Game Development Essentials: Online Game Development Rick Hall,Jeannie Novak,2008-04-15 With an innovative, business-model approach, Game Development Essentials: Online Game Development provides the essentials needed to achieve long-term success with Massively Multiplayer Online Games (MMOGs). This book takes a significant and valuable departure from traditional game development books by addressing MMOG development as a complex, multi-faceted, service-oriented business, instead of focusing solely on technical, artistic, or design techniques. The resulting multi-dimensional focus allows readers to design their game and organize their development process with the entire business in mind. Coverage includes the key differences between single player games and MMOGs, as well as how the various components of the development process, such as the business model, marketing plan, gaming community and technical constraints, influence one another and determine the success of the MMOG. The Digital Logic of Death Steven Pustay,2021-01-14 This book is open access and available on www.bloomsburycollections.com. It is funded by Knowledge Unlatched. In The Digital Logic of Death, Steven Pustay skillfully makes visible the immensely important but often overlooked role that moving images play in shaping our understanding of mortality. This relationship, he argues, is made all the more urgent by the technologies of the digital age, which have profoundly altered our ability to represent and contemplate death through moving images, resulting in an entirely new cultural logic of death. To draw out this new logic, Pustay presents accessible readings of otherwise dense and difficult philosophical approaches to death – such as those found in existentialism, psychoanalysis, and critical theory – by reading them through the lens of contemporary media. From art-house films like Irréversible and The Fountain to blockbusters like the Matrix trilogy, from television commercials for M&M's to pay-cable dramas like The Sopranos and Breaking Bad, from first-person shooters like Bioshock to indie-games like LIMBO, Pustay shows how moving images have shifted our understanding of death in general and our recognition of our own finiteness in particular.

Wall Street Titan Anna Zaires,Dima Zales ,2019-11-19 A billionaire who wants a perfect wife... At thirty-five, Marcus Carelli has it all: wealth, power, and the kind of looks that leave women breathless. A self-made billionaire, he heads one of the largest hedge funds on Wall Street and can take down major corporations with a single word. The only thing he’s missing? A wife who’d be as big of an achievement as the billions in his bank account. A cat lady who needs a date… Twenty-six-year-old bookstore clerk Emma Walsh has it on good authority that she’s a cat lady. She doesn’t necessarily agree with that assessment, but it’s hard to argue with the facts. Raggedy clothes covered with cat hair? Check. Last professional haircut? Over a year ago. Oh, and three cats in a tiny Brooklyn studio? Yep, she’s got those. And yes, fine, she hasn’t had a date since… well, she can’t recall. But that part is fixable. Isn’t that what the dating sites are for? A case of mistaken identity… One high-end matchmaker, one dating app, one mix-up that changes everything... Opposites may attract, but can this last?
