Past Life Journeys of Gea and Zen: Life in the Jungle Gabrijela Solomon,2008-12-29 Past Life Journeys of Gea and Zen is a true story of two spirits, whose magnetic bond transcended time and space. It is a collection of novellas that guides us through several of their reincarnations. Details about Gea's and Zen's past lives were retrieved through channeling during actual past life sessions that the author (i.e. Gea) and her friend, Marino Frost (i.e. Zen), had with a gifted psychic. The author and Marino discovered that the connection between them was established when Jesus walked on Earth. In the novella Life in the Jungle, Gea and Zen were incarnated on Earth around 950 AD. They were born as Aani and Ercu in the lush rainforest of South America near the Iguazu Falls. While growing up in indigenous opposing warring tribes, Aani became a healer and Ercu a hunter and a tribal leader. In that life, their purpose was to develop self-denial and an unselfish love. They connected in their devotion to each other, but their tribes did everything to break them apart...

GEA Enterprise Architecture in Practice: Managing Coherence for Better Performance Rob Stovers,Jules de Ruijter,Roel Wagter,2021-10-11

Governmental, organisational and technological developments are taking place at an increasingly rapid pace. Structures are becoming more flexible and new service and business models are necessary to maintain or improve the performance of an enterprise. This leads to an increasing need for enterprise governing capacity to allow managers to choose the right direction for an enterprise in the event of major changes, and to maintain and strengthen its coherence. In this book we describe how the General Enterprise Architecting (GEA) governing instrument is used to govern the enterprises' coherence. The central assumption of GEA is the direct relationship between the degree of coherence in an enterprise and the performance of an enterprise, making the governance of enterprise coherence a very interesting idea. Since the development of GEA, many enterprises have gained experience in applying the instrument; GEA has contributed in many different ways to the managing capacity of enterprises and has proven its value in solving complex enterprise issues. This has provided us with a wealth of information about the practical application of enterprise architecture according to the GEA philosophy. This book is intended for architects and other professionals who want to use 'enterprise coherence governance' in their practice. Solving enterprise issues is central to this book. We explain on the basis of a concrete roadmap how 'coherence' is made explicit and how this is used to develop a solution for an enterprise issue. We further elaborate on: - how GEA works in practice - the relationship of GEA with portfolio management and agile working - the design of the enterprise architecture function and the measurement of its maturity - how GEA can be combined with other tools, such as strategic governing tools, enterprise architecture methods and frameworks, and reference architectures This book is designed to enable the reader to 'do' GEA and to fit it into their daily architectural practice, with the aim of improving the performance of enterprises.

BAM Global Movement Gea Gort,2018-04-18 Business as Mission (BAM) is a growing global movement. Christians active in the arena of business, charity and ministry are on a journey to integrate business with holistic mission. But what exactly is BAM? In this book, Gea Gort and Mats Tunehag explain the BAM concept through theory and theology, with stories to show what it looks like in real life. The authors explain that Business as Mission is an expression of a much broader movement. Ideas regarding mission, church, and charity are shifting, and growing number of Christians are aiming for a missional way of living out the whole incarnated gospel in their daily lives where they work and live. The inspiring stories of thirty practitioners active on all continents provide insight into how the gospel can be shared in innovative and practical ways in challenging settings: in developing nations, secularized Western cities, or even closed countries. This book will not only capture your mind and heart as you learn about Business as Mission in theory and praxis, but it will also give you a broad overview of this remarkable movement. This book provides insight into this global movement and is of interest for a broad range of people: pioneers, early adapters and leaders within church, missionaries, and business leaders, as well as for Bible schools and universities. Dr. Gea Gort, a trained journalist, studied Transformational Leadership in the Global Urban Context at Bakke Graduate University in Seattle, where she serves as adjunct faculty and regional board member. She is passionate about innovative mission in an urban and global context. In her hometown of Rotterdam (Holland), she initiated City Prayer, directed a Christian leaders network, and advised the government on multicultural affairs. Gea has authored several books in Dutch and in English. Mats Tunehag is a speaker, writer, and consultant from Sweden. For over twenty years, he has focused on developing the Business as Mission (BAM) concept as well as national, regional, and global strategic alliances of people and BAM initiatives. A global lecturer, he is also a BAM senior leader in the Lausanne Movement and the World Evangelical Alliance.
