**Vietnam 1945** David G. Marr, 2023-09-01 1945: the most significant year in the modern history of Vietnam. One thousand years of dynastic politics and monarchist ideology came to an end. Eight decades of French rule lay shattered. Five years of Japanese military occupation ceased. Allied leaders determined that Chinese troops in the north of Indochina and British troops in the South would receive the Japanese surrender. Ho Chi Minh proclaimed the Democratic Republic of Vietnam, with himself as president. Drawing on extensive archival research, interviews, and an examination of published memoirs and documents, David G. Marr has written a richly detailed and descriptive analysis of this crucial moment in Vietnamese history. He shows how Vietnam became a vortex of intense international and domestic competition for power, and how actions in Washington and Paris, as well as Saigon, Hanoi, and Ho Chi Minh's mountain headquarters, interacted and clashed, often with surprising results. Marr's book probes the ways in which war and revolution sustain each other, tracing a process that will interest political scientists and sociologists as well as historians and Southeast Asia specialists.

## *HÀNH TRANG NGÔN NG?: LANGUAGE LUGGAGE FOR*

*VIETNAM* Tri C. Tran, Minh-Tam Tran, 2013-11-29 This first-year Vietnamese language textbook introduces college students to all aspects of the Vietnamese language and culture in twelve comprehensive chapters. Each chapter begins with a list of active vocabulary used for the selected topic, followed by dialogue and grammar utilized in everyday situations by native speakers. A Vietnamese proverb reflecting each chapter's topic reveals a different cultural component of Vietnam. Students can practice what they've learned with exercises at the end of each chapter. The book is enhanced with an answer key to the exercises, grammar indices, and full vocabulary lists.

Vietnam David G. Marr, 2013-04-15 Amidst the revolutionary euphoria of August 1945, most Vietnamese believed that colonialism and war were being left behind in favor of independence and modernization. The late-September British-French coup de force in Saigon cast a pall over such assumptions. Ho Chi Minh tried to negotiate a mutually advantageous relationship with France, but meanwhile told his lieutenants to plan for a war in which the nascent state might have to survive without allies. In this landmark study, David Marr evokes the uncertainty

and contingency as well as coherence and momentum of fast-paced events. Mining recently accessible sources in Aix-en-Provence and Hanoi, Marr explains what became the largest, most intense mobilization of human resources ever seen in Vietnam.

**Ending the Vietnam War** Cheng Guan Ang, 2005-06-28 Existing studies of the Vietnam War have been written mostly from an American perspective, using western sources, and viewing the conflict through western eyes. This book, based on extensive original research, including Vietnamese, Chinese and former Soviet sources, tells the story of the war from the Tet offensive in 1968 up to the reunification of Vietnam in April 1975. Overall, it provides an important corrective to the predominantly US-centric narratives of the war by placing the Vietnamese communists centre-stage in the story. It is a sequel to the author's RoutledgeCurzon book *The Vietnam War From the Other Side*, which covers the period 1962-68.

*Truyen tranh lich su Viet Nam - An Duong Vuong* Ha Viet Nguyen, 2014-06-03 Vietnam was a country named Au Lac ruled by King An Duong Vuong. By then, Zhao To (Southern China) tried to conquer Au Lac State, but his military adventures ended in failure. Resorting to a different strategy, Zhao To sought peace and

requested An Duong Vuong to give consent to marriage between Trong Thuy, Zhao To's son, and My Chau, An Duong Vuong's daughter. Finally, the King lost his country in the hands of the enemy due to his subjectivity and credulity.

**The Vietnam Nationalist Party (1927-1954)** Van Khanh

Nguyen, 2015-11-26 This book presents research focusing on the Vietnam Nationalist Party (Việt Nam Quốc dân Đảng) from 1927 to 1954. It elaborates on the party's establishment, political ideology and organizational structure, the Yen Bai Uprising, the party's downfall, and its role in the Vietnamese Revolution. Findings are presented systematically and comprehensively, relying on official and unofficial, as well as domestic and foreign sources, including texts from localities and hometowns of vital figures in the organization. The author compares, contrasts and evaluates this complex collection of documents based on the theoretical perspectives of conflict theory, social system theory, social structuralism and functionalism, dialectic materialism and Marxist

theory. It is essential reading for Vietnamese and international researchers interested in Vietnam's political context in the early twentieth century and for undergraduate and postgraduate programs in Vietnam's history and politics.

Vietnam's Strategic Thinking During the Third Indochina War

Kosal Path, 2020 Why did Vietnam invade and occupy Cambodia in 1978? And why did it eventually change its approach, shifting from military confrontation to economic reform and reconciliation with China in the late 1980s? Drawing on rarely accessed archival documents, Kosal Path explores this major change in Vietnamese leaders' objectives and strategies. Unlike most studies, which attribute the invasion to political elites' paranoia and imperial ambition over Indochina, Path argues that Hanoi's move was rational and strategic, intended to resolve its economic crisis and counter imminent threats posed by the Sino-Cambodian alliance by cementing its own alliance with the Soviet Union. As these costly efforts failed in the 1980s, Vietnamese thinking shifted from the doctrinal Marxist-Leninist ideology that had prevailed during the last decade of the Cold War to the approach that would come to characterize the post-Cold War era. Path traces the moving target of Vietnam's changing priorities: first from military victory to

Socialist economic reconstruction in 1975-76; then to military confrontation in 1978-1984; and finally, in 1985-86, to the broad reforms dubbed Doi Moi (renovation), meant to create a peaceful regional environment for Vietnam's integration into the global economy. Path's sources include internally circulated reports from provincial authorities, ministries, and ad hoc Party committees-- materials that have been largely masked by the Vietnamese nationalist history of Vietnam's selfless assistance to Cambodia's revolution and glossed over by the Cambodian nationalist narrative of Vietnam's longstanding imperial ambition in Cambodia--

*The Cham of Vietnam* Tran Ky Phuong, Bruce

Lockhart, 2011-01-01 The Cham people once inhabited and ruled over a large stretch of what is now the central Vietnamese coast. Written by specialists in history, archaeology, anthropology, art history, and linguistics, these essays reassess the ways that the Cham have been studied.

Catholic Vietnam Charles Keith, 2012-10-18 In this important new study, Charles Keith explores the complex position of the Catholic Church in modern Vietnamese history. By demonstrating how French colonial rule allowed for the transformation of Catholic missions in Vietnam into broad and powerful economic and

institutional structures, Keith discovers the ways race defined ecclesiastical and cultural prestige and control of resources and institutional authority. This, along with colonial rule itself, created a culture of religious life in which relationships between Vietnamese Catholics and European missionaries were less equal and more fractious than ever before. However, the colonial era also brought unprecedented ties between Vietnam and the transnational institutions and culture of global Catholicism, as Vatican reforms to create an independent national Church helped Vietnamese Catholics to reimagine and redefine their relationships to both missionary Catholicism and to colonial rule itself. Much like the myriad revolutionary ideologies and struggles in the name of the Vietnamese nation, this revolution in Vietnamese Catholic life was ultimately ambiguous, even contradictory: it established the foundations for an independent national Church, but it also polarized the place of the new Church in post-colonial Vietnamese politics and society and produced deep divisions between Vietnamese Catholics themselves.

**Tuttle English-Vietnamese Dictionary** Nguyen Dinh Hoa, Phan Van Giuong, 2006-12-15 This is the most up-to-date and complete English to Vietnamese dictionary available. It is designed primarily

Professor Phan, who has many years' experience teaching Vietnamese and English, is also the author of many Vietnamese teaching/learning

materials and editor for several Vietnamese magazines and newspapers. Professor Phan is now retired but continues to teach on a part-time basis.

**Hanoi's Road to the Vietnam War, 1954-1965** Pierre Asselin, 2015-08-18 Using new and largely inaccessible Vietnamese sources as well as French, British, Canadian and American archives, Pierre Asselin sheds valuable light on Hanoi's path to war. Step by step the narrative makes Hanoi's revolutionary strategy from the end of the French Indochina War to the start of the Anti-American Resistance Struggle for Reunification and National Salvation (the Vietnam War) transparent. The book reveals how North Vietnamese leaders moved from a cautious policy emphasizing nonviolent political and diplomatic struggle to a far riskier pursuit of military victory--

Rubber and the Making of Vietnam Michitake Aso, 2018-04-25 Dating back to the nineteenth-century transplantation of a latex-producing tree from the Amazon to Southeast Asia, rubber production has wrought monumental changes worldwide. During a turbulent Vietnamese past, rubber transcended capitalism and

socialism, colonization and decolonization, becoming a key commodity around which life and history have revolved. In this pathbreaking study, Michitake Aso narrates how rubber plantations came to dominate the material and symbolic landscape of Vietnam and its neighbors, structuring the region's environment of conflict and violence. Tracing the stories of agronomists, medical doctors, laborers, and leaders of independence movements, Aso demonstrates how postcolonial socialist visions of agriculture and medicine were informed by their colonial and capitalist predecessors in important ways. As rubber cultivation funded infrastructural improvements and the creation of a skilled labor force, private and state-run plantations became landscapes of oppression, resistance, and modernity. Synthesizing archival material in English, French, and Vietnamese, Aso uses rubber plantations as a lens to examine the entanglements of nature, culture, and politics and demonstrates how the demand for rubber has impacted nearly a century of war and, at best, uneasy peace in Vietnam.

#### MiG-17 and MiG-19 Units of the Vietnam War István

Toperczer, 2012-11-20 The erstwhile enemy of the USAF and US Navy during the nine years of American involvement in the Vietnam

War, the Vietnamese Peoples' Air Force (VPAF) quickly grew from an ill-organised rabble of poorly trained pilots flying antiquated communist aircraft into a highly effective fighting force that more than held its own over the skies of North Vietnam. Flying Soviet fighters like the MiG-17, and -19, the VPAF produced over a dozen aces, whilst the Americans managed just two pilots and three navigators in the same period.

### MiG-17/19 Aces of the Vietnam War István

Toperczer, 2016-10-20 At the beginning of the Vietnam War, the Vietnam People's Air Force (VPAF) were equipped with slow, old Korean War generation fighters – a combination of MiG-17s and MiG-19s – types that should have offered little opposition to the cutting-edge fighter-bombers such as the F-4 Phantom II, F-105 Thunderchief and the F-8 Crusader. Yet when the USAF and US Navy unleashed their aircraft on North Vietnam in 1965 the inexperienced pilots of the VPAF were able to shatter the illusion of US air superiority. Taking advantage of their jet's unequalled low-speed maneuverability, small size and powerful cannon armament they were able to take the fight to their missile-guided opponents, with a number of Vietnamese pilots racking up ace scores. Packed with information previously unavailable in the west and only

recently released from archives in Vietnam, this is the first major analysis of the exploits of Vietnamese pilots in the David and Goliath contest with the US over the skies of Vietnam.

**Vietnam's Foreign Policy under Doi Moi** Le Hong Hiep, Anton Tsvetov, 2018-03-19 In 1986, the Communist Party of Vietnam (CPV) adopted the Doi Moi (Renovation) policy at its sixth national congress, opening up a new chapter in the country's modern history. Under Doi Moi, Vietnam has undergone significant socio-economic, political and foreign policy reforms that have transformed the country in many meaningful ways. This edited volume aims to provide an in-depth analysis of the multiple aspects and transformations of Vietnam's foreign policy over the past thirty years. The book is divided into three sections. The first covers the broader framework of Vietnam's foreign policymaking and the historical evolution of Vietnam's diplomacy under Doi Moi. The second examines Vietnam's bilateral relationships with its major partners, namely the United States, China, Japan, India, Russia, its smaller neighbours (Cambodia and Laos), and ASEAN. Finally, the book looks into two major issues in Vietnam's current foreign policy: the management of the South China Sea disputes and the international economic integration process. As the most

informative, updated and comprehensive volume on Vietnam's foreign policy under Doi Moi, the book is a useful reference source for academics, policymakers, students as well as anyone interested in contemporary Vietnam in general and its foreign policy in particular.

#### **MiG-21 Aces of the Vietnam War István Tópercz, 2017-09-21**

Having learned their trade on the subsonic MiG-17, pilots of the Vietnamese People's Air Force (VPAF) received their first examples of the legendary MiG-21 supersonic fighter in 1966. Soon thrown into combat over North Vietnam, the guided-missile equipped MiG-21 proved a deadly opponent for the US Air Force, US Navy and US Marine Corps crews striking at targets deep in communist territory. Although the communist pilots initially struggled to come to terms with the fighter's air-search radar and weapons systems, the ceaseless cycle of combat operations quickly honed their skills. Indeed, by the time the last US aircraft (a B-52) was claimed by the VPAF on 28 December 1972, no fewer than 13 pilots had become aces flying the MiG-21. Fully illustrated with wartime photographs and detailed colour artwork plates, and including enthralling combat reports, this book examines the many variants of the MiG-21 that fought in the conflict, the schemes they

wore and the pilots that flew them.

*In Search of Moral Authority* Van Nguyen-Marshall, 2008 In *Search of Moral Authority: The Discourse on Poverty, Poor Relief, and Charity in French Colonial Vietnam* is a pioneering exploration of the discourses on poverty and poor-relief activities in early twentieth-century Northern Vietnam. Treating poverty as a socially constructed idea, Van Nguyen-Marshall argues that poor relief was a domain where both French colonialists and Vietnamese intellectuals vied for moral authority. For the French colonial officials, poor relief fell within the purview of the French «civilizing» mission, the official justification for imperialism. However, the colonial agenda, racial prejudices, and the French administrators' own ambivalent attitudes toward the poor made any attempt at poor relief doomed for failure. For Vietnamese intellectuals, the discourse and activities on poor relief became a rallying call for patriotism, nationalism, and, for some, anti-colonialism. *In Search of Moral Authority* deals with social issues such as charity and poor relief, as well as the construction of national and gender identity by Vietnamese intellectuals. This book is essential reading for students and specialists of Vietnamese history as well as those interested in issues of poverty, public welfare, and charity.

## **Vietnamese Communists' Relations with China and the Second Indochina Conflict, 1956–1962** Cheng Guan Ang, 1997-01-01

According to the final declaration of the 1954 Geneva Conference regarding Vietnam, general elections were to be held in July 1956 that would lead to the reunification of North and South Vietnam.

The Geneva Agreement, however, was doomed from the start, as the South Vietnamese leaders did not subscribe to it and the leaders of the Communist North saw its value as primarily a propaganda tool. By 1956 it was obvious to all that reunification in accordance with the agreement was impossible, and the North Vietnamese looked to China for advice and assistance. Based on Vietnamese, Chinese, American and British sources--many only recently made available--this work examines Sino-Vietnamese relations in the early stages of the second Indochina conflict. The progression of the Vietnamese Communists' goals from primarily political to essentially military is traced. The book shows that the Hanoi government was remarkably in control of its own decision-making.
