

French English Building Terms

JL Elias

Dictionary of Building Terms Basil Butterworth, Janine Flitz, 1981

Dictionary of Building and Civil Engineering Don Montague, 2003-09-02 This dual-language dictionary lists over 20,000 specialist terms in both French and English, covering architecture, building, engineering and property terms. It meets the needs of all building professionals working on projects overseas. It has been comprehensively researched and compiled to provide an invaluable reference source in an increasingly European marketplace.

Concise Dictionary of House Building Terms French-English/English-French A. S. Lindsey, 2001-09-30

Dictionary of Building and Civil Engineering Don Montague, 2017-07-14 This French-English and English-French dictionary lists over 20,000 specialist terms, covering architecture, building, civil engineering and property. It is written for all construction professionals working on projects overseas. This new edition has been revised and extended, as well as pruned, and serves as an invaluable reference source in an increasingly European marketplace.

French-English glossary Alan Sidney Lindsey, 1990

French-English Glossary of Legal, Financial and Building Terms Relating to House Purchase A. S. Lindsey, 1992

French Glossary of Construction Industry Terms Diane Litchfield, 1996-01-01

A Dictionary of French Building Terms Richard Wiles, 2006 This phrase book provides the terms one needs to know when buying, maintaining, renovating or building a home in France. It includes the technical words for tools and equipment and various aspects of painting, carpentry, roofing, plumbing and drainage, as well as terminology for planning structural changes.

Dictionary of Building and Civil Engineering ,2013-12-20

In the last few decades civil engineering has undergone substantial technological change which has, naturally, been reflected in the terminology employed in the industry. Efforts are now being made in many countries to bring about a systematization and unification of technical terminology in general, and that of civil engineering in particular. The publication of a multilingual dictionary of civil engineering terms has been necessitated by the expansion of international cooperation and information exchange in this field, as well as by the lack of suitable updated bilingual dictionaries. This Dictionary contains some 14.000 English terms together with their German, French, Dutch and Russian equivalents, which are used in the main branches of civil engineering and relate to the basic principles of structural design and calculations (the elasticity theory, strength of materials, soil mechanics and other allied technical disciplines); to buildings and installations, structures and their parts, building materials and prefabrications, civil engineering technology and practice, building and road construction machines, construction site equipment, housing equipment and fittings (including modern systems of air conditioning); as well as to hydrotechnical and irrigation constructions. The Dictionary also includes a limited number of basic technical expressions and terms relating to allied disciplines such as architecture and town planning, as well as airfield, railway and underground construction. The Dictionary does not list trade names of building materials, parts and machines or the names of chemical compounds. Nor does it give adverbial, adjective or verbal terms.

Special Subject Interlingual Lexicography James MacLean,1989

Glossary, English-French Canada. Department of Industry, Trade and Commerce. Construction Division,1972

Corporate Space and Architecture Elisabeth Courdurier,Paul Smith (historien).),1992

Multilingual Dictionary of Architecture and Building

Terms Chris Grech, 2003 With an increasingly mobile workforce internationally, the need for good communication becomes greater. This new dictionary lists over 2000 key terms used in building design and construction in English, French, German, Spanish and Italian. The emphasis is on terms used most regularly in the design office and day-to-day running of a building job on site.
