Earth Force Shemer Kuznits,2019-04-30 On the first day, a mist descended from the heavens blanketing Earth.On the second day, a cryptic message, 'Infusion commencing', appeared in the corner of everyone's eyes. On the third day, the sick were healed and the crippled walked again. On the fourth day, celebration and joy spread across the globe. And on the fifth day, the warping began...There was no warning. A mist descended from the sky, disabling all technology and causing a weird message to appear at the corner of everyone's eye. The situation grew even worse as animals and people started to warp, transforming into terrible monsters that prey on the livings. Within months, human civilization had crumbled. Unable to fight the seemingly-indestructible beasts, the survivors are reduced to cowering in reinforced shelters. Waiting for the end to come. Helpless. All seemed lost until a few brave souls discovered the secret of their new reality: the Tec and how to use it to level up. Together they represent humanity's last best hope for salvation. But they first must find the answers to the mystery of their new existence. Their journey will require them to quickly adapt to alien technology, operate strange spaceships, and even befriend an extra-terrestrial merchant with an Inferiority Complex.

Blood Crazy Simon Clark,2014-10-28 It is a quiet, uneventful Saturday in Doncaster. Nick Aten, and his best friend Steve Price – troubled seventeen year olds – spend it as usual hanging around the sleepy town, eating fast food and planning their revenge on Tug Slatter, a local bully and their arch-enemy. But by Sunday, Tug Slatter becomes the last of their worries because somehow overnight civilization is in ruins. Adults have become murderously insane – literally. They're infected with an uncontrollable urge to kill the young. Including their own children. As Nick and Steve try to escape the deadly town covered with the mutilated bodies of kids, a group of blood-thirsty adults ambushes them. Just a day before they were caring parents and concerned teachers, today they are savages destroying the future generation. Will Nick and Steve manage to escape? Is their hope that outside the Doncaster borders the world is 'normal' just a childish dream? *Blood Crazy*, first published in 1995, is a gripping, apocalyptic horror from Simon Clark.

The Road to Calm Workbook: Life-Changing Tools to Stop Runaway Emotions Carolyn Daitch, Lissah Lorberbaum, 2016-04-25 A protocol of easy-to-use tools that can be applied when readers experience difficult-to-manage emotions. Emotional flooding—being overwhelmed by feelings—happens in response to stress, anxiety, and life’s challenges. In this client-orientated accompaniment to Affect Regulation Toolbox, Carolyn Daitch and Lissah Lorberbaum present skills and tools on how to dial down reactivity, practice mindfulness, and focus positively on the future. Written to conquer a broad range of emotional challenges in easily accessible language, this book is intended to help clients improve the quality of their everyday lives. The workbook is split into two parts. Part I helps the reader understand when and why emotional flooding occurs. Using vivid stories and examples of others’ triggering situations helps the reader better understand their own triggers, and how to cope with them. Part II provides instructions for “daily stress inoculations,” a daily practice for relaxing and lowering baseline levels of emotional reactivity. The STOP Solution is introduced as a way of learning how to stop or lessen feeling emotionally overwhelmed. STOP stands for Scanning thoughts, feelings, and sensations, Taking a time-out, Overcoming Initial Flooding, and Putting tools into practice. Throughout the workbook, readers will find guided imagery exercises, opportunities for journaling and reflection, mindfulness practices, and matching audio exercises on the accompanying CD. A complimentary companion app (for information, visit: www.bitly.com/RoadToCalmApp) also enhances readers’ ability to take these exercises on the go. The result of this gentle and reliable program is resilience, well-being, and freedom from the emotional patterns that create suffering and damage relationships.

10% Happier Dan Harris, 2014-03-11 #1 New York Times Bestseller REVISED WITH NEW MATERIAL Winner of the 2014 Living Now Book Award for Inspirational Memoir An enormously smart, clear-eyed, brave-hearted, and quite personal look at the benefits of meditation. —Elizabeth Gilbert Nightline anchor Dan Harris embarks on an unexpected, hilarious, and deeply skeptical odyssey through the strange worlds of spirituality and self-help, and discovers a way to get happier that is truly achievable. After having a nationally televised panic attack, Dan Harris knew he had to make some changes. A lifelong nonbeliever, he found himself on a bizarre adventure involving a disgraced pastor, a mysterious self-help guru, and a gaggle of brain scientists. Eventually, Harris realized that the source of his problems was the very thing he always thought was his greatest asset: the incessant, insatiable voice in his head, which had propelled him through the ranks of a hypercompetitive business, but had also led him to make the profoundly stupid decisions that provoked his on-air freak-out. Finally, Harris stumbled upon an effective way to rein in that voice, something he always assumed to be either impossible or useless: meditation, a tool that research suggests can do everything from lower your blood pressure to essentially rewire your brain. 10% Happier takes readers on a ride from the outer reaches of neuroscience to the inner sanctum of network news to the bizarre fringes of America's spiritual scene, and leaves them with a takeaway that could actually change their lives.

Museums in the Digital Age Susana Smith Bautista, 2013-11-26 Museums in the Digital Age: Changing Meanings of Place, Community, and Culture showcases how the use of technology in museums should be understood as factors directly related to the museums' notion of community, local culture, and place, whether these places are in mid-America, urban metropolises, or ethnically diverse and underserved communities. Here, museum expert Susana Smith Bautista brings more than twenty years of experience in cultural institutes in Los Angeles, New York, and Greece to propose a social understanding of why museums should be adopting technology, and how it should be adapted based on their particular missions, communities, and places. This book is timely because we are in the midst of the digital age, which is rapidly changing due to rapidly changing developments in technology and society as well, with social adaptations of technology. Theory is always racing to catch up with practice in the digital age, but theory remains a critical - and often neglected - component to accompany the practical application of technology in museums. In order to illustrate these points, the book presents five case studies of the most technologically advanced art museums in the United States today: The Indianapolis Museum of Art The Walker Art Center The San Francisco Museum of Modern Art The Museum of Modern Art The Brooklyn Museum Each case study ends with a Lessons Learned section to bring these points home. While the case studies focus on museums in the United States, and also on art museums, this book is relevant to all types of museums and to museums all over the world, as they equally face the challenge of incorporating technology into their institutions. Although these case studies are all well-established and well-endowed museums, Bautista reveals valuable insight into the difficulties they face and the questions they are asking which are relevant to even the smallest museum or community cultural center.
