*“Buyurdum ki....” – The Whole World of Ottomanica and Beyond*, 2023-09-04 This book is dedicated to Claudia Römer and brings together 33 contributions spanning a period from the 15th to the 20th century and covering the wide range of topics with which the honouree is engaged. The volume is divided into six parts that present current research on language, literature, and style as well as newer approaches and perspectives in dealing with sources and terminologies. Aspects such as conquest, administration, and financing of provinces are found as well as problems of endowments and the circulation of goods in the Arab provinces of the Ottoman Empire. Another main topic is dedicated to minorities and their role and situation in various provinces and cities of the Ottoman Empire, as represented by various sources. But also topics like conversion, morality and control are illuminated. Finally, the volume provides an insight into the late Ottoman and early republican period, in which some previously unpublished sources (such as travel letters, memoirs) are presented and (re)discussed. The book is not only aimed at scholars and students of the Ottoman Empire; the thematic range is also of interest to linguists, historians, and cultural historians.

Diddy, Alicia Keys, and Jessica Simpson, officially as a publicist but in reality, as a confidante—Rob Shuter has seen it all. In fifteen years as a celebrity publicist, Rob has been privileged to have a front-row seat to the most successful people in the world. Before Jessica Simpson told then-husband Nick Lachey that they were getting divorced, she called Rob. Jon Bon Jovi flew Rob to each of his shows on a private jet for the primary purpose of escorting out press before his fabulous hair flopped. Rob was responsible for making sure an Asian pear was within feet of Jennifer Lopez at any given moment, per her very specific demands. Being involved in the lives of the best and the brightest, Rob quickly discovered it wasn't talent all his super successful clients had in common. **The Book with No Pictures** B. J. Novak,2014-09-30 A #1 New York Times bestseller, this

innovative and wildly funny read-aloud by award-winning humorist/actor B.J. Novak will turn any reader into a comedian—a perfect gift for any special occasion! You might think a book with no pictures seems boring and serious. Except . . . here's how books work. Everything written on the page has to be said by the person reading it aloud. Even if the words say . . . BLORK. Or BLUURF. Even if the words are a preposterous song about eating ants for breakfast, or just a list of astonishingly goofy sounds like BLAGGITY BLAGGITY and GLIBBITY GLOBBITY. Cleverly irreverent and irresistibly silly, *The Book with No Pictures* is one that kids will beg to hear again and again. (And parents will be happy to oblige.)

**Four New Messages** Joshua Cohen, 2012-08-07 A quartet of audacious fictions that capture the pathos and absurdity of life in the age of the internet \*A New York Times Book Review Editors' Choice\* \* One of Flavorwire's 50 Books That Define the Past Five Years in Literature A spectacularly talented young writer has returned from the present with *Four New Messages*, urgent and visionary dispatches that seek to save art, sex, and even alienation from corporatism and technology run rampant. In *Emission*, a hapless drug dealer in Princeton is humiliated when a cruel co-ed exposes him exposing himself on a blog gone viral. *McDonald's* tells of a frustrated pharmaceutical copywriter whose imaginative flights fail to bring solace because of a certain word he cannot put down on paper. In *The College Borough* a father visiting NYU with his daughter remembers a former writing teacher, a New Yorker exiled to the Midwest who refuses to read his students' stories, asking them instead to build a replica of the Flatiron Building. *Sent* begins mythically in the woods of Russia, but in a few virtuosic pages plunges into the present, where an aspiring journalist finds himself in a village that shelters all the women who've starred in all the internet porn he's ever enjoyed. Highbrow and low-down, these four intensely felt stories explain what happens when the virtual begins to colonize the real -- they harness the torrential power and verbal dexterity that have established Cohen as one of America's most brilliant younger writers.

*The Big Book of Conflict Resolution Games: Quick, Effective Activities to Improve Communication, Trust and Collaboration* Mary Scannell, 2010-05-28 Make workplace conflict resolution a game that EVERYBODY wins! Part of the acclaimed, bestselling Big Books series, this guide offers step-by-step directions and customizable tools that empower you to heal rifts arising from ineffective

communication, cultural/personality clashes, and other specific problem areas—before they affect your organization's bottom line. Let *The Big Book of Conflict-Resolution Games* help you to: Build trust Foster morale Improve processes Overcome diversity issues And more Dozens of physical and verbal activities help create a safe environment for teams to explore several common forms of conflict—and their resolution. Inexpensive, easy-to-implement, and proved effective at Fortune 500 corporations and mom-and-pop businesses alike, the exercises in *The Big Book of Conflict-Resolution Games* delivers everything you need to make your workplace more efficient, effective, and engaged.

*The Fourth Industrial Revolution* Klaus Schwab,2017-01-03 World-renowned economist Klaus Schwab, Founder and Executive Chairman of the World Economic Forum, explains that we have an opportunity to shape the fourth industrial revolution, which will fundamentally alter how we live and work. Schwab argues that this revolution is different in scale, scope and complexity from any that have come before. Characterized by a range of new technologies that are fusing the physical, digital and biological worlds, the developments are affecting all disciplines, economies, industries and governments, and even challenging ideas about what it means to be human. Artificial intelligence is already all around us, from supercomputers, drones and virtual assistants to 3D printing, DNA sequencing, smart thermostats, wearable sensors and microchips smaller than a grain of sand. But this is just the beginning: nanomaterials 200 times stronger than steel and a million times thinner than a strand of hair and the first transplant of a 3D printed liver are already in development. Imagine “smart factories” in which global systems of manufacturing are coordinated virtually, or implantable mobile phones made of biosynthetic materials. The fourth industrial revolution, says Schwab, is more significant, and its ramifications more profound, than in any prior period of human history. He outlines the key technologies driving this revolution and discusses the major impacts expected on government, business, civil society and individuals. Schwab also offers bold ideas on how to harness these changes and shape a better future—one in which technology empowers people rather than replaces them; progress serves society rather than disrupts it; and in which innovators respect moral and ethical boundaries rather than cross them. We all have the opportunity to contribute to developing new frameworks that advance progress.

**Alice in Wonderland** Lewis Carroll,2009-01-01 *Alice in Wonderland* (also known as *Alice's Adventures in Wonderland*), from 1865, is the peculiar and imaginative tale of a girl who falls down a rabbit-hole into a bizarre world of eccentric and unusual creatures. Lewis Carroll's prominent example of the genre of literary nonsense has endured in popularity with its clever way of playing with logic and a narrative structure that has influence generations of fiction writing.

**Dare to Lead** Brené Brown,2018-10-09 #1 NEW YORK TIMES BESTSELLER • Brené Brown has taught us what it means to dare greatly, rise strong, and brave the wilderness. Now, based on new research conducted with leaders, change makers, and culture shifters, she's showing us how to put those ideas into practice so we can step up and lead. Don't miss the five-part HBO Max docuseries *Brené Brown: Atlas of the Heart*! NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BLOOMBERG Leadership is not about titles, status, and wielding power. A leader is anyone who takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that potential. When we dare to lead, we don't pretend to have the right answers; we stay curious and ask the right questions. We don't see power as finite and hoard it; we know that power becomes infinite

when we share it with others. We don't avoid difficult conversations and situations; we lean into vulnerability when it's necessary to do good work. But daring leadership in a culture defined by scarcity, fear, and uncertainty requires skill-building around traits that are deeply and uniquely human. The irony is that we're choosing not to invest in developing the hearts and minds of leaders at the exact same time as we're scrambling to figure out what we have to offer that machines and AI can't do better and faster. What can we do better? Empathy, connection, and courage, to start. Four-time #1 New York Times bestselling author Brené Brown has spent the past two decades studying the emotions and experiences that give meaning to our lives, and the past seven years working with transformative leaders and teams spanning the globe. She found that leaders in organizations ranging from small entrepreneurial startups and family-owned businesses to nonprofits, civic organizations, and Fortune 50 companies all ask the same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture? In this new book, Brown uses research, stories, and examples to answer these questions in the no-BS style that millions of readers have come to expect and love. Brown writes, "One of the most important findings of my career is that daring leadership is a collection of four skill sets that are 100 percent teachable, observable, and measurable. It's learning and unlearning that requires brave work, tough conversations, and showing up with your whole heart. Easy? No. Because choosing courage over comfort is not always our default. Worth it? Always. We want to be brave with our lives and our work. It's why we're here." Whether you've read *Daring Greatly* and *Rising Strong* or you're new to Brené Brown's work, this book is for anyone who wants to step up and into brave leadership.
