Unlock Windows Speech Recognition Larry Carlson,

Diverse Voices in Chinese Translation and Interpreting Riccardo Moratto, Martin Woesler, 2021-02-02 This book presents a thoughtful and thorough account of diverse studies on Chinese translation and interpreting (TI). It introduces readers to a plurality of scholarly voices focusing on different aspects of Chinese TI from an interdisciplinary and international perspective. The book brings together eighteen essays by scholars at different stages of their careers with different relationships to translation and interpreting studies. Readers will approach Chinese TI studies from different standpoints, namely socio-historical, literary, policy-related, interpreting, and contemporary translation practice. Given its focus, the book benefits researchers and students who are interested in a global scholarly approach to Chinese TI. The book offers a unique window on topical issues in Chinese TI theory and practice. It is hoped that this book encourages a multilateral, dynamic, and international approach in a scholarly discussion where, more often than not, approaches tend to get dichotomized. This book aims at bringing together international leading scholars with the same passion, that is delving into the theoretical and practical aspects of Chinese TI.
