Communicating Marginalized Masculinities Ronald L. Jackson,Jamie E. Moshin,2013 For years, research concerning masculinities has explored the way that men have dominated, exploited, and dismantled societies, asking how we might make sense of marginalized masculinities in the context of male privilege. This volume asks not only how terms such as men and masculinity are socially defined and culturally instantiated, but also how the media has constructed notions of masculinity that have kept minority masculinities on the margins. Essays explore marginalized masculinities as communicated through film, television, and new media, visiting representations and marginalized identity politics while also discussing the dangers and pitfalls of a media pedagogy that has taught audiences to ignore, sidestep, and stereotype marginalized group realities. While dominant portrayals of masculine versus feminine characters pervade numerous television and film examples, this collection examines heterosexual and queer, military and civilian, as well as Black, Japanese, Indian, White, and Latino masculinities, offering a variance in masculinities and confronting male privilege as represented on screen, appealing to a range of disciplines and a wide scope of readers.

Pop Empires S. Heijin Lee,Monika Mehta,Robert Ji-Song Ku,2019-07-31 At the start of the twenty-first century challenges to the global hegemony of U.S. culture are more apparent than ever. Two of the contenders vying for the hearts, minds, bandwidths, and pocketbooks of the world's consumers of culture (principally, popular culture) are India and South Korea. "Bollywood" and "Hallyu" are increasingly competing with "Hollywood"—either replacing it or filling a void in places where it never held sway. This critical multidisciplinary anthology places the mediascapes of India (the site of Bollywood), South Korea (fountainhead of Hallyu, aka the Korean Wave), and the United States (the site of Hollywood) in comparative dialogue to explore the transnational flows of technology, capital, and labor. It asks what sorts of political and economic shifts have occurred to make India and South Korea important alternative nodes of techno-cultural production, consumption, and contestation. By adopting comparative perspectives and mobile methodologies and linking popular culture to the industries that produce it as well as the industries it supports, Pop Empires connects films, music, television serials, stardom, and fandom to nation-building, diasporic identity formation, and transnational capital and labor. Additionally, via the juxtaposition of Bollywood and Hallyu, as not only synecdoches of national affiliation but also discursive case studies, the contributors examine how popular culture intersects with race, gender, and empire in relation to the global movement of peoples, goods, and ideas.

Marvel Comics into Film Matthew J. McEniry,Robert Moses Peaslee,Robert G. Weiner,2016-04-05 Marvel Studios' approach to its Cinematic Universe--beginning with the release of Iron Man (2008)--has become the template for successful management of blockbuster film properties. Yet films featuring Marvel characters can be traced back to

the 1940s, when the Captain America serial first appeared on the screen. This collection of new essays is the first to explore the historical, textual and cultural context of the larger cinematic Marvel universe, including serials, animated films, television movies, non-U.S. versions of Marvel characters, films that feature characters licensed by Marvel, and the contemporary Cinematic Universe as conceived by Kevin Feige and Marvel Studios. Films analyzed include Transformers (1986), Howard the Duck (1986), Blade (1998), Planet Hulk (2010), Iron Man: Rise of Technovore (2013), Elektra (2005), the Conan the Barbarian franchise (1982-1990), Ultimate Avengers (2006) and Ghost Rider (2007).

Larry Hama Christopher Irving, 2019-05-23 Larry Hama (b. 1949) is the writer and cartoonist who helped develop the 1980s G.I. Joe toy line and created a new generation of fans from the tie-in comic book. Through many interviews, this volume reveals that G.I. Joe is far from his greatest feat as an artist. At different points in his life and career, Hama was mentored by comics legends Bernard Krigstein, Wallace Wood, and Neal Adams. Though their impact left an impression on his work, Hama has created a unique brand of storytelling that crosses various media. For example, he devised the character Bucky O'Hare, a green rabbit in outer space that was made into a comic book, toy line, video game, and television cartoon—with each medium in mind. Hama also discusses his varied career, from working at Neal Adams and Dick Giordano's legendary Continuity to editing a humor magazine at Marvel, developing G.I. Joe, and enjoying a long run as writer of Wolverine. This volume also explores Hama's life outside of comics. He is an activist in the Asian American community, a musician, and an actor in film and stage. He has also appeared in minor roles on the television shows M*A*S*H and Saturday Night Live and on Broadway. Editor and historian Christopher Irving compiles six of his own interviews with Hama, some of which are unpublished, and compiled others that range through Hama's illustrious career. The first academic volume on the artist, this collection gives a snapshot of Hama's unique character-driven and visual approach to comics' storytelling.
