Kumon Publishing

Times Tables Book Nishi Singh, 2016-02-07 This little book has times tables from 1 to 20 with 12 rows of multiplication. That is all children should ideally learn! This book is suitable for children from the ages of pre-school and upwards. They can memorize the tables then test it afterwards. There is no magic formula for learning the times tables, they must do it the hard way which is to memorize them by heart. It will take months so there is no need for parents to get upset and panic if they aren't able to memorize it in an instance. Remember each child is different. Just ask your child to memorize these times tables one by one.

Addition Facts that Stick Kate Snow, 2017-01-31 The fun, engaging program that will help your child master the addition facts once and for all—without spending hours and hours drilling flash cards! Addition Facts That Stick will guide you, step-by-step, as you teach your child to understand and memorize the addition facts, from $1 + 1$ through $9 + 9$. Hands-on activities, fun games your child will love, and simple practice pages help young students remember the addition facts for good. In 15 minutes per day (perfect for after school, or as a supplement to a homeschool math curriculum) any child can master the addition facts, gain a greater understanding of how math works, and develop greater confidence, in just six weeks! Mastery of the math facts is the foundation for all future math learning. Lay that foundation now, and make it solid, with Addition Facts That Stick!

Times Tables Pull the Tab Arcturus Publishing, 2020-03-15

Help Your Kids with Times Tables Carol Vorderman, 2017-08-03 A unique visual approach to understanding times tables with Carol Vorderman, the UK's number 1 bestselling education author.

This comprehensive and accessible guide and workbook provides a range of learning techniques and is complemented by practice exercises throughout. Beginning with times tables basics and culminating in challenging number sequences, the methods, tricks and tips shown, ensure no child will be left feeling bewildered. Fun and funky graphics help to engage your child and visualise the maths problem in front of them. Parents' notes on the practice tests mean you'll be able to answer any tricky questions and give essential times tables guidance. *Help Your Kids with Times Tables* is the perfect guide for frustrated children and confused adults to unlock your child's academic achievement.

Time Tables Practice Pad Kirsteen

Robson, 2017-08-30 This handy tear-off pad is bursting with multiplication sums for children to practise their times tables. Kids can refresh, improve and build up confidence in their abilities as they work through the sheets and build up to trickier calculations. Packed with tear-off sheets that include a range of approaches to practise and consolidate arithmetic skills. Compact and easy to pack in a bag, it's great in the school holidays for children to brush up on their numbers before the new term. Gradually increases in difficulty so children can build up confidence before tackling more challenging sums.

Terrible Times Tables Michelle Markel, 2022-07-12

A modern multiplication primer that tackles the terrors of a typical school year. Learning math has never been this much fun! Inspired by a Victorian math primer, *Terrible Times Tables* is a modern take on learning one's multiplication tables, from numbers 2 to 10, featuring elementary school themes of homeroom, field trips, cafeteria food, holidays, and recitals. Featuring a reluctant narrator and a few unwitting critters, learning math has never been so much fun or

amusing.

I Can Do It! Times Tables Nat Lambert, 2018-07
The answers to over 100 multiplication maths questions are revealed when you pull-the-tabs, helping children to learn some fundamental math rules and to gain number and times tables confidence in no time at all. Use the wipe-clean pen to write the answer to each sum, then pull the tab to check your answers.

Times Tables Tricks Lidia Stanton, 2019-12-04 For sample pages PREVIEW, visit www.lidiastanton.com. This step-by-step guide is for learners of all ages who: have tried (without success) rote learning methods based on repetition of whole multiplication facts enjoy active learning through discovery and experience have gaps in their times tables knowledge need fast and foolproof strategies to recall times tables in formal assessments, particularly timed ones may have a specific learning difficulty (SpLD), such as dyslexia, dyscalculia and ADD/ADHD The book works by: helping over-learn secure reference points in the times tables, from which more tricky facts can be worked out. validating alternative methods for learning times tables. Rote learning does not work for everyone. Using fingers is not a sign of cheating. For those who are self-conscious, the book's preferred (but not exclusive) way of using fingers is gentle tapping on the table (instead of raising hands) to avoid attracting attention to oneself. offering multisensory instruction methods that help counteract the effects of weak sequential working memory and poor long-term memory for number facts. How to use this book Only practise one 'trick' at a time (until its recall becomes fully automatic) before moving on to the next one. This is to avoid becoming confused or overwhelmed. Once you've learned a trick, practise it as often as you can: later the same day and in the following days and weeks. Share it with other

people; use it as a family, class, or party trick. Test yourself during quiet times at home. The book doesn't need to be read from cover to cover. You can dip in and out, starting with the trick that looks most appealing or makes the most sense to you. Different brains respond differently to maths methods. Don't worry if some tricks don't make sense straight away. Leave them for now, enjoy another trick, then come back to it later. It's fine to learn only some tricks in this book.

Focus on Multiplication Kumon Publishing, 2012-06 Kumon's research has discovered that children learn more easily when they tackle one skill at a time. That's why Kumon Focus on Workbooks shine a spotlight on one challenging maths topic per book and help children improve these essential skills and gain confidence in their abilities. Each workbook utilises the Kumon Method - a step-by-step, incremental approach that helps children learn at their own pace and without anxiety. By rigorously practising each skill, the child will be proficient in the mathematics that is crucial for future learning.

Magic Times Tables Belinda Webster, 2013-03 Magic Times Tables is an exciting and colorful math book for children ages 6 and up. It includes a spy glass that magically reveals the answers to every times table up to 12. This interactive element makes the often dull and difficult task of learning times tables into something wonderfully fun and enjoyable.
