Virtual Presenting Jamie Cohen, Michael Sorrentino, 2023-03-24 Responding to the widespread and continued acceleration of virtual working practices in recent years, *Virtual Presenting* provides a clear guide to producing, presenting, and broadcasting in a remote context. Unlike traditional studio production where a presenter is surrounded by a crew and cameras, the virtual presenter is often isolated or connected to a remote crew. *Virtual Presenting* explains how to make an authentic connection across great spaces, linked only via the Internet. Topics covered include how to build a virtual setup; how to appear on camera; how to appear confident and comfortable; and how to optimize your presentation voice. The authors demonstrate how to tell effective stories across the entire new media landscape of webcasting, webinars, livestreams, and virtual events. Finally, success stories and case studies from teachers, students, and professionals are interwoven to show how these guidelines translate into best practices. *Virtual Presenting* will be a valuable resource for students of media production and remote broadcasting as well as professionals looking to become stronger communicators and visual presenters.

Post-TV Michael Strangelove, 2015-03-27 In the late 2000s, television no longer referred to an object to be watched; it had transformed into content to be streamed, downloaded, and shared. Tens of millions of viewers have “cut the cord,” abandoned cable television, tuned into online services like Netflix, Hulu, and YouTube, and also watch pirated movies and programmes at an unprecedented rate. The idea that the Internet will devastate the television and film industry in the same way that it gutted the music industry no longer seems farfetched. The television industry, however, remains driven by outmoded market-based business models that ignore audience behaviour and preferences. In *Post-TV*, Michael Strangelove explores the viewing habits and values of the post-television

generation, one that finds new ways to exploit technology to find its entertainment for free, rather than for a fee. Challenging the notion that the audience is constrained by regulatory and industrial regimes, Strangelove argues that cord-cutting, digital piracy, increased competition, and new modes of production and distribution are making audiences and content more difficult to control, opening up the possibility of a freer, more democratic, media environment. A follow-up to the award-winning *Watching YouTube*, *Post-TV* is a lively examination of the social and economic implications of a world where people can watch what they want, when they want, wherever they want.

G.A.M.E. Games Autonomy Motivation & Education Menno Deen, 2015-08-03 This thesis reviews and utilizes concepts from cognitive psychology, developmental psychology and game design to bring forth a number of design principles for educational games that may improve students' motivation to learn. Its main contribution is a novel approach to serious game design, namely envisioning play and learning as a restructuring practice. This change of perspective, from a formal game design approach (focused on rules and regulations) towards a more activity-centered approach (focused on process and style), may help designers to leverage the motivational potential of games, in order to make education more engaging to students.

Justin Wilson made his mark as a storyteller and humorist—a goodwill ambassador of the Cajun culture of South Louisiana. He took a culture slur and made it a label of distinction, proudly identifying himself, and his cooking, as “Cajun.” For this, his final retrospective, Wilson reminisces about times gone by, the recipes he created, and the evolution of his cooking style. He features delicious original recipes, including some healthy and convenient options, and his famously funny anecdotes. Complementing such tasty tidbits are photos that capture the essence of this loveable Cajun icon. This classic cookbook is sure to help you “pass a good time.” I GARONTEE!

The City of Mirrors Justin Cronin, 2016-05-24 #1 NEW YORK TIMES BESTSELLER • “A thrilling finale to a trilogy that will stand as one of the great achievements in American fantasy fiction.”—Stephen King You followed *The Passage*. You faced *The Twelve*. Now enter *The City of Mirrors* for the final reckoning. As the bestselling epic races to its breathtaking finale, Justin Cronin’s band of hardened survivors await the second coming of unspeakable darkness. The world we knew is gone. What world will rise in its place? The Twelve have been destroyed and the terrifying hundred-year reign of darkness that descended upon the world has ended. The survivors are stepping outside their walls, determined to build society anew—and daring to dream of a hopeful future. But far from them, in a dead metropolis, he waits: Zero. The First. Father of the Twelve. The anguish that shattered his human life haunts him, and the hatred spawned by his transformation burns bright. His fury will be quenched only when he destroys Amy—humanity’s only hope, the Girl from Nowhere who grew up to rise against him. One last time light and dark will clash, and at last

Amy and her friends will know their fate. Look for the entire Passage trilogy: THE PASSAGE | THE TWELVE | THE CITY OF MIRRORS Praise for The City of Mirrors “Compulsively readable.”—The New York Times Book Review “The City of Mirrors is poetry. Thrilling in every way it has to be, but poetry just the same . . . The writing is sumptuous, the language lovely, even when the action itself is dark and violent.”—The Huffington Post “This really is the big event you’ve been waiting for . . . A true last stand that builds and comes with a bloody, roaring payoff you won’t see coming, then builds again to the big face off you’ve been waiting for.”—NPR “A masterpiece . . . with The City of Mirrors, the third volume in The Passage trilogy, Justin Cronin puts paid to what may well be the finest post-apocalyptic epic in our dystopian-glutted times. A stunning achievement by virtually every measure.”—The National Post “Justin Cronin’s Passage trilogy is remarkable for the unremitting drive of its narrative, for the breathtaking sweep of its imagined future, and for the clear lucidity of its language.”—Stephen King
