Lure of the Sinister Gareth Medway, 2001-04 Draws on various sources of information from newspapers to pulp literature to examine the history of demonology, or Satanism.

A Tsilhqút'ín Grammar Eung-Do Cook, 2013 Tsilhqút'ín, also known as Chilcotin, is a northern Athabaskan language spoken by the people of the Chilco River (Tsilhqóx) in Interior British Columbia. This language is spoken by approximately two thousand adults in six reserves, and both spoken and written forms are taught as part of school curricula. Until now, the literature on Tsilhqút'ín contained very little description of the language. With forty-seven consonants and six vowels plus tone, the phonological system is notoriously complex. This book is the first comprehensive grammar of Tsilhqút'ín. It covers all aspects of linguistic structure -- phonology, morphology, and syntax -- including negation and questions. Also included are three stories passed down by Tsilhqút'ín elders Helena Myers (translated by Maria Myers), William Myers, and Mabel Alphonse (translated by Bella Alphonse), which are annotated with linguistic analysis. The product of decades of work by linguist Eung-Do Cook, *A Tsilhqút'ín Grammar* makes an important contribution to the ongoing documentation of Athabaskan languages.

Re-Schooling Society in the Digital Age Mohamed Ziad Hamdan, 2015-01-01 What future is there for formal schools and schooling in an increasingly digital age? Are educational technologists justified in arguing for the re-construction of school processes and practices along digital lines? Do contemporary digital technologies simply render the educational institution entirely obsolete? This paper outlines – and then critiques – the radical forms of digital ‘re-schooling’ and ‘de-schooling’ that are often argued for within current academic debates over educational technology community. Instead the paper explores a number of opportunities for using digital technologies to work with schools as they currently are, rather than against them. In particular an ‘agenda for adjustment’ is presented that, if implemented, could see schools revitalised as sites of innovative, imaginative and empowering digital technology use.

The Song of America Roy Ringwald, 1951

A Cosmopolitan Ideal Karin B. Neutel, 2015-02-26 What did Paul mean when he declared that there is 'neither Jew nor Greek, neither slave nor free, nor male and female' (Galatians 3:28)? While many modern readers understand these words as a statement about human equality, this study shows that it in fact reflects ancient ideas about an ideal or utopian community. With this declaration, Paul contributed to the cultural conversation of his time about such a community. The three pairs that Paul brings together in this formula all played a role in first-century conceptions of what an ideal world would look like. Such conceptions were influenced by cosmopolitanism; the philosophical idea prevalent at the time, that all people were fundamentally connected and could all live in a unified society. Understanding Paul's thought in the context of these contemporary ideals helps to clarify his attitude towards each of the three pairs in his letters. Like other ancient utopian thinkers, Paul imagined the ideal community to be based on mutual dependence and egalitarian relationships.

Kingdom Calling The Faith and Order Commission, 2020-10-15 Kingdom Calling offers a compelling theological

grounding for the vocation, ministry and discipleship of the whole people of God. Building creatively on previous studies, it challenges all of us to change so that the whole church can serve the whole mission of God in the whole of life. Kingdom Calling provides a thorough diagnosis of the theological factors that have prevented such a vision being realised over previous decades. These factors are embedded in the social realities of our everyday life and in the sometimes hidden assumptions that shape our thinking in the church. By setting out a sustained proposal for the renewal of our theological imagination, the report points the way to address some deep running fault lines in our common life. Written in an accessible style, Kingdom Calling looks in turn at the vocation, ministry and discipleship of all God's people, asking what kind of theological thinking and imagining might most help us to flourish together. It affirms and celebrates the vital lay and ordained ministry roles that support the church in God's mission, and it identifies changes in practice that can better foster the vocation, ministry and discipleship of the whole people of God.

Multilateral Negotiations Fen Osler Hampson, Michael Hart, 1999-04-05 Political scientist Fen Osler Hampson, with the assistance of trade specialist Michael Hart, studies the component parts of the multilateral negotiation process to identify those factors making for success or failure. The authors argue that multilateral negotiation is, in essence, a coalition-building enterprise involving states, nonstate actors, and international organizations. Among the questions they raise are: How do issues get to the table in multilateral negotiations? Who sits at the table and who composes the tiers of relevant stakeholders? What are the procedures for managing complexity? What are the obstacles - strategic and psychological - to reaching agreement? Ranging from the 1963 Test Ban Treaty to the Climate Change Convention (1992) and the completion of the Uruguay Round of GATT (1993), individual case studies include discussions on security, environmental, and economic issues. Of particular interest is the attention given to nongovernmental actors - such as scientists and environmental groups like Greenpeace International - in prenegotiation and negotiation phases.

Learning to Dream Again Samuel Wells, 2013-07-31 This striking guide to thoughtful Christian living explores the everyday experience of Christian hope and wisdom. In thirty six short and engaging reflections, Sam Wells explores what influences and shapes how we live, love, think, read Scripture, feel and dream, equipping us to respond with our whole selves.

Hope and Despair in the American City Gerald Grant,2011-03-04 In 1972, the U.S. Supreme Court handed down a 5Ð4 verdict in Milliken v. Bradley, thereby blocking the state of Michigan from merging the Detroit public school system with those of the surrounding suburbs. This decision effectively walled off underprivileged students in many American cities, condemning them to a system of racial and class segregation and destroying their chances of obtaining a decent education. In *Hope and Despair in the American City*, Gerald Grant compares two citiesÑhis hometown of Syracuse, New York, and Raleigh, North CarolinaÑin order to examine the consequences of the nation's ongoing educational inequities. The school system in Syracuse is a slough of despair, the one in Raleigh a beacon of hope. Grant argues that the chief reason for Raleigh's educational success is the integration by social class that occurred when the city voluntarily merged with the surrounding suburbs in 1976 to create the Wake County Public School System. By contrast, the primary cause of Syracuse's decline has been the growing class and racial segregation of its metropolitan schools, which has left the city mired in poverty. *Hope and Despair in the American City* is a compelling study of urban social policy that combines field research and historical narrative in lucid and engaging prose. The result is an ambitious portraitÑsometimes disturbing, often inspiringÑof two cities that exemplify our nation's greatest educational challenges, as well as a passionate exploration of the potential for school reform that exists for our urban schools today.

Called and Equipped Karen Wheeler,2023-08-23 Teaching isn't a glamor job. People don't go into teaching to become rich; they become teachers because they want to make a difference, to touch the future. They feel called. But lately, COVID-19 pressures, political astigmatism, a strained economy, mental health crises, and even gun violence have piled on more stress so a career that begins with an honorable calling sometimes sinks into mediocrity, even survival. *Called and Equipped*, by author Karen Wheeler, was born of a need that was inspired by long, frustrating, and harried days as a teacher navigating the rough seas of public school while trying to maintain some semblance of a faithful Christian in practice. The vehicle in this study is a teaching environment, but this vehicle can go many places. While it is written from a teacher's perspective, non-teachers have taken the study and have found it very relatable and easy to transfer to their unique work and life situations. Wheeler takes a journey through the Bible, a walk with Biblical characters who were often called into harrowing circumstances but were supported and equipped by God each step of the way. The lessons they learned are teachable moments for us. Through humor and insight, these lessons can still call and equip us in workplaces today.
