**Bill Fitzhugh**

WIXY 1260 Mike Olszewski, Richard Berg, Carlo Wolff, 2011 The story of one of Cleveland's most popular and influential radio stations Before FM radio and the commanding album rock stations of the 1970s, there was WIXY 1260, a tiny Northeast Ohio AM radio station that became an entertainment powerhouse. Three visionaries assembled a legendary staff of on-air personalities and, with savvy programming and groundbreaking promotions, created WIXY 1260--a station that would become synonymous with 1960s pop culture. A Midwest juggernaut, WIXY aired everything from surf and Motown to country and the British Invasion. Crossing cultural and generational lines in one of the hottest radio markets in the country, it regularly took in more than fifty percent of the Greater Cleveland audience. Bob Weiss, Norman Wain, and Joe Zingale knew the kind of radio Cleveland wanted to hear. They also knew how to market that sound to make it a lifestyle. They bought a small station with a weak signal and renamed it WIXY, and it wasn't long before their competition fell by the wayside. Mike Olszewski and Richard Berg spin a lively tale of popular culture that will appeal to everyone from baby boomers to media scholars and cultural historians. Through extensive interviews with insiders, the authors chronicle WIXY's relatively brief yet exciting run and how the station came to dominate the airwaves in the '60s and '70s with a winning combination of tastemaking playlists, unforgettable on-air personalities, and outlandish promotions. It's a fun story, recounted with ample humor. -- John Soeder, Music Critic, The Cleveland Plain Dealer

*Radio Activity* Bill Fitzhugh, 2004-04-01 After losing his job at a radio station in Bismark, North Dakota, disc jockey Rick Shannon accepts a position at a small station in McRae, Mississippi, where he finds himself in the middle of

mystery involving a missing disc jockey, blackmail, murder, and FCC violations.

Turn It Up! Confessions of a Radio Junkie Kevin

Fodor, 2021-01-27 Kevin Fodor has gone by many on air names in his nearly 50 year broadcasting career. Currently on air at WHIO AM-FM/WHKO-FM and WZLR-FM in Dayton, Ohio, but has worked in large and small towns in Ohio, Indiana and Illinois. He has also been heard doing shows or interviews on stations in Florida, Georgia and other states, and has even been a contributing reporter to radio news networks such as ABC Radio, Fox News Radio, The National Black Network, the BBC and others. He is also a broadcast educator, working at the International College of Broadcasting in Dayton, Ohio where he is a substitute radio instructor, has built and programs an internet radio station (Radio ICB) which broadcasts to the world and runs and programs a low powered FM operation at Indian Lake, Ohio. And here's what people who know him, say about him: I first met Kevin Fodor 50 years ago when, as a high school student, he came out to nightly remote broadcasts I was hosting for WAVI Radio. He has gone from voluntarily helping set up and tear down broadcast equipment back then to over-achieving almost every goal he would have had back then. Kevin has done it all, while leading, mentoring and inspiring many, many others. His wisdom and creative brilliance are all on display in these pages. I know you'll love getting to know my friend, Kevin Fodor thanks to this enlightening and inspiring book. -Jaye Albright, Retired Broadcasting Consultant for Albright, O'Malley and Brenner Broadcasting Consultants. Kevin is one of the best friends a radio transmitter ever had...and one of the best weapons a radio programmer can have in his arsenal. He not only KNOWS but LOVES the business of radio and always shows up with 100% to give (no matter

what the task) to get the job done. I don't believe there's a job inside a radio station that Kevin hasn't tackled in his long radio career - whether or not he actually held a particular job title. That alone should make this an interesting read. He's dedicated to a fault because he is passionate about the business. I'm positive that somewhere there's a marriage certificate that proves he's been married to radio all these years. -Former in the trenches co-worker and occasional boss - Rob Ellis, Vice President/Owner AQ Productions. Rowdy (Kevin Fodor) is part of a rare species of broadcasters. He grew up enchanted by legendary Top 40 stations like CKLW, then went on to build a successful radio career for himself and has survived by being versatile enough to handle diverse formats on multiple stations. Can't wait to read this book! -Bob Moody, former Country Programming Format Leader for Nationwide Communications and former on air talent at CKLW/Detroit-Windsor (known as The Big 8). Working in the radio biz for 43 plus years, I've had the pleasure to cross paths and work with Kevin many times. The one word that comes to mind is versatility. He truly is a jack of all trades when it comes to radio. Even in his role as a broadcast instructor, Kevin brings a depth of experience and perspective that is priceless. -Tommy Collins, Radio Department Head, International College of Broadcasting; Dayton, Ohio. Kevin's long career in Broadcasting created some great stories that anyone who has ever worked in radio can relate to. Kevin has been part of broadcasting dynasties in Ohio and has a unique perspective unlike any other. -Nick Roberts, Radio Vice President and Marketing Director for Cox Media Group, Dayton, Ohio.

**In Cold Blood** Truman Capote,2013-02-19 Selected by

the Modern Library as one of the 100 best nonfiction books of all time From the Modern Library's new set of beautifully repackaged hardcover classics by Truman Capote—also available are *Breakfast at Tiffany's* and *Other Voices, Other Rooms* (in one volume), *Portraits and Observations*, and *The Complete Stories* Truman Capote's masterpiece, *In Cold Blood*, created a sensation when it was first published, serially, in *The New Yorker* in 1965. The intensively researched, atmospheric narrative of the lives of the Clutter family of Holcomb, Kansas, and of the two men, Richard Eugene Hickock and Perry Edward Smith, who brutally killed them on the night of November 15, 1959, is the seminal work of the "new journalism." Perry Smith is one of the great dark characters of American literature, full of contradictory emotions. "I thought he was a very nice gentleman," he says of Herb Clutter. "Soft-spoken. I thought so right up to the moment I cut his throat." Told in chapters that alternate between the Clutter household and the approach of Smith and Hickock in their black Chevrolet, then between the investigation of the case and the killers' flight, Capote's account is so detailed that the reader comes to feel almost like a participant in the events.

*Pediatric Retina* James D. Reynolds, Scott E.

It is organized according to disease onset and timing, as well as anatomy. All chapters are written by leading authorities in the field from both the pediatric and the retinal perspective. A multidisciplinary approach to the topic is adopted, and critical information is included on disease classification and diagnosis,

pathophysiology, genetics, complications, and prognosis. Pediatric Retina will be a useful source of information for pediatric ophthalmologists, retina specialists, and other eye care providers who care for children.

### **Mosquitoes, Communities, and Public Health in**

**Texas** Mustapha Debboun, Martin Reyna Nava, Leopoldo Rueda, 2019-09-14 Mosquitoes, Communities, and Public Health in Texas focuses on 87 known species of mosquitoes found throughout Texas. It includes information on the ecology, medical and public health importance, and biological diversity of each species. In addition, it provides detailed identification keys for both larval and adult stages of all mosquito genera and species known to occur in Texas, along a review of surveillance and control strategies. The expansion of invasive mosquitoes from other regions (including Mexico), together with climate change

occurrences increase the likelihood for an increase in diseases, such as West Nile Virus, Yellow Fever, Dengue, Chikungunya and Zika. This unique work is the first unified reference and resource rich in mosquito information for medical entomologists, mosquito and vector control professionals, pest management professionals, biologists, environmentalists, wildlife professionals, government regulators, instructors of medical entomology and public health professionals who have disease or vector responsibilities, mosquito taxonomists, epidemiologists, entomology students, academia, pest control industry, and libraries, etc., with utility for medical, veterinary and health professionals. Brings into one volume the previously fragmented or unavailable information on the species of mosquitoes found in Texas and neighboring states of Mexico Provides a variety of audiences with key data on mosquito biology, distribution and how to identify each Includes a geographic distribution map, habitat associations, and medical importance on Zika, West Nile virus, Dengue and Chikungunya for each species

**Vaccine Delivery Technology** Blaine Pfeifer, Andrew Hill, 2020-11-19 This volume discusses the vaccine development process and the role delivery concepts contribute to a global goal of effective health outcomes. **The Shortest Day** Susan Cooper,2019-10-22 In this seasonal treasure, Newbery Medalist Susan Cooper's beloved poem heralds the winter solstice, illuminated by

Caldecott Honoree Carson Ellis's strikingly resonant illustrations. So the shortest day came, and the year died . . . As the sun set on the shortest day of the year, early people would gather to prepare for the long night ahead. They built fires and lit candles. They played music, bringing their own light to the darkness, while wondering if the sun would ever rise again. Written for a theatrical production that has become a ritual in itself, Susan Cooper's poem *The Shortest Day* captures the magic behind the returning of the light, the yearning for traditions that connect us with generations that have gone before — and the hope for peace that we carry into the future. Richly illustrated by Carson Ellis with a universality that spans the centuries, this beautiful book evokes the joy and community found in the ongoing mystery of life when we celebrate light, thankfulness, and festivity at a time of rebirth. Welcome Yule!

**Flow Sensing in Air and Water** Horst

Bleckmann, Joachim Mogdans, Sheryl L. Coombs, 2014-01-22 In this book, leading scientists in the fields of sensory biology, neuroscience, physics and engineering explore the basic operational principles and behavioral uses of flow sensing in animals and how they might be applied to engineering applications such as autonomous control of underwater or aerial vehicles. Although humans possess no

flow-sensing abilities, countless aquatic (e.g. fish, cephalopods and seals), terrestrial (e.g. crickets and spiders) and aerial (e.g. bats) animals have flow sensing abilities that underlie remarkable behavioral feats. These include the ability to follow silent hydrodynamic trails long after the trailblazer has left the scene, to form hydrodynamic images of their environment in total darkness, and to swim or fly efficiently and effortlessly in the face of destabilizing currents and winds.

**Chromosomes Today** N. Henriquez-Gil, J.S. Parker, M. Puertas, 1996-12-31 Chromosomes Today Volume 12 records the plenary proceedings of the 12th triennial International Chromosome Conference, presenting an overview of the current concerns in the developing studies of animal, plant and human cytogenetics. As well as giving an accurate historical record of the achievements in chromosome studies, this important series points the way forward, emphasizing the areas in which new developments will take place. Volume 12 explores the complete integration of molecular biology and cytogenetics, evaluating the consensus of the world's cytogeneticists concerning the nature and activities of the chromosome. It reinforces our view of the chromosome as the genetic organelle whose structure, behaviour and modification underlie our modern concept of eukaryote genetics.
