Folk songs from Somalia Axmed Cartan Xaange, Annarita Puglielli, 2014-10-01 Questo libro presenta una raccolta di canti appartenenti alla tradizione nomadica della Somalia Centrale e di Nord-est. Le 191 canzoni presenti coprono una grande varietà di tipi - ninne nanne, canti di lavoro ecc. - e rappresentano un aspetto importante nella tradizione della poesia orale somala. Sono stati raccolti da A.C. X., cresciuto nella comunità pastorale del Nord-est, allo scopo di preservare un importante patrimonio dei somali.

Writing Free Irene Staunton, 2011-09-01 In this fifth anthology of Zimbabwean short stories from Weaver Press fifteen writers respond to the topic of writing free, and offer their thoughts about how and why they wrote as they did. The stories reflect a wide variety of freedoms: from tyranny, from hunger, from abuse, from the shackles of tradition, and even from the traditional constraints of narrative convention. But there are cautionary tales, too. Political change may be liberating for the adults who suffered for it, but will their children share in the euphoria of new-found freedom? Will a departure from domestic poverty to the calm waters of the diaspora deliver all that was hoped for it? Is the grass always greener beyond the fence of a stifling marriage? Zimbabwe has had more than its share of social and material deprivation in recent years, and people's responses have taken many forms. Writing Free offers an engaging and kaleidoscopic sample of these, and in doing so gives an intimate portrait of a country in transition.

The Future of the Past Alexander Stille, 2003-04-01 An engrossing look at the cultural consequences of technological change and globalization Space radar, infrared photography, carbon dating, DNA analysis, microfilm, digital data bases—we have better technology than ever for studying and preserving the past. And yet the by-products of technology threaten to destroy—in one or two generations—monuments, works of art, and ways of life that have survived thousands of years of hardship and war. This paradox is central to our age. We use the Internet to access and assess infinite amounts of information—but understand less and less of its historical context. Globalization may eventually benefit countries around the world; it will also, almost certainly, lead to the disappearance of hundreds of regional dialects, languages, and whole societies. In *The Future of the Past*, Alexander Stille takes us on a tour of the past as it exists today and weighs its prospects for tomorrow, from China to Somalia to Washington, D.C. Through incisive portraits of their protagonists, he describes high-tech struggles to save the Great Sphinx and the Ganges; efforts to preserve Latin within the Vatican; the digital glut inside the National Archives, which may have lost more information in the information age than ever before; an oral culture threatened by a new technology: writing itself. Wherever it takes him, Stille explores not just the past, but our ideas about the past, how they are changing—and how they will have to change if our past is to have a future.

Love Songs in Motion Christina J. Woolner, 2023 At first listen, music is conspicuously absent from Somaliland's public soundscapes. The lingering effects of a war that devastated the artistic community and the increasing presence of Salafist groups, which see music as incompatible with Islamic principles, have muted musical practice. Nonetheless, as Christina Woolner undertook research in postwar peacebuilding in Somaliland's capital, Hargeysa, she continually heard snippets of songs. Many of these, she learned, were about love. In a time and region riddled with precarity, hees jacayl permits singers to sing from the heart, a mode of voicing songs that Woolner calls envocalization, which allows the possibility of dareen-wadaang (feeling sharing). Despite their intense intimacy, that is, hees jacayl transcend the connection between the lover and the beloved, becoming also, perhaps paradoxically, an outward-facing, unifying force that powerfully draws together those suffering from love, poets, composers, singers, and listeners, in both private and public spaces. Taking us from 1950s recordings preserved on dusty cassettes to contemporary, often improvisatory performances in a scandalous venue where the author herself eventually performs, Woolner offers an understanding of love songs across time and space that opens new realms of possibility, for relating to others and for local reconciliation, which are otherwise closed off by overwhelming conditions of precarity--

Friedrich Rosen Amir Theilhaber, 2020-09-07 The German lacuna in Edward Said's 'Orientalism' has produced varied studies of German cultural and academic Orientalisms. So far the domains of German politics and scholarship have not been conflated to probe the central power/knowledge nexus of Said's argument. Seeking to fill this gap, the diplomatic career and scholarly-literary productions of the centrally placed Friedrich Rosen serve as a focal point to investigate how politics influenced knowledge generated about the "Orient" and charts the roles knowledge played in political decision-making regarding extra-European regions. This is pursued through analyses of Germans in British imperialist contexts, cultures of lowly diplomatic encounters in Middle Eastern cities, Persian poetry in translation, prestigious Orientalist congresses in northern climes, leveraging knowledge in high-stakes diplomatic encounters, and the making of Germany's Islam policy up to the Great War. Politics drew on bodies of knowledge and could promote or hinder scholarship. Yet, scholars never systemically followed empire in its tracks but sought their own paths to cognition. On their own terms or influenced by "Oriental" savants they aligned with politics or challenged claims to conquest and rule.

The Suicidal State in Somalia Mohamed Haji Ingiriis, 2016-04-01 This book is a critical reposition of the study of military regimes in Africa. Documenting and delving deep into the reign and rule of General Mohamed Siad Barre regime in Somalia from 1969 up to 1991, the book puts emphasis on African agencies—ostensibly shaped by external beneficiaries and patrons—over what went wrong with Africa after the much-awaited post-colonial period. It does so by critically engaging with the wider theoretical and conceptual frameworks in African Studies which more often than not tend to attribute the post-colonial African State raptures to colonialism. The main thesis of the book is that colonialism left Africa on its own space wherein African leaders could have made a difference. By putting discrete perspectives into historical context, the book circumnavigates through comparative and comprehensive holistic approach to the Siad Barre regime to reveal how colonialism did not produce less than what criminalisation of the State resulted in Somalia. This empirical analysis is crucial to understanding the contemporary conundrum facing the Somali world today. The argument is that the contemporary conflicts are not only attributable to—but also because of—the past plunders of the post-colonial leaders trained by the departed

colonial authorities. Employing nuanced analytic concepts and categories, the aim of the book is to refine the past to recapture the present and envision the future. Framing new ways of analyzing military regimes in Africa begins with (re)assessment of how the Siad Barre regime was previously approached. Marshalling extensive and extraordinary amount of sources, the book unveils the intricacies and contradictions of the dictatorship and its impact on the Somali psyche. The book locates the evolution of the regime within the wider context of the Cold War political contestation between the East and the West. Unparalleled in-depth and analysis, this book is the first full-length scholarly study of the Siad Barre regime systematically explaining the politics and process of the dictatorial rule. The historicity of exploring Somali State trajectory entails employing a Braudelian *longue durée* approach. Thus, three interrelated sets of contexts/questions inform the study: how Siad Barre himself came into power, how he ruled and maintained his authoritarian reign over the Somalis and who had assisted him from inside and outside the Somali world.

Sittaat, Somali Women's Songs for "the Mothers of the Believers" Lidwien Kapteijns, Mariam Omar Ali, 1995

Somali, Muslim, British Giulia Liberatore, 2020-05-27 Somalis are one of the most chastised Muslim communities in Europe. Depicted in the news as victims of female genital mutilation, perpetrators of gang violence, or more recently, as radical Islamists, Somalis have been cast as a threat to social cohesion, national identity, and security in Britain and beyond. *Somali, Muslim, British* shifts attention away from these public representations to provide a detailed ethnographic study of Somali Muslim women's engagements with religion, political discourses, and public culture in the United Kingdom. The book chronicles the aspirations of different generations of Somali women as they respond to publicly charged questions of what it means to be Muslim, Somali, and British. By challenging and reconfiguring the dominant political frameworks in which they are immersed, these women imagine new ways of being in securitized Britain. Giulia Liberatore provides a nuanced account of Islamic piety, arguing that it needs to be understood as one among many forms of striving that individuals pursue throughout their lives. Bringing new perspectives to debates about Islam and multiculturalism in Europe, this book makes an important contribution to the anthropology of religion, subjectivity, and gender.

Fonseca, 2018-12-01 This set covers all aspects of international hip hop as expressed through music, art, fashion, dance, and political activity. Women's Lives around the World [4 volumes] Susan M. Shaw, Nancy Staton Barbour, Patti Duncan Ph.D., Kryn Freehling-Burton Ph.D., Jane Nichols, 2018-01-04 Providing an in-depth look at the lives of women and girls in approximately 150 countries, this multivolume reference set offers readers transnational and postcolonial analysis of the many issues that are critical to the success of women and girls. For millennia, women around the world have shouldered the responsibility of caring for their families. But in recent decades, women have emerged as a major part of the global workforce, balancing careers and family life. How did this change happen? And how are societies in developing countries responding and adapting to women's newer roles in society? This four-volume encyclopedia examines the lives of women around the world, with coverage that includes the education of girls and teens; the key roles women play in their families, careers, religions, and cultures; how issues for women intersect with colonialism, transnationalism, feminism, and established norms of power and control. Organized geographically, each volume presents detailed entries about the lives of women in particular countries. Additionally, each volume offers sidebars that spotlight topics related to women and girls in specific regions or focus on individual women's lives and contributions. Primary source documents include sections of countries' constitutions that are relevant to women and girls, United Nations resolutions and national resolutions regarding women and girls, and religious statements and proclamations about women and girls. The organization of the set enables readers to take an in-depth look at individual countries as well as to make comparisons across countries.

Sing and Sing On Kay Kaufman Shelemay, 2022-01-11 A sweeping history of Ethiopian musicians during and following the 1974 Ethiopian revolution. *Sing and Sing On* is the first study of the forced migration of musicians out of the Horn of Africa dating from the 1974 Ethiopian revolution, a political event that overthrew one of the world's oldest monarchies and installed a brutal military regime. Musicians were among the first to depart the region, their lives shattered by revolutionary violence, curfews, and civil war. Reconstructing the memories of forced migration, *Sing and Sing On* traces the challenges musicians faced amidst revolutionary violence and the critical role they played in building communities abroad. Drawing on the recollections of dozens of musicians, *Sing and Sing On* details personal, cultural, and economic hardships experienced by musicians who have resettled in new locales abroad. Kay Kaufman Shelemay highlights their many artistic and social initiatives and the ways they have offered inspiration and leadership within and beyond a rapidly growing Ethiopian American diaspora. While musicians held this role as sentinels in Ethiopian culture long before the revolution began, it has taken on new meanings and contours in the Ethiopian diaspora. The book details the ongoing creativity of these musicians while exploring the attraction of return to their Ethiopian homeland over the course of decades abroad. Ultimately, Shelemay shows that musicians are uniquely positioned to serve this sentinel role as both guardians and challengers of cultural heritage.

Johnson traces the heello movement from its origins as a youth culture which in its early days was concerned with themes of love and pleasure. Heello became the most dynamic form of Somali poetry in this century. This edition uses modern Somali script.
