Ghost Box Chris Moon, Paulette Moon, 2017-08-08 The Ghost Box: A Device of Fascination and Fear Discover the mind-blowing, bone-chilling stories of a leading investigator as he pioneers the use of this intriguing tool Chris Moon was the first investigator to use the celebrated device known as the ghost box to facilitate real-time, two-way communication with the spirit world. In Ghost Box, Chris shares the extraordinary spiritual contacts he's made with the box during investigations of famous haunted locations such as the Sallie House and the Lizzie Borden House. Also revealed in this amazing book are Chris's experiences using the box to communicate with the spirit of Abraham Lincoln, JFK assassination witnesses, shadow people, and the spirits who come through during his frequent gallery readings. Based on Thomas Edison's designs for the Telephone to the Dead, this device—also called Frank's Box in honor of its designer Frank Sumption—has been used to communicate with an incredible variety of spirits and astral beings. This book shares the fascinating story of how Frank's Box came to be and explores the startling truths of the spirit world. Praise: [T]his book will please fans of ghost-hunting stories.—Publishers Weekly

Uncovering the Alien Agenda T. L. Parker, 2017-02-12 One of the most puzzling aspects of the UFO mystery has always been the alien agenda. What do they want and what's their end game? Uncovering the alien agenda examines stories of alien abduction that might provide clues to these questions. Are these beings interdimensional or can

science explain some of the extraordinary claims of alien abductees and UFO witnesses? In 1940, a Montana man crosses paths with Nordics. Although his encounter comes before Roswell and Betty and Barney Hill, his description of the craft closely matches modern UFO sightings. Read accounts of abductions and learn about some of the extraordinary physical evidence that is now being collected in the field of Ufology.

Legend Tripping Lynne S. McNeill, Elizabeth Tucker, 2018-11-30 Legend Tripping: A Contemporary Legend Casebook explores the practice of legend tripping, wherein individuals or groups travel to a site where a legend is thought to have taken place. Legend tripping is a common informal practice depicted in epics, stories, novels, and film throughout both contemporary and historical vernacular culture. In this collection, contributors show how legend trips can express humanity's interest in the frontier between life and death and the fascination with the possibility of personal contact with the supernatural or spiritual. The volume presents both insightful research and useful pedagogy, making this an invaluable resource in the classroom. Selected major articles on legend tripping, with introductory sections written by the editors, are followed by discussion questions and projects designed to inspire readers to engage critically with legend traditions and customs of legend tripping and to explore possible meanings and symbolics at work. Suggested projects incorporate digital technology as it appears both in legends and in modes of legend tripping. Legend Tripping is appropriate for students, general readers, and folklorists alike. It is the first volume in the International Society for Contemporary Legend Research series, a set of casebooks providing thorough and up-to-date studies that showcase a variety of scholarly approaches to contemporary legends, along with variants of legend texts, discussion questions, and projects for students. Contributors: S. Elizabeth Bird, Bill Ellis, Carl Lindahl, Patricia M. Meley, Tim Prizer

Communicating With the Dead Aeryck De Sade,2012-05-01 In this book I will seek to provide you with several methods of communicating with spirits. I will focus on methods that range from simple ones that require little to no training, and some that require minimal equipment to record the voices of the dead. Then I'll venture into some more advanced techniques of helping you to become more attuned to the subtle world of Spirit so that you may discover if the path of mediumship, or spirit communication, may be more your forte. I'll discuss some of the methods that professional ghost hunters use, that you can use as well, to determine if a location is haunted, or if you are being contacted by Spirit. I will also share my thoughts and methods of using tools such as dowsing, pendulums, and spirit boards for communications with the deceased. Along the way, this book may pique your interest in seeking a hobby or career of ghost hunting, or spirit communication. Maybe you'll even discover that you have a knack for mediumship, a highly coveted talent that has been used by many people to communicate with the dead ranging from law enforcement to private readings for people that seek to contact their dead relatives, as well as ghost hunting teams that seek to discover the reasons for a particular spirit hanging around a location, whether for good or ill.

The mission to discover her secret becomes obsessive, and dangerous. Richter 10: A violent earthquake killed Lewis Crane's parents when he was just a child. Now grown up, he has devoted his life to protecting humankind from earthquakes. A renowned scientist, Crane has developed technology to fuse the Earth's tectonic plates to stop earthquakes forever, but what repercussions will this have on the planet?
