Historical Atlas of Indonesia Robert Cribb, 2013-02-01 This pioneering volume traces the history of the region which became Indonesia, from early times to the present day, in over three hundred specially drawn full-colour maps with detailed accompanying text. In doing so, the Atlas brings fresh life to the fascinating and tangled history of this immense archipelago. Beginning with the geographical and ecological forces which have shaped the physical form of the archipelago, the Historical Atlas of Indonesia goes on to chart early human migration and the changing distribution of ethnic groups. It traces the kaleidoscopic pattern of states in early Indonesia and their gradual incorporation into the Netherlands Indies and eventually into the Republic of Indonesia.

Palaeohistoria 47/48 P. A. J. Attema,M. A. Los-Weijns,N. D. Principles of Planology JM de Casseres,2014-09-15 Between the World Wars the talent of Dutch town planner J.M. de Casseres (1902-1990) found expression in two visionary books and a clutch of influential articles. In an in-depth article published in February 1929 in the magazine *De Gids* under the title 'Grondslagen der planologie' (Principles of Planology) he invented a term for the new social-scientific discipline that would eventually enter the Dutch language. De Casseres made it his life's work to elevate the art and craft of town planning to academic status, classifying the international planning body of knowledge and making it accessible and applicable. The results of this internationally supported body of knowledge are reflected not only in de Casseres's publications but also in a string of urban design proposals for towns across the Netherlands. This republication of the *De Gids* article alongside five other influential de Casseres articles in translation

and their original Dutch language form brings this key thinker into reach for a wider research audience.
