Flawless Heather Graham,2016 No one writes suspense like Heather Graham Read this brand-new romantic thriller by one of today's most popular authors... There's a pub in New York City that's been in the Finnegan family for generations. Now Kieran and her three brothers own it. Kieran Finnegan is also, as it happens, a criminal psychologist--a fitting reaction, perhaps, to her less-than-lawful teenage past. Meanwhile, New York's Diamond District has been hit by a rash of thefts. No one's been killed--until now. FBI agent Craig Frasier is brought in to investigate; he and Kieran meet at a jewelry store in the middle of a heist. She's there to unsteal a flawless stone taken by her light-fingered youngest brother as an act of vengeance. Craig's there to stop the gang. But the police and FBI begin to wonder if there are two gangs of diamond thieves, the original and a copycat group of killers--who seem to think their scheme is as flawless as the stones they steal. Thrown together by circumstance, drawn together by attraction, Kieran and Craig are both assigned to the case. But to Kieran's horror, there's more and more evidence that, somehow, the pub is involved. Because everyone goes to Finnegan's

Flawless: Inside the Largest Diamond Heist in History Scott Andrew Selby,Greg Campbell,2010 Tells the story with the gripping pace of a true-crime 'Ocean's Eleven.' The New York Post • Like a diamond, this true-life caper is clear, colorful, and brilliant. Publishers Weekly ★Starred Review★ The Antwerp Diamond Center was one of the most secure buildings in the world. With hundreds of millions of dollars' worth of diamonds stored in its subterranean vault, it had to be. Located in the heart of Belgium's ultra-secure Antwerp Diamond District, it benefited from two police stations, armed patrols, extensive video surveillance, and vehicle barriers securing an area where 80 percent of the world's diamonds traded hands. But on February 15, 2003, a band of skilled Italian thieves – fronted by the charming Leonardo Notarbartolo, who spent over two years clandestinely casing the building –

subverted every one of the Diamond Center's defenses and made off with a record amount of loot. Experts estimate they got away with nearly half a billion dollars in diamonds, cash and other valuables. They'd pulled off the biggest heist in history--everybody loves diamonds and they now had more than any thief before them. The robbers did it with stealth and smarts; no one was hurt or even threatened during what was quickly labeled the largest diamond heist in history. The bandits – members of a group of professional thieves known as The School of Turin – used cunning in lieu of violence, successfully evading security cameras, thwarting an array of electronic sensors, and penetrating a vault protected by a double-locked foot-thick steel door. Even when the police zeroed in on who committed the crime, how it was done remained a mystery, like something out of a heist movie or TV show. *Flawless* is a fast-paced global scavenger hunt uncovering the truth behind the daring Valentine's Day weekend heist. Tracking clues, sources, and documents throughout Europe – from seedy cafés in Turin, Italy to sleek diamond offices in Antwerp, Belgium – authors Scott Selby and Greg Campbell retrace Notarbartolo's careful discovery of the building's security flaws. They recreate the heist and its aftermath – detailing how the thieves brilliantly neutralized each element of the security protecting the Diamond Center's vault while inviting the readers into the secretive world of diamonds and diamond dealing. The result is a thrilling ride through the better-than-fiction heist of the century. Fans of caper books and movies will be in seventh heaven. Booklist ★Starred Review★
