterans of the Korean War with the Flame Platoon, Headquarters Company, First Tank Battalion, First Marine Division, who did not meet until almost 50 years after what went down in history as the Forgotten War. Although the two former tankers served with the Flame Platoon in different places and different times in that conflict, it is a testament to their

determination to research and record a part of the war that heretofore had not been chronicled in detail. Though it has been some 50 years past the fact, this is their story -- as memory best serves them and others who helped them tell it. Learn more about the FLAME DRAGONS @ www.flamedragons.com.

Daughter of the Serpentine E.E. Knight, 2020-11-17 As a young dragoneer moves through the ranks of the prestigious Serpentine Academy, her challenges grow greater and her time grows short to draw out a series of deadly threats, in this thrilling coming-of-age fantasy novel. Sixteen-year-old lleth is now an Apprentice Dragoneer, with all of the benefits and pitfalls that her elevation in rank entails. But her advancement becomes less certain after she's attacked by an unknown enemy, and lleth begins to suspect that someone deadly may be hiding within the walls of the academy. Outside of the walls there is a different challenge. The Rari Pirates are strangling the Vale Republic. What they lack in dragon firepower, they make up for in the brutality of their ever-expanding raids, making hostages or slaves of the Republic's citizens. Surrounded by enemies, lleth will need to learn what kind of dragoneer she wants to be. And as she makes decisions about her future, lleth will have the chance to uncover the secrets of her past. Both will irrevocably change the course of her life.
