The Last Lecture Randy Pausch, 2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn't about dying. It was about the importance of

overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

Binging with Babish Andrew Rea, 2019 Recipes recreated from beloved movies and TV shows by the host of one of the most popular food programs on the internet

Watching YouTube Michael Strangelove, 2010-04-30 An anonymous musician plays Pachelbel's Canon on the electric guitar in a clip that has been viewed over sixty million times. The Dramatic Gopher is viewed over sixteen million times, as is a severely inebriated David Hasselhoff attempting to eat a hamburger. Over 800 variations, parodies, and parodies-of-parodies are uploaded of Beyonce Knowles' Single Ladies dance. Tay Zonday sings Chocolate Rain in a video viewed almost forty million times and scores himself a record deal. Obama Girl enters the political arena with contributions such as I Got a Crush on Obama and gets coverage in mainstream news networks. In Watching YouTube, Michael Strangelove provides a broad overview of the world of amateur online videos and the people who make them. Dr. Strangelove, the Governor General Literary Award-nominated author that Wired Magazine called a 'guru of Internet advertising,' describes how

online digital video is both similar to and different from traditional home-movie-making and argues that we are moving into a post-television era characterized by mass participation. Strangelove draws from television, film, cultural, and media studies to help define an entirely new field of research. Online practices of representation, confessional video diaries, gendered uses of amateur video, and debates over elections, religion, and armed conflicts make up the bulk of this groundbreaking study, which is supplemented by an online blog at strangelove.com/blog. An innovative and timely study, *Watching YouTube* raises questions about the future of cultural memory, identity, politics, warfare, and family life when everyday representational practices are altered by four billion cameras in the hands of ordinary people.

The Queer Encyclopedia of Film and Television
Claude Summers, 2012-04-24 From Hollywood films to TV soap operas, from Vegas extravaganzas to Broadway theater to haute couture, this comprehensive encyclopedia contains over 200 entries and 200 photos that document the irrepressible impact of queer creative artists on popular culture. How did Liberace's costumes almost kill him? Which lesbian comedian spent her high school years as "the best white cheerleader in Detroit?" For these answers and more, fans can dip into *The Queer Encyclopedia of Film, Theater, and Popular Culture*. Drawn from the fascinating online encyclopedia of queer arts and culture, www.glbtq.com – which the Advocate dubbed "the Encyclopedia Britanniqueer" – this may be the only reference book in which RuPaul and Jean Cocteau jostle for space. From the porn industry to the Sisters of Perpetual Indulgence, from bodybuilding to Dorothy Arzner, it's a queer, queer world, and *The Queer Encyclopedia* is the indispensable guide:

readable, authoritative, and concise. And perfect to read by candelabra. (The answers to the two questions above: from the dry cleaning fumes, Lily Tomlin.)

Flash Video Creativity Murat Bodur, Hoss Gifford, Diana Johnson, Leonhard Lass, Anthony Onumonu, Kristian Besley, Neal Boyd, Jerome Turner, Ken Jokol, Tim Hawkins, 2013-11-21 by Bruce Herbert and Diana Johnson of Sorenson Media

Creative boundaries are being blown apart as Macromedia Flash MX ushers in a new era of moving images on the Internet. At its launch, analysts predicted that the Flash Player would transform itself from being a lightweight animation tool to the de facto technology for simple web interactivity^{5*} (Randy Souza, Forrester). Since then though, Flash developers combining vector animation and video have proven that it's capable of much, much more than simple web interactivity. We're still just beginning to scratch the surface of the possibilities it opens up to us, but already it looks like Flash MX is becoming the key technology for pushing video creativity on the Web to a new whole level. Understandably, many people look at Flash as just another way to deliver video on the Web, one more program for showing movies on your desktop. Well, it can certainly do that - but there's a whole lot more it can do besides! You can use ActionScript to add custom controls, determine a video playback sequence, or mask your video with a custom shape. You can use layering to create special effects, design custom templates for e-learning applications, and use lightweight video streams along with Flash animation in rich

media e-mail campaigns.

Digital Media Economics Brett Caraway, 2023-11-15

Written for a wide audience, from undergraduate and graduate students to citizens and activists, this book will teach you about how economics has influenced the digital technologies that we use every day. Most media textbooks won't tell you much about economic terms, concepts or principles; this book will explain to you the economic theory and history underpinning everything from advertising to computers, social networking sites and streaming services. With examples ranging from Elon Musk's takeover of Twitter to Amazon and the world of online shopping, Caraway offers a personal perspective about today's media technologies that will enrich your understanding of their technical, cultural, and social significance. Providing a comprehensive introduction to the basics of economics and putting theory into practice, Caraway offers an expansive approach to media economics in action. The book includes: - chapters on early economic thought and political economy - a two-part overview of the foundations of economics - a wide range of examples covering topics such as advertising, user-generated content and smartphones The detail and depth of this book, with its up-to-date case studies and broad approach, makes it the essential introduction to economics for media students.

Media in the Digital Age John Vernon Pavlik, 2008

Digital technologies have fundamentally altered the nature and function of media in our society. This book critically examines digital innovations

and their positive and negative implications.

The Digitization of Cinematic Visual Effects

Rama Venkatasawmy, 2013 While many books have addressed visual effects in Hollywood cinema, *The Digitization of Cinematic Visual Effects: Hollywood's Coming of Age*, by Rama Venkatasawmy, fills an important gap in cinematic analysis and film history by providing a periodization and techno-historical account of visual effects in Hollywood cinema.

Adaptation Online Lyndsay Michalik

Gratch, 2017-09-05 *Adaptation Online: Creating Memes, Sweding Movies, and other Digital Performances* explores how traditional notions of the processes and products of creative adaptation are evolving online. Using a performance lens and a shift in terminology from the metaphor of the cultural meme to the framing that adaptation affords, Lyndsay Michalik Gratch considers online adaptations in terms of creative process and human agency, rather than merely as products. This book offers a glossary of strategies for online adaptation that is useful not only for scholars in performance studies, but also for scholars of cinema, communications, and new media studies.
