Teaching Music Improvisation with Technology Michael Fein,2017-02-03 Incorporating technology in music classrooms can take the mystery out of improvisation. What music technology does is establish a strong foundation for chord, scale, phrase, ear training, and listening exercises, creating a solid backdrop for student expression. As author and educator Mike Fein shows, technology is a valuable tool that can be used effectively to supplement student practice time while also developing the skills necessary to become a proficient improviser. Complete with notated exercises, accompaniment tracks, and listening resources, this book gives teachers methods to set their students free to make mistakes and to develop their own ear for improvisation at their own pace. Broken down into significant areas of music technology, each chapter focuses on developing a new skill and guides readers to tangible outcomes with the assistance of hands-on activities that can be immediately implemented into the classroom. In addition to these hands-on activities, each chapter provides the reader with an iPad Connection to various iOS applications, which allows teachers and students another, albeit significantly less expensive, medium through which to learn, share, and create art. This book will appeal to music educators of students in grades K-12. It will serve collegiate music education courses secondarily, and will also appeal to those music educators who work with improvisation and technology.

The Search for WondLa Tony DiTerlizzi,2012-12-11 Eva Nine was raised by the robot Muthr. But when a marauder destroys the underground sanctuary she called home, twelve-year-old Eva is forced to flee aboveground. Eva Nine is searching for anyone else like her. She knows that other humans exist because of a very special item she treasures ~ a scrap of cardboard on which is depicted a young girl, an adult, and a robot along with the strange word WondLa. Tony DiTerlizzi honours traditional children's literature in this totally original space age adventure: one that is as complex as an alien planet, but as simple as a child's wish for a place to belong.
