Gujarat Beyond Gandhi Nalin Mehta, Mona G. Mehta, 2013-09-13 The birthplace of Mahatma Gandhi and the land that produced Mohammad Ali Jinnah, the founder of Pakistan, Gujarat has been at the centre-stage of South Asia's political iconography for more than a century. As Gujarat, created as a separate state in 1960, celebrates its golden jubilee this collection of essays critically explores the many paradoxes and complexities of modernity and politics in the state. The contributors provide much-needed insights into the dominant impulses of identity formation, cultural change, political mobilisation, religious movements and modes of communication that define modern Gujarat. This book touches upon a fascinating range of topics – the identity debates at the heart of the idea of modern Gujarat; the trajectory of Gujarati politics from the 1950s to the present day; bootlegging, the practice of corruption and public power; vegetarianism and violence; urban planning and the enabling infrastructure of antagonism; global diasporas and provincial politics – providing new insights into understanding the enigma of Gujarat. Going well beyond the boundaries of Gujarat and engaging with larger questions about democracy and diversity in India, this book will appeal to those interested in South Asian Studies, politics, sociology, history as well as the general reader. This book was published as a special issue of South Asian History and Culture.

Pogrom in Gujarat Parvis Ghassem-Fachandi, 2012-04-08 In 2002, after an altercation between Muslim vendors and Hindu travelers at a railway station in the Indian state of Gujarat, fifty-nine Hindu pilgrims were burned to death. The ruling nationalist Bharatiya Janata Party blamed Gujarat's entire Muslim minority for the tragedy and incited fellow Hindus to exact revenge. The resulting violence left more than one thousand people dead--most of them Muslims--and tens of thousands more displaced from their homes. Parvis Ghassem-Fachandi witnessed the bloodshed up close. In *Pogrom in Gujarat*, he provides a riveting ethnographic account of collective violence in which the doctrine of ahimsa--or nonviolence--and the closely associated practices of vegetarianism became implicated by legitimating what they formally disavow. Ghassem-Fachandi looks at how newspapers, movies, and other media helped to fuel the pogrom. He shows how the vegetarian sensibilities of Hindus and the language of sacrifice were manipulated to provoke disgust against Muslims and mobilize the aspiring middle classes across caste and class differences in the name of Hindu nationalism. Drawing on his intimate knowledge of Gujarat's culture and politics and the close ties he shared with some of the pogrom's sympathizers, Ghassem-Fachandi offers a strikingly original interpretation of the different ways in which Hindu proponents of ahimsa became complicit in the very violence they claimed to renounce.

Indian Silver Screen Dr. Paramveer Singh, 2021-08-05 Indian Silver Screen Television in India has been a medium of entertainment as well as social and economic awareness. It was started under government control as a medium of social awareness, but now this medium has become an industry. There was a time when Doordarshan was the only channel on television in India, but today, hundreds of channels broadcast programs day and night. In India today, there are many channels based on sports, news, film, documentary, and music. There was a time when television programs could be viewed only through television sets, but today, through devices such as computers, laptops, and mobiles, viewers can watch their favorite programs at their convenient location, and time. The main objective of this book written on Indian television is to make students aware of the history and status of Indian television. The book begins with the story of the introduction of television in various countries. It describes the development of television in Britain, America, Australia, China, Africa, and other countries of the continent of Asia. After this, the early experiments, projects, and history and current status of television in India are told. Many of the chapters in the book are about the major television business groups in India that have deep penetration into the Indian television industry. The book also introduces programs that have become famous in India, which have proved to be milestones in Indian television history and reached heights of popularity. Apart from this, the book describes the laws of India which have been implemented to control the television industry. A chapter in the book is written about various television broadcasting techniques practiced in the country. Apart from this, there is a chapter about Direct to Home, which tells the story of the development of DTH in India. Television rating points determine the popularity of television channels and programs. The book introduces various agencies and institutions that determine TRP in India. In addition to this, the history of television journalism in India has also been discussed. A chapter about television journalism in various languages of India such as Hindi, Punjabi, Gujarati, Marathi, Tamil, Telugu, Kannada, Malayalam, Bengali, and Assamese is described in detail. The last chapter of the book discusses various international television channels that are broadcasting in India.

Gujarat, the Making of a Tragedy Siddharth Varadarajan, 2002 Is Gujarat a turning point for India? The events at Godhra and the ensuing communal carnage in Gujarat, like the Babri Masjid

demolition and the 1984 massacres, constitute an ugly chapter of our contemporary history. For the sheer brutality, persistence and widespread nature of the violence, especially against women and children, the complicity of the State, the ghettoization of communities, and the indifference of civil society, Gujarat has surpassed anything we have experienced in recent times. That this happened in one of India's most 'well off' and 'progressive' states, the home of the Mahatma, is all the more alarming. This book is intended to be a permanent public archive of the tragedy that is Gujarat. Drawing upon eyewitness reports from the English, Hindi and regional media, citizens' and official fact-finding commissions - and articles by leading public figures and intellectuals - it provides a chilling account of how and why the state was allowed to burn. With an overview by the editor, the reader covers the circumstances leading up to Godhra and the violence in Ahmedabad, Baroda and rural Gujarat. Separate sections deal with the role of the police, bureaucracy, Sangh Parivar, media and the tribals, the economic and international implications of the violence, the problems of relief and rehabilitation of the victims, and, above all, their quest for justice. The picture that emerges is deeply disturbing, for Gujarat has exposed the ease with which the rights of citizens, and especially minorities, can be violated with official sanction. The lessons of the violence ought to be heeded and acted upon by the public. For, in the absence of this, can another Gujarat be prevented from happening elsewhere?

Inside the Transforming Urban Asia Darshini Mahadevia, 2008 Contributed articles; chiefly with reference to India and China.

The Gujarat Carnage Asghar Ali Engineer, 2003 This book is a compilation of articles, editorial, investigative reports, surveys, memoranda and other significant material on the Gujarat carnage. The final report of the Human Rights Commission (that took a direct interest for the first time, of its own accord, in communal violence) is included in it. Useful material and information will be found in it by future researchers, academics and lay readers. As the specific event of the grim year are blurred and glossed over by other issues and by time, it is important to have such a compilation that preserves the lessons learnt in one of the most horrifying and ominous periods in India's modern history.

Whose News? Ammu Joseph, Kalpana Sharma, 2006-08-04 *Whose News?: The Media and Women's Issues* (1994) quickly became an international classic which was widely used. The decade that has passed since its publication has witnessed dramatic developments in the media environment across the world. As a consequence, the coverage of gender issues in the media today has to be viewed and evaluated against the background of globalisation in general and media globalisation in particular.

Fall of Ice from the Sky BIMAL K SRIVASTAVA, 2021-06-06 Reports of the incidents of fall of large ice blocks from the sky have been appearing in media since times. These ice chunks, also known as "Blue ice" or "Aircraft Ice" happen to be the frozen mixture of human bio-waste and liquid disinfectant, that emerge in the form of the leakage from the defective toilet lines from a commercial airliner or any other transport category aircraft carrying passengers. The book gives an account of more than 600 such cases of ice fall worldwide extracted from various languages. Many people believe that the colour of ice blocks fallen from the aircraft toilets must be Blue or Green, but as a matter of fact, it could be of any colour, blue, green, yellowish, rusty, muddy, ash, white, dirty, or colourless. These ice blocks are potential hazards that are likely to endanger the lives and properties on the ground. As, the incidents are generally viewed from the perspective of weather and therefore, no preventive measures are contemplated against them. However, a majority of them are actually found to be aviation-related, and thus there appears to be some possibility of minimising them provided appropriate precautionary measures are taken and implemented in the matter by the airlines, regulatory authorities for aviation and other concerned. This is the first occasion that a book on the topic of ice-fall from the sky has been written by an aviation expert, who has done it after conducting high-quality research work considering various aeronautical aspects as well as the facts & figures related to aviation - Satendra Singh, Former DGCA, India
