Rebuilding Families Pamela Langelier,2009-03 Children of custody battles are caught in the center of the fury, as they struggle to adapt and wait for the bitter fighting to stop. Rebuilding a family's future with the court, mental health professionals are mostly solo clinicians or court personnel with widely differing training, and world views. For children and the frantic parents there can be A luck of the draw outcome since few professionals are trained to Rebuild Families. Most judges consider the polestar Best Interests of the Child state guidelines when forced to become architects for broken homes. The book's expert team evaluation and help is based on a unique comprehensive protocol favored by Family Court judges. Building plans based on this book's unique Best Interests of the Child Protocol

with the efficient team approach (two heads are better than one) allows the parents to accept the outcome as fair if not favorable. The court, in turn, is better able to render a timely judgement, focused on the children's needs, influenced by a team's (psychologist/socialworker or psychiatrist) logical, deep expert look at the family puzzle. When a family's future is decided by strangers all professionals involved wield an awesome power and have a profound impact. If you want to do your work well as a judge, lawyer, psychologist, psychiatrist or court custody worker, make sure you have this book as a reference.

Piety and the People Francis M. Higman, 2016-12-05 Did the 16th-century Reformation influence French language and culture? This book, the fullest available bibliography of religious printing in French during the early Reformation, provides the materials to answer this question. It assembles information on all known printed editions in French on religious subjects during the crucial period 1511-51 (up to the Edict of Chateaubriant), giving full bibliographical details, library locations and references in secondary literature. An alphabetical list is complemented by a chronological list, and by an analysis of editions by printers and publishers. The work provides the fullest checklist available of works and editions produced from all parts of the religious spectrum, both Roman Catholic and Protestant. It reveals who were the most active and influential writers, which were the most popular texts, and which were the most active printing centres in the field of religious printing in French. The chronological survey shows the immense growth in publications triggered by the Reformation movement, and reveals the radical change in religious sensibility during the period, from contemplative meditation to polemical debate.
