Review of Some Text to Speech Converters, Voice Changers, Video Editors, Animators, Speaking Avatar Makers and Live Str Dr. Hedaya Mahmood Alasooly,2020-09-23 As videos are so much important today, I believe that everyone must have some knowledge on creating and editing videos for common tasks required by his personal or business use. This book has mainly an objective to evaluate some text to speech converters, voice changers, video editors, cartoon animators and video recording and live streaming programs. As I am Arabic, I gave special importance to look for the best tools that can convert Arabic text to voice with good quality because of the lack of these tools. And I also gave special importance to look for the best tools that can change the voice tune as a lot of people don't like to make videos with their voice for special reasons. Then I gave quick guide on how to use the two important video editors, VSDC Free Video Editor and Camtasia Studio. Then I gave quick guide on how to use two websites that enable people to create cartoon animation videos in a

simple way, animaker.com/ website and powtoon.com website. Then I gave quick guide on how to use one of the best animator programs, which is Reallusion Cartoon Animator 4. I explained also how it is possible to make face mockup through Cartoon Animator 4Motion Live 2D Plugin. Then I introduced Adobe Character Animator as alternative program to make face mockup. Finally I explained about one of the video recording and live streaming programs, which is OBS Studio. I mentioned briefly how to setup OBS studio to create livestream video on Youtube and Facebook. At the end, I showed how to use Voki website to create customizable speaking avatars This work is divided to the following sections.

1. Some tools to reshape the Arabic letters so they can be converted to voice in other tools.
2. Some tools to convert English text to speech TTS.
3. Some tools to convert Arabic text to speech TTS.
4. Evaluation of some voice changers
5. Creating video of audio file with list of images (slideshow) using VSDC Free Video Editor.:
6. Screen capture using VSDC Free Video Editor.
7. Video capture using VSDC Free Video Editor.
8. Using animaker.com/ website to create simple cartoon animation video.
9. Using powtoon.com website to create animation video.
10. Using Camtasia

Studio Video Editor 11. Using Camtasia Studio Recorder 12. Using Reallusion Cartoon Animator 4: 13. Making Face Mockup on Cartoon Animator 4 through Motion Live 2D Plugin 14. Introduction to Adobe Character Animator 15. Setting OBS Studio for live stream: 16. Creating live stream video on Youtube with OBS studio: 17. Creating Live stream video on Facebook with OBS studio: 18. Using Voki website voki.com/ to create customizable speaking avatars.

Digital Culture & Society (DCS) Ramón Reichert, Annika Richterich, Pablo Abend, Mathias

Fuchs, Karin Wenz, 2016-12-31 »Digital Culture & Society« is a refereed, international journal, fostering discussion about the ways in which digital technologies, platforms and applications reconfigure daily lives and practices. It offers a forum for critical analysis and inquiries into digital media theory and provides a publication environment for interdisciplinary research approaches, contemporary theory developments and methodological innovation. The third issue »Politics of Big Data« edited by Mark Coté, Paolo Gerbaudo, and Jennifer Pybus, critically examines the political and economic dimensions of Big Data and thus details its contestation. The contributions focus on the materialities and processes which manifest Big Data and explore forms of value beyond the state and capital. These range from open data initiatives, social media metrics, machine learning algorithms, data visualisation to data dashboards, critical data analysis, and new modes of data action research and practice.

Live from the Campaign Trail Michael A. Cohen,2011-02-01 As the country wades into the hotly contested 2008 presidential election season, we look to the candidates' public pronouncements to gain

an understanding of their platforms and to get a sense of the political direction our country might take over the course of the next four years. Presidential campaign oratory has always inspired and incited voters. In this collection of 27 pivotal campaign speeches, Michael Cohen helps bring to life the speeches that defined and dramatized American politics over the last century. From FDR's pledge for a New Deal to Nixon's legendary Checkers speech, from Dan Quayle's attack on Murphy Brown to select speeches from this year's presidential race, the stump speech has been the primary vehicle for candidates to share their political ambitions and ideals with the American people. With supporting essays that set the scene and provide the appropriate context for understanding what was said, how it was said, and why, *Live from the Campaign Trail* illustrates how campaign speeches have fundamentally shaped the way we think about American politics.

Growing Musicians Bridget Sweet, 2015-12-23 *Growing Musicians: Teaching Music in Middle School and Beyond* focuses on teaching adolescents within the context of a music classroom, regardless of content area (orchestra, band, choir, or general music). It provides a look at the

importance of music courses in the lives of adolescents as they navigate the path between being a child and an adult. As every music student is completely unique, there is no one-size-fits-all prescriptive way of working with this age group. Rather, music educators must approach adolescents with high musical standards and aspirations to learn and achieve within music; a willingness to honor the individuality of each adolescent musician; a sense of structure, but an ability to be flexible; a desire to foster and promote a safe classroom environment where students feel empowered to be themselves and speak openly about what they think and believe; an understanding that music classes are not only safe places where students learn how to become better musicians but also better people through musical experiences focused on humanity and empathy; and a dose of humor, or at least the ability to acknowledge that adolescents are extremely funny whether or not they realize it. In addition, this book encourages pre-service and practicing music educators to mindfully examine and better understand their own teaching practices.
