ERG 2012: Quick Lookup U.S. Department of Transportation (DOT),Transport Canada,Secretariat of Transport and Communications,2012-09-08 We regret to announce that we at Sheridan Programmers Guild will not produce a 2016 adaptation of the ERG ebook, but we will direct our users to the official NIH ERG 2016 app, which should work as well as or better than an ebook on many mobile devices. Thank you to everyone who has supported the ERG 2012: Quick Lookup! About This ebook takes the Department of Transportation data published in the Emergency Response Guidebook (ERG 2012) and presents it in a familiar form reflecting the print ERG. As an ebook, this ERG is searchable. It also includes internal links for quick access to information. For example, if an entry in the yellow section (substances by ID) references the green (isolation distances) tables, you can tap/click to jump right to the table. The color-coding of the official ERG is preserved for a familiar experience and ease of use. The ebook table of contents can be used to jump immediately to any section. This edition is up-to-date, based upon the ERG 2012 and includes all the corrections released by the DOT through April 10, 2013, which are not found in physical copies or other digital versions of the ERG. We strive to be not only the most convenient version available, but also the most accurate. The ERG 2012: Quick Lookup offers a speedy and easy platform for accessing the official DOT data. The technical implementation and presentation are unique to our edition. Now available in Spanish and French! The GRE 2012 and GMU 2012 are both available on Play. See more from author below, or click The team at Sheridan Programmers Guild at the top of this page to see the Spanish and French editions.

Covered Calls for Beginners Freeman Publications,2020-10-20 Stop settling for ever-decreasing dividend yields and bank CDs which pay less than 1%... and start making your investments work for you again... If you're worried about the current market uncertainty, covered calls are your antidote to chaos. You can use them to generate safe returns, no matter what happens to your stock. It's like generating rental income on stocks you already own, even if those stocks don't already pay dividends. Which is why with smart covered call writing, you can double your monthly cash flow. Making it the perfect income strategy, because you can use covered calls to create instant cash, with premiums paid directly into your brokerage account. So you can use this smart, safe strategy to generate Synthetic Dividends on stocks that you already own. In fact... you can make as much as 40% extra per year by writing covered calls... compared to if you just bought and held the same stock. Perfect for retirement investors. Covered calls aren't risky... when used correctly they actually decrease your risk... and even the most conservative investors can benefit from adding covered call writing to their investment strategy. Even if you know nothing about options, this book will get you right up to speed. Here is just a fraction of what you'll discover: The 6 criteria we use to select the best stocks to write covered calls on - Page 96 The vital difference between covered and uncovered calls - Page 55 Why you shouldn't write covered calls in an IRA. Many investors make this mistake, but learn why using a regular account will actually save on your tax bill - Page 54 How to use covered calls to lower the purchase price of stocks you already own 3 rules for adjusting your covered call - Page 129 A simple strategy for selecting the right strike price - Page 160 How to find the best covered call stocks for free. Stock scanning services will charge you \$99/month for this information, but our approach costs nothing and lists the exact same companies - Page 100 How to get started with covered calls if you only have a small account. This is perfect if you want the benefits but don't have \$5,000 or more to invest - Page 133 Plus, inside the book you get free access to a 7 part video course covering all aspects of profitable investing So even if you've never used options before, the book walks you through everything step by step. You'll find everything explained in plain English, free from technical jargon. Even if you get stuck, you can always send us an email (provided inside the book) or reach out in our private investing community on social media - we're always happy to help with any questions you might have. And remember... bank CD's will only pay you between 0% and 1%... the dividend yield on the S&P 500 is around 2%... and 5 to 10 year municipal bonds will only pay between 2% and 3%. But if you use what's inside this book, you could have the opportunity to get much more than that. For instance... if you put together a portfolio of three of the best covered call stocks... you could see an average yield of 15% per year... just from your covered call income. That's 2 to 3 times more than you'll see anywhere else. All this from your regular brokerage account, just as easily as you can buy stock. Because if you know how to buy stocks, you can use covered calls. It's that simple. And when you receive just a single premium from one of these covered calls (which is paid into your account instantly) it covers the cost of this book 10x over. Hazard: The Extinction Protocol guide to risk mitigation Alvin Conway,2013-12-20 Major disasters like the Japanese earthquake, the Joplin tornadoes, and Sandy are likely to become more frequent, and global governments must prepare for an uncertain future, said the 2011 report issued by the International Development Ministry in Britain. Scientists, in the report, said recent natural disasters are the beginnings of a new kind of future in which mega-disasters are going to be more frequent. The scale, frequency and severity of rapid onset humanitarian disasters will continue to grow in the coming years, and at an accelerating pace. What would you do if you were faced with the imminent threat of a mega-earthquake or tsunami, the threat of a thermo-nuclear war, a nuclear plant melt-down, a volcanic eruption, a chemical or biological terror attack or a global pandemic? How do you protect yourself and your family from the ever-increasing set of calamitous hazards facing our modern world? What are the planet's low risk zones and where do you find them?
