The Halliburton Agenda Dan Briody,2004-05-17 The author of the bestseller *The Iron Triangle* untangles a web of political back scratching in one of the world's most powerful companies Halliburton—a Texas oil-field company Dick Cheney ran before he became Vice President—has courted controversy for the better part of the twentieth century, but only recently has it received intense media scrutiny. In *The Halliburton Agenda*, Halliburton and its subsidiaries form the foundation of a fascinating story of influence peddling and behind-the-scenes political maneuvering that has only increased in momentum over the last decade—culminating in a firestorm of problems arising as soon as Cheney took office. This intriguing book shows readers where Halliburton has been doing business and with whom—topping the list so far are Iran, Iraq, and Libya. It also reveals how this juggernaut of a corporation has engaged in a cycle of profits that begins by selling products and services to potential terrorist states, contracting with the federal government during times of war against those states, then gaining valuable rebuilding contracts to help repair those states. It will also show how a Halliburton subsidiary, Kellogg Brown & Root, has become an indispensable part of the U.S. military, so much so that the two are indistinguishable at times. Halliburton is one of the first American companies to recognize the importance of aligning itself with powerful politicians, heavily contributing to campaigns, then cashing in on lucrative government contracts. Engaging and informative, *The Halliburton Agenda* carefully explores the arc of the company's success, its use of political affiliation, and the scope of its international business.

The Forgotten Adventures of Richard Halliburton R. Scott Williams,2011-04-01 A biography of the charismatic world traveler whose daredevil exploits thrilled millions in the early twentieth century. Born in 1900, Richard Halliburton ran away from his hometown of Memphis, Tennessee, at the age of nineteen to lead an extraordinary and dramatic life of adventure. Against the backdrop of the Roaring Twenties and the Great Depression, Halliburton's exploits around the globe made him an internationally known celebrity and the most famous travel writer of his time. From climbing Mount Olympus in Greece to swimming the Panama Canal and flying all the way to Timbuktu, Halliburton experienced and wrote about adventures that others never even believed possible. His youthful spirit and bohemian lifestyle won the hearts of millions, and this absorbing biography tells his story. "He was Marco Polo and Indiana Jones wrapped up in one, with P.T. Barnum's flippancy and James Bond's bravado, capped off by F. Scott Fitzgerald's aristocratic good looks and manners." —*Smithsonian* "A concise new biography [that] covers the life of a man of marvels." —*Memphis Magazine*

The Flying Carpet Richard Halliburton,2024-01-03T00:00:00Z *The Flying Carpet* is the airplane in which the author and his pilot-companion, Moye Stephens, Jr., follow a royal road to romance in the air.

Halliburton's Army Pratap Chatterjee,2010-03-23 *Halliburton's Army* is the first book to show, in shocking detail, how Halliburton really does business, in Iraq, and around the world. From its vital role as the logistical backbone of the U.S. occupation in Iraq—without Halliburton there could be no war or occupation—to its role in covering up gang-rape amongst its personnel in Baghdad, *Halliburton's Army* is a devastating bestiary of corporate malfeasance and political cronyism. Pratap Chatterjee—one of the world's leading authorities on corporate crime, fraud, and corruption—shows how Halliburton won and then lost its contracts in Iraq, what Dick Cheney and Donald Rumsfeld did for it, and who the

company paid off in the U.S. Congress. He brings us inside the Pentagon meetings, where Cheney and Rumsfeld made the decision to send Halliburton to Iraq—as well as many other hot-spots, including Somalia, Yugoslavia, Uzbekistan, Afghanistan, Guantánamo Bay, and, most recently, New Orleans. He travels to Dubai, where Halliburton has recently moved its headquarters, and exposes the company's freewheeling ways: executives leading the high life, bribes, graft, skimming, offshore subsidiaries, and the whole arsenal of fraud. Finally, Chatterjee reveals the human costs of the privatization of American military affairs, which is sustained almost entirely by low-paid unskilled Third World workers who work in incredibly dangerous conditions without any labor protection. Halliburton's Army is a hair-raising exposé of one of the world's most lethal corporations, essential reading for anyone concerned about the nexus of private companies, government, and war.

The Royal Road to Romance Richard Halliburton, 1925 When Richard Halliburton graduated from college, he chose adventure over a career, traveling the world with almost no money. *The Royal Road to Romance* chronicles what happened as a result, from a breakthrough Matterhorn ascent to being jailed for taking forbidden pictures on Gibraltar. Halliburton's literary career developed out of his meticulous logging of events that occurred on his own adventures. This book, his first, an account of his travels in 1921-23, was a best-seller for three years and was translated into 15 languages.

New Worlds to Conquer Richard Halliburton, 2019-01-13 By the early 1930s America had one literary treasure that risked his life to please its readers. Richard Halliburton had already become a best-selling travel author and could have retired comfortably on the immense wealth gained from the sale of his first two books. Yet some men are born to dare, and Halliburton was one these. *NEW WORLDS TO CONQUER* was Halliburton's third book and contains a knapsack full of that adventurer's gold—dreams brought to reality by the alchemy of his courage and daring. The book details how Halliburton set off for Latin America in search of adventure, and find it he did. He dived to the bottom of the Mayan Well of Death, from which hundreds of skeletons had been dredged, then swam fifty miles down the length of the Panama Canal. Not content, he climbed to the crest of Mexico's lofty Mount Popocatepetl, twice, and roamed over the infamous Devil's Island. Yet his most amazing adventure occurred when he had himself marooned on the same island which had once held Robinson Crusoe captive. "Somewhere a lizard stirred the leaves...Furtively I looked about me, realizing that in the darkness the boa-constrictors would be abroad creeping forth from the ancient tombs and slinking down the leafy avenues," Halliburton wrote. This is Halliburton at is best—fatalistic about his own safety, poetic about his chances of survival, and determined to bring home a hair-raising tale of adventure from the Latin lands of legend.

Richard Halliburton's Second Book of Marvels - The Orient Richard Halliburton, 2018-12-02 Boys and girls all over the world know the name of Richard Halliburton. They have heard grown-ups talk about *The Royal Road to Romance*, *The Glorious Adventure*, *New Worlds to Conquer*, *The Flying Carpet* and *Seven League Boots*. These books have broken records in the field of travel and adventure. They are bestsellers year in and year out. Now Mr. Halliburton has written a book just for his younger friends (but just to try and keep father and mother or uncle and aunt away from it!) and in it he has kept a promise he made to himself when he studied geography in school. In those days his eager wish was to travel, to see the places he had read about. He swore that when he became a man he would see that his sons not only studied their geography but lived it too. Now he has been to the four corners of the world and beheld the wonders of nature and man. But he is a bachelor, and has no sons of his own. So he has adopted all boys and girls and here he takes them with him on a personally conducted tour to live geography with him—the most thrilled geography anyone could imagine. Following on from his *Book of Marvels: The Occident*, this present volume provides another exciting tour for school

students—introducing the people, religions, architecture, customs, and scenery from Greece to Mt. Fuji in Japan, multi-cultural regions then called “The Orient,” complete with maps of his travel routes. No dramatic incident, no fascinating legend relating to his marvels has been omitted. Richard Halliburton has spared himself no trouble, no expense to make this book complete and beautiful. The illustrations are many and inspiring. Out of his first-hand knowledge of the notable scenes and works of our world, he has chosen those that have most appealed to his own imagination, and with his story-telling gift, simple, direct, enthusiastic, he makes them live to the imagination of all boys and girls. For he has the heart of a boy and he speaks to the heart of youth.

Memoir of Sir B. Halliburton [including some of his writings]. George William HILL (Rector of St. Paul's, Halifax, N.S.),1864

Horizon Chasers Gerry Max,2007-02-21 Richard Halliburton was the quintessential world traveler of the early 20th century. In 1930, his celebrity equaled that of Charles Lindbergh and Amelia Earhart. Halliburton called himself a horizon chaser and recommended that one should see the world before committing to a routine. Not only did he live up to his ideal, but he was eager to write about his adventures. A prolific partnership with gifted editor and ghost writer Paul Mooney produced excellent work, and theirs became a close personal relationship. Sadly, Halliburton and Mooney disappeared at sea on March 24, 1939, along with the entire crew of Halliburton's Chinese junk Sea Dragon, as they attempted to cross the Pacific from Hong Kong to the San Francisco World's Fair. This biography records the life and adventures of Halliburton and Mooney, focusing--as no other Halliburton biography has--on the productive literary collaboration between the two. Drawing on the recollections of people who knew them both, the work discusses their backgrounds, the early years of their acquaintance, and their possible romantic relationship. Finally, their fateful journey to Hong Kong and the ill-advised voyage of the Sea Dragon is described in detail. A good deal of first-hand evidence is provided by William Alexander, Paul Mooney's best friend and designer of Halliburton's Laguna Beach house. Appendices contain seven poems by Mooney and facsimile letters, including one of praise written by Richard Halliburton to William Alexander. Never-before-published photographs are also included.

The Glorious Adventure Richard Halliburton,2010

Mrs. Halliburton's Troubles Mrs. Henry Wood,1895

American Daredevil Cathryn Prince,2016-06-01 With a polished walking stick and neatly pressed trousers, Richard Halliburton served as an intrepid globetrotting guide for millions of Americans in the 1920s and '30s. Readers waited with bated breath for each new article and book he wrote. During his career, Halliburton climbed the Matterhorn, nearly fell out of his plane while shooting the first aerial photographs of Mt. Everest, and became the first person to swim the Panama Canal. With his matinee idol looks, the Tennessee native was a media darling in an era of optimism and increased social openness. But as the Great Depression and looming war pushed America toward social conservatism, Halliburton more actively worked to hide his homosexuality, burnishing his image as a masculine trailblazer. As chronicled in *American Daredevil*, Halliburton harnessed the media of his day to gain and maintain a widespread following long before our age of the 24-hour news cycle, and thus became the first celebrity adventure journalist. And during the darkest hours of the Great Depression, Halliburton did something remarkable: he inspired generations of authors, journalists, and everyday people who dreamt of fame and glory to explore the world.

Introduction to Population Genetics Richard Halliburton,2004 Making the theory of population genetics relevant to readers, this book explains the related mathematics with a logical organization. It presents the quantitative aspects of population genetics, and employs examples of human genetics, medical evolution, human evolution, and endangered species. For an introduction to, and understanding of, population genetics.

Leaving Aberdeen: Memoir of a Southern Girl Estell Halliburton,2021-12 Rural Mississippi in the 1950s was a world filled with racism where Black sharecropping families struggled just to break even. Yet the love of her close-knit family gave Estell Sims the foundation she needed to excel despite overt racism and being treated like a second-class citizen. When Estell's oldest brother lost his life fighting in Korea, his small life-insurance

policy payout allowed the Sims family to buy their own house and move to nearby Aberdeen, but Estell had bigger dreams of going to college and someday moving to a big city like Chicago. After completing her freshman year at Tuskegee University, Estell boarded a Trailways bus and headed to New York City for a summer job. She had no idea how much her life would change the day her cousin met her at the Port Authority bus station and took the nineteen-year-old back to meet her friends, including handsome and charming US Army soldier Joseph A. Halliburton. Estell was amazed by the opportunities available in the city to people who looked like her, something she'd never experienced in the segregated South. Her worldview grew as she attended cultural events, learned to dress professionally, and embraced her heritage as a Black woman. Yet more compelling than anything else was Joseph, and after a whirlwind romance, the two were married just ten days before his deployment to Vietnam. Leaving Aberdeen is the story of a young Southern girl's awakening during a turbulent time of racial reckoning, from reading torn textbooks in a one-room schoolhouse to attending a premier HBCU, from professional modeling to motherhood, and from accepting her place to supporting her husband's membership as a Black Panther. Through it all, Estell's love-for and from her parents, siblings, relatives, husband, children, and friends-is a beacon of the hope that carried her through.
