Make Your Own Horror Movie Jonathan Quijano,2012 Provides instructions for how to make your own horror movie--

The Book of Horror Matt Glasby,2020-09-22 “Glasby anatomizes horror’s scare tactics with keen, lucid clarity across 34 carefully selected main films—classic and pleasingly obscure. 4 Stars.” —Total Film? Horror movies have never been more critically or commercially successful, but there’s only one metric that matters: are they scary? The Book of Horror focuses on the most frightening films of the post-war era—from Psycho (1960) to It Chapter Two (2019)—examining exactly how they scare us across a series of key categories. Each chapter explores a seminal horror film in depth, charting its scariest moments with infographics and identifying the related works you need to see. Including references to more than one hundred classic and contemporary horror films from around the globe, and striking illustrations from Barney Bodoano, this is a rich and compelling guide to the scariest films ever made. “This is the definitive guide to what properly messes us up.” —SFX Magazine The films: Psycho (1960), The Innocents (1961), The Haunting (1963), Don’t Look Now (1973), The Exorcist (1973), The Texas Chain Saw Massacre (1974), Who Can Kill a Child? (1976), Suspiria (1977), Halloween (1978), The Shining (1980), The Entity (1982), Angst (1983), Henry: Portrait of a Serial Killer (1990), Ring (1998), The Blair Witch Project (1999), The Others (2001), The Eye (2002), Ju-On: The Grudge (2002), Shutter (2004), The Descent (2005), Wolf Creek (2005), The Orphanage (2007), [Rec] (2007), The Strangers (2008), Lake Mungo (2008), Martyrs (2008), The Innkeepers (2011), Banshee Chapter (2013), Oculus (2013), The Babadook (2014), It Follows (2015), Terrified (2017), Hereditary (2018), It Chapter Two (2019)

The 101 Scariest Movies Ever Made Christopher Wayne Curry,David C. An answer key is included at the back of the eBook.

Horror Films James B. Weaver,Ron Tamborini,2013-11-05 Why do so many of us enjoy being told frightening stories? What are some of the consequences that result from such exposure? In light of the considerable popularity of horror films over the last three decades, these questions have become the focus of growing attention for many scholars. However, research on audience preferences for, and reactions to, horror films has been performed eclectically by investigators from varied theoretical and methodological backgrounds. As a result, the information has not been effectively integrated. This volume was written to address this problem and to position the study of audience responses to frightening fiction as a significant research topic.

Found Footage Horror Films Alexandra Heller-Nicholas,2014-04-24 As the horror subgenre du jour, found footage horror’s amateur filmmaking look has made it available to a range of budgets. Surviving by adapting to technological and cultural shifts and popular trends, found footage horror is a successful and surprisingly complex experiment in blurring the lines between quotidian reality and horror’s dark and tantalizing fantasies. Found Footage Horror Films explores the subgenre’s stylistic, historical and thematic development. It examines the diverse prehistory beyond Man Bites Dog (1992) and Cannibal Holocaust (1980), paying attention to the safety films of the 1960s, the snuff-fictions of the 1970s, and to television reality horror hoaxes and mockumentaries during the 1980s and 1990s in particular. It underscores the importance of The Blair Witch Project (1999) and Paranormal Activity (2007), and considers YouTube’s popular rise in sparking the subgenre’s recent renaissance.

A Very Nervous Person's Guide to Horror Movies Mathias Clasen,2021 Films about chainsaw killers, demonic possession, and ghostly intruders. Screaming audiences with sleepless nights or sweat-drenched nightmares in their immediate future. What's going on here? Presumably, almost everybody has experience with horror films. Almost everybody has sat through a terrifying motion picture and suffered the after-effects, such as hypervigilance and sleep disturbances. Some people would even characterize themselves as horror fans. But what about the others-the ones who are curious about horror films, but also very, very nervous about them? This book delves into the science of

horror cinema in an attempt to address common concerns about the genre. Why is the jump scare so effective, and so dreaded? What are the effects of horror films on mental and physical health? Why do horror films so often cause nightmares? Aren't horror films immoral ... and stupid, too? Are horror films bad for children and adolescents? What does the current profusion of horror films say about our society? Should we be concerned? Or can horror films be a force for good-do horror films have health benefits, can they be aesthetically and morally valuable, and might they even have therapeutic psychological and cultural effects? The book addresses these questions in short, readable chapters, peppered with vivid anecdotes and examples and supported by scientific findings. It notes that while horror films can have negative effects, they can also help people confront and manage fear--

The Horror Movie Survival Guide Matteo Molinari, Jim Kamm, 2001-04-01 From the scream of Psycho to the psycho of Scream, The Horror Movie Survival Guide is your essential source for information on the creatures and monsters that darken your daydreams and stalk your nightmares. Separated into five identifiable categories—aliens, beasts, creations, psychopaths, and the supernatural—each horrific entity is presented with a full description, an overview of unnatural habits, and tips on how to destroy it. This definitive handbook also includes a directory of horror films (So you know where to find your favorite monsters!), thirty photographs of the baddest of the bad, and a list ranking the worst creatures to grace the silver screen by their number of kills. So the next time you're confronted by the supernatural, the extraterrestrial, or the unclassifiable, look in here for all the facts—and run like hell.

We often publish in areas overlooked by other publishers and welcome the author whose expertise can help our audience of readers.

Horror Film, 2004 Essays on the rise of the horror film and on how moviemakers package and promote fright

Trisha's 31 Nights of Fright Trisha Paytas, Jeff Rendell, 2014-09-19 Carrie. The Exorcist. Scream. The Thing. These are the movies that chill the blood and leave viewers huddled under the blankets at night. Of course, not every horror flick can boast such prestige. Leprechaun in the Hood is more likely to generate groans and catcalls than screams, while the dialogue in a gem like Texas Chainsaw Massacre: the Next Generation makes what's intended to be a screamfest into unintentional comedy. Join Trisha Paytas as she explores the wild, terrifying, and sometimes whacky world of slasher flicks and screamfests under the able guidance of horror movie writer Jeff Rendell. Together, the duo introduce thirty-one of the best and worst in horror-films so terrifying they haunt viewers for years, and those goofy flicks so bad they're good. Paytas watches well-known classics of the genre, as well as obscure works important for their influence or their connection to the broader world of cinema. Did you know before directing The Lord of the Rings Peter Jackson was best known for directing a New Zealand slasher flick called Dead Alive, widely considered one of the goriest movies ever made? Or that the flick includes an epic (and hilarious) man vs. zombie baby battle in a public park? Paytas shares one movie for every day in October. Each movie is rated by Fright Factor, Gore, and Body Count, with a wry synopsis so funny it's as entertaining as the movie itself. Why It's Awesome and Why It Sucks sections quickly bring you up to speed on a flick's best and worst features-with the caveat that it's sometimes the campiest of horror flicks that provide the most fun. After all, some days you want Piper Laurie's chilling portrayal of the religiously crazed mother in Carrie, and sometimes you want a heavily made-up Warrick Davis as a rapping Leprechaun. So lower the lights, grab your favorite movie snacks, and join Paytas and Rendell on their odyssey through abject terror, terrifyingly dark powers, chainsaws, leprechauns, and demons. Just remember, it's not their fault if you can't sleep when it's all over.

The Scary Screen Kristen Lacefield, 2016-02-17 In 1991, the publication of Koji Suzuki's Ring, the first novel of a bestselling trilogy, inaugurated a tremendous outpouring of cultural production in Japan, Korea, and the United States. Just as the subject of the book is the deadly viral reproduction of a VHS tape, so, too, is the vast proliferation of text and cinematic productions suggestive of an airborne contagion with a life of its own. Analyzing the extraordinary trans-cultural popularity of the Ring phenomenon, The Scary Screen locates much of its power in the ways in which the books and films astutely graft contemporary cultural preoccupations onto the generic elements of the ghost story—in particular, the Japanese ghost story. At the same time, the contributors demonstrate, these cultural concerns are themselves underwritten by a range of anxieties triggered by the advent of new communications and media technologies, perhaps most significantly, the shift from analog to digital. Mimicking the phenomenon it seeks to understand, the collection's power comes from its commitment to the full range of Ring-related output and its embrace of a wide variety of interpretive approaches, as the contributors chart the mutations of the Ring narrative from author to author, from medium to medium, and from Japan to Korea to the United States.

The Horror Film Reader Alain Silver, James Ursini, 2000 These essays offer a broad overview of the horror film genre, from the silent screen to Scream 3, demonstrating how it remains defiantly, frighteningly alive.

Creepy Bitches: Essays On Horror From Women In Horror Alyse Wax, Rebekah McKendry, For far too long, horror has been considered a male genre, made by men, marketed to men, and enjoyed by men. But in the last decade, we have seen an emergence of women as horror filmmakers, academics, and fans, all making sure their voices were heard! Editors Alyse Wax and Rebekah McKendry, PhD have gathered some of the greatest minds in horror film theory—all women—to discuss their love of the genre. The scope of Creepy Bitches covers all areas of the horror genre, film industry, and fandom – from the Cronenbergian experience of giving birth to how The X-Files plays in the #MeToo moment; from growing up at Disneyland's Haunted Mansion to growing up in a video store. The book explores gender roles in The Creature From the Black Lagoon trilogy and Mexican horror cinema, as well as the bisexual energy of I Know What You Did Last Summer. It covers the therapeutic benefits of watching horror and how to love home invasion movies again after experiencing real-life trauma. But the book's overarching purpose is to celebrate new voices and increase our understanding of women in the horror realm, celebrating that horror does not only scare us, but helps us understand the world around us, providing a lens through which to view and explore

our own selves.

The Horror Movie Dictionary Killian Gore,2019-04-06 Killian H. Gore loves and knows horror movies so much he wrote the dictionary on the subject...literally. And here it is! The Movies That Make You Scream! R. David Fulcher,2007-05-01 1. Why Do Horror Movies Work? From the beginning, mankind has known fear. Lightning forked through the sky and thunder boomed down from the heavens--terrible and incomprehensible events to ancient man. A myriad of viruses and diseases, now identifiable and treatable by modern medicine, caused people to drop dead suddenly for no reason, and predators prowled the dark forests and thinned the human tribes of the prehistoric era. Our genetic history has carried the primordial impulse for fear forward into modern times. Who, even in these high-tech times, doesn't hold their breath when the electricity suddenly goes out? Who doesn't wonder at the strange creaks and groans that sound at midnight as an old house settles into the earth? It is this instinct to fear, with all of its biological side effects--goose bumps, rapid breathing, hair standing on end--that makes horror work in film and literature. This book looks at a number of adaptations of the written works of Stephen King brought to the big screen and the pressure points in the human psyche that in my opinion makes these movies so successful in their efforts to make us very, very afraid. Finally, a number of horror movie reviews I have written over the years are provided as well as a short original piece of horror fiction for your enjoyment.
