The Deep Nick Cutter,2015-07-28 A strange plague called the 'Gets is decimating humanity on a global scale. It causes people to forget-small things at first, like where they left their keys, then the not-so-small things like how to drive or the letters of the alphabet. Then their bodies forget how to function involuntarily. There is no cure. But far below the surface of the Pacific Ocean, a universal healer hailed as 'ambrosia' has been discovered. In order to study this phenomenon, a special research lab has been built eight miles under the sea's surface. When the station goes incommunicado, a brave few descend through the lightless fathoms in hopes of unraveling the mysteries lurking at those crushing depths...and perhaps to encounter an evil blacker than anything one could possibly imagine--Page [4] of cover.

Intersections of Peace and Language Studies Erin A. Mikulec,Sai Bhatawadekar,Cuhullan Tsuyoshi McGivern,Paul Chamness Iida,2022-01-01 Readings in Language Studies, Volume 7: Intersections of Peace and Language Studies features

international contributions that represent state-of-the-field reviews, multi-disciplinary perspectives, theory-driven syntheses of current scholarship, reports of new empirical research, reflections on pedagogical practices, and critical discussions of major topics centered on the intersection of language studies and peace. Consistent with the mission of ISLS, the collection of 13 chapters in this volume seeks to “bridge these arbitrary disciplinary territories and provide a forum for both theoretical and empirical research, from existing and emergent research methodologies, for exploring the relationships among language, power, discourses, and social practices.” Language and peace are in themselves incredibly complex concepts. They are simultaneously interpersonal in their function and effect as well as intimately personal in their experience. From everyday communication to the pragmatics of world diplomacy, from embracing a foreign culture to embarking upon a journey of self-awareness, language and peace are inseparably intertwined. To reveal their myriad interconnections, in local and global contexts, is a limitless task; nevertheless, we attempt to bring you a few glimpses from far corners of the world. It is also a linguistic and postcolonial mission of this society and the book series to publish the voices of non-native speakers of English. Decolonizing the academic enterprise is part of our commitment to diversity.

He's in the beautiful Maine countryside, fishing and spending time with his beloved Alexandria Shaw, when he meets Charlotte Gillespie on the side of the road. A beautiful middle-aged black woman, she's walking into town with her dog in her arms. The puppy is near dead, having been poisoned—probably by the same person who spray-painted the swastika on Charlotte's property. After giving her a lift into town, Brady tries to find a way to help, but before Charlotte can explain her problems, she disappears. In unfamiliar territory, with a vanished client and rumors swirling around him, Brady tries to come to grips with the shadowy presence that has rotted this pleasant little town from the inside out. There are dangerous men in these woods—and anyone who would poison a puppy won't hesitate to kill a man.
