Ambush Marketing & the Mega-Event Monopoly Andre M. Louw, 2012-06-06 This book undertakes a critical examination of commercial rights to sports mega-events (focusing on sponsorship), the exclusivity of such rights and the legal implications of the modern mega-event sponsorship model. It examines ambush marketing of events and the law's treatment of ambushing (specifically in the form of sui generis event legislation) in a review of 10 major jurisdictions selected on the basis of the importance of the events they are to host in the near future or have hosted recently, and the relevant domestic legislation. It critically examines the legitimacy of such commercial rights protection by means of the use of laws in the context of accepted principles of intellectual property law, competition law and human rights law. Specifically, it questions the legitimacy of the creation of statutory 'association rights' to mega-events, and considers potential future developments in respect of the law's treatment of mega-event commercialisation. Valuable for practitioners and academics (in the fields of sportslaw/sponsorship/marketing/intellectual property law); sports administrators (sports governing bodies); corporate sponsors of sports and other events; potential mega-event host governments and law-makers; civil rights organisations.

Sports and The Global South S. Janaka Biyanwila, 2018-03-05 This book reimagines the pleasures of sports and provides a critical perspective from the Global South. Analysing the spread of sports markets in Sri Lanka along with a range of struggles, the book highlights how the celebration of 'sportive nationalism,' promoting sports markets in the Global South reinforces patriarchal ethno-nationalist authoritarian sports cultures. By explaining how the realm of social reproduction involving households and communities is integral for play and sports, the book challenges the market-driven 'sports and development' agenda while arguing for a 'sports commons.' By foregrounding issues of justice and care, the book highlights how struggles for recognition, redistribution and representation are central to reimagining sports within an alternative notion of work, play and resistance.

IPL-2023 Mount Everest of Crime and Corruption Atul Kumar, 2023-11-03 The extravaganza of IPL 2023 spanning 60 days and 74 cricket matches took place in early 2023. That has been an extraordinary crime, celebrated the most by the victims!! A tale of monumental corruption, all the leaders choosing to be blind to it! While the world was being titillated through IPL, a daily fraud worth tens of billions of dollars was taking place. An amount sufficient enough to feed and sustain the 7 billion plus human beings all over the globe. thecricketmafia.com readily refers. Read to know all about the mind-boggling fraud controlled by ICC and BCCI, protected by all the authorities and the judiciary, and marketed by none other than the Media. Everyone must know the deep meanings of it all, of such a crime continuing unquestioned. A book that is meant to and does dwarf all the human endeavours, except probably some of the scientific accomplishments. The world and India will ignore it at their own peril.

Management of the Cricketing Ecosystem Subhasis Ray, 2022-11-04 This book is a culmination of sustained research work on the evaluation of cricket and its management to imbibe a balance between its various formats by using data and analytics. The book has identified three primary stakeholders-administrators, players and spectators-each having their own ambitions. In order for convergence of these ambitions, it has prescribed the networked governance in place of hierarchic governance for the International Cricket Council (ICC), the cricket's apex body.

This book aims at creating a balance between formats that each country should play. There is as much dearth of academic research on this topic, as there is abundance of individual viewpoints from professionals related to the game. Hence at the outset, the book has created a action points and has underlined the lack of convergence with present way of governance. This book has created a meta-metric framework for formative assessment of influence across cricket formats. In order to assess the influence of T20 on test matches and on India's performance, a comparison between pre-IPL period (1998-2007) and post-IPL period (2008-2017) by using this framework has been done.

Water, Knowledge and the Environment in Asia Ravi Baghel, Lea Stepan, Joseph K.W. Hill, 2017-03-31 The dramatic transformation of our planet by human actions has been heralded as the coming of the new epoch of the Anthropocene. Human relations with water raise some of the most urgent questions in this regard. The starting point of this book is that these changes should not be seen as the result of monolithic actions of an undifferentiated humanity, but as emerging from diverse ways of relating to water in a variety of settings and knowledge systems. With its large population and rapid demographic and socioeconomic change, Asia provides an ideal context for examining how varied forms of knowledge pertaining to water encounter and intermingle with one another. While it is difficult to carry out comprehensive research on water knowledge in Asia due to its

linguistic, political and cultural fragmentation, the topic nevertheless has relevance across boundaries. By using a carefully chosen selection of case studies in a variety of locations and across diverse disciplines, the book demonstrates commonalities and differences in everyday water practices around Asia while challenging both romantic presumptions and Eurocentrism. Examples presented include class differences in water use in the megacity of Delhi, India; the impact of radiation on water practices in Fukushima, Japan; the role of the King in hydraulic practices in Thailand, and ritual irrigation in Bali, Indonesia.

IPL: An inside story. Cricket & Commerce Alam Srinivas, TR Vivek, 2012-09-24 Much like its commissioner Mr Lalit Modi, IPL from the very beginning has always been mired in controversies of all imaginable kinds. From Vijay Mallyas sacking of the team coach Charu Sharma for the teams poor performance in season one to the grand auction of international players for season two in Fort Aguda Beach Resort in Goa, Modi has been able to keep the interest alive by successfully marrying money with sports. This is a new kind of cricket, where players are auctioned and teams and players are owned by franchise owners. But this is also the cricket where players from U-19 get a chance to play with Sachin Tendulkar or Shane Warne. IPL: An Inside Story takes a look at almost all the aspects of IPL from who actually first thought of such a tournament to the process of choosing the franchise owners, and from the socio-economic impact of the IPL on Indian society to the politics of shifting the venue of season two to South Africa.
