Online Learning for STEM Subjects Mark

Childs, Robby Soetanto, 2017-09-19 The Global

Collaboration initiatives related in this book are examples of how educators have experimented with different mechanisms to provide science, technology, engineering and mathematics (STEM) education programmes through information and communication technologies. In many cases, these programmes have looked at the allied personal communication and collaboration skills that students of these subjects also need: the so-called STEM+ curriculum. In particular, these approaches to STEM+ provision show how the internationalization of education can be made more effective and accessible through the exploitation of collaborative technologies and non-traditional pedagogies. The approaches address the following themes: technologies for distance learning and collaboration pedagogies for online learning remote communication and collaboration An international perspective is made possible within the book through the inclusion of authors from North America, Europe and Asia. These authors present case studies from technology-enhanced learning projects over the past six years.

The Marketing Agency Blueprint Paul

Roetzer, 2011-11-29 Build a disruptive marketing agency for the modern age The marketing services industry is on the cusp of a truly transformational period. The old guard, rooted in tradition and resistant to change, will fall and new leaders will emerge. Hybrid marketing agencies that

are more nimble, tech savvy, and collaborative will redefine the industry. Digital services will be engrained into the DNA and blended with traditional methods for integrated campaigns. The depth, versatility, and drive of their talent will be the cornerstones of organizations that pursue a higher purpose. The Marketing Agency Blueprint is a practical and candid guide that presents ten rules for building such a hybrid agency. The new marketing agency model will create and nurture diverse recurring revenue streams through a mix of services, consulting, training, education, publishing, and software sales. It will use efficiency and productivity, not billable hours, as the essential drivers of profitability. Its value and success will be measured by outcomes, not outputs. Its strength and stability will depend on a willingness to be in a perpetual state of change, and an ability to execute and adapt faster than competitors. The Marketing Agency Blueprint demonstrates how to: Generate more qualified leads, win clients with set pricing and service packages, and secure more long-term retainers Develop highly efficient management systems and more effective account teams Deliver greater results and value to clients This is the future of the marketing services industry. A future defined and led by underdogs and innovators. You have the opportunity to be at the forefront of the transformation.

The Complete Idiot's Guide to Social Media Marketing, 2nd Edition Jennifer Abernethy,2012-04-03 The Complete Idiot's Guide® to Social Media Marketing, Second Edition, covers cutting-edge techniques for small and large businesses alike. Ask the Author Q: How has social media marketing changed business and personal lives? A: The playing field has been leveled for business. No longer do

you need a 6 or 7 figure budget to reach people around the country or globe for that matter. Personally, many lives have been affected. Many people more connected, businesses have grown because of the connections, TV and singing careers have been launched, money has been raised for charity, books have been marketed and purchased, and so on. Q: What has been the most challenging part of utilizing social media? A: I think the learning curve. With all of these sites . . . they come with no directions and no LIVE phone number. Q: What has worked the best and worst thus far? A: Facebook because of it's broad reach really has worked for me, but many would argue that YouTube works the best; particularly since it is the search engine of choice with the 11-34 age group. Q: How can a person searching for a job use social media marketing? A: So many ways. . . . They need to be on LinkedIn with a professional looking profile, photo, and contact information. They could also utilize video to begin sharing their expertise. Candidates need to stand out in a crowd of millions so if they say . . . sent in a video introducing themselves and a video follow up email . . . that would wow them! Q: What is the newest thing since Twitter? A: I believe companies and individuals are starting to utilize audio for creating their own iTunes channel, and also location-based social media like FourSquare. I personally, am not sold on location based services as of yet from a safety point of view, but for retailers it can be a good thing. I believe video is going to explode in popularity in 2011 for the 35+ market as well. They just need to get comfortable being on camera!
