Live from the Gates of Hell Jerry Reiter,2010-12 Something big, something really big is coming, the leader of extremist group Rescue America warns reporter Jerry Reiter. It is the first hint of new terror to come in Pensacola, Florida-already ground zero for the nation's Culture War. As Reiter goes there to cover the murder trial of the first doctor slain in the holy war over abortion, he meets radicals from the Ku Klux Klan, Operation Rescue, and a militia man with duffel bags filled with semiautomatic weapons. Each person Reiter interviews offers up a different part of a frightening puzzle pointing to a plot with the potential to be the nation's worst act of domestic terrorism.Reiter is told by future assassin Paul Hill, You are about to see an IRA-type reign of terror. Twists and turns in the real-life plot pull the reader along into a strange subculture where terrorism is seen as a sacred virtue, and the irony of pro-life killing is lost on a fanatical national network of zealots. Reiter is given a string of hints that lead him to suspect a nightmarishly violent attack will take place at a candlelight vigil on the anniversary of the doctor's death as hundreds of abortion providers and feminist leaders from around the nation will be gathered to remember their fallen colleague. Standing in the dark of an open grassy area, they will not be able to see the armed men who wish them harm until it is too late.The hints are tantalizing, but Reiter is not sure if he has enough evidence to lead to arrests and the foiling of the potential plot. And the situation is personally ironic for Reiter; two years earlier he had put his broadcasting career on the line for the sake of Operation Rescue, working out of the state headquarters of the Christian Coalition of New York as a media coordinator in a national protest. Now he faces the prospect of either putting his very life on the line for abortion providers or allowing a cold-blooded mass murder plot to take place.The trail of blood that Reiter uncovers both takes him back to the mysterious circumstances of the first slaying, and down a road that will eventually lead him to become a reluctant informant for the FBI. With help from the FBI he will later witness a merger between militias and militant antiabortionists that will send chills down your spine. Reiter's own life is changed forever by his experiences in the nation's culture war and his subsequent role as a leader in a movement called The Common Ground Network for Life and Choice. Where he comes out at the end of the journey will surprise both pro-life and pro-choice people.Reiter, a founding member and activist in the Christian Coalition, shows that there are shockingly close (albeit indirect) ties between radicals and respectable conservatives, including such national figures as Pat Robertson, Pat Buchanan and the compassionate conservative philosophy of George W. Bush. For instance, the legal defense for anti-abortion assassin Paul Hill is provided by an attorney working full-time in Robertson's legal machine, the ACLJ, the religious right's version of the ACLU. And by the end of the book, the reader will know where the religious right went wrong.

University Sheepdog in Westwood, L.A. Terrence Duren, 2016-08-18 Retired UCLA Police Officer, Terrence Duren, at the center of the 2006 UCLA Taser Incident, writes his memoir, "University Sheepdog in Westwood, Los Angeles to set the record straight regarding his life and law enforcement career. There were television news reports and articles written about the Taser incident and of Terrence Duren's past. Some of these news reports and articles were unflattering and did not paint a complete picture of him and other officers involved in the Taser incident. In addition to the protests held at UCLA and other UC campuses, there were high volume of telephone calls to UCLA with people voicing their anger and support over the Taser incident. These telephone calls came from people living in the United States and abroad. There was such a high volume of phone calls that UCLA's telecommunications nearly broke down. After a complete and thorough investigation, the UCLA police chief as well as UCLA campus administrators, concluded that Officer Duren did not violate policy with his use of the Taser. University sheepdog in Westwood, Los Angeles is a memoir that gives a better understanding of Officer Terrence Duren and his former colleagues. This memoir is a story of Sheepdogs (police officers), protecting the Sheep (students\faculty\staff\visitors and others), from the Wolves (criminals). Some of the contents in this memoir will tell of Terrence Duren's Officer Involved Shootings, on and off campus, his working undercover for six months buying narcotics from UCLA hospital employees, his confrontation with members of the Nation of Islam, his SWAT standoff with an armed suspect, lewd and lascivious activity in the men's restrooms, his mentoring victims and suspects, flimflammer, and more! Additionally, this Memoir has contents regarding Terrence's childhood growing up around Black Panthers, his service in the United States Marine Corps in peace time and during the First Gulf War. This memoir is unlike any other police story ever told. As you read this memoir, sit down and strap up because you are about to go on a ride!

The Management of Police Specialized Tactical Units Tomas C. Mijares, Ronald M. McCarthy, 2020-11-30 A major responsibility of the leadership of any specialized police unit is the awareness of endlessly changing societal, legal, and managerial developments that affect operations. This third edition of The Management of Police Specialized Tactical Units represents a significant updating and expansion of each of the chapters from previous editions. In addition to explaining the steps for developing and maintaining a realistic and effective response to increasingly violent levels of crime, this edition discusses the social, political, and technological matters that must be continuously identified, defined, and resolved prior to the implementation of any substantive or procedural change in tactical policy and practice. Legal and operational guidelines are provided to help tactical leaders to develop their leadership abilities and tactical success, thereby enhancing the tactical unit's ability to safeguard the public. The authors make extensive use of the latest court decisions to provide the legal bases for operations as well as recent case histories to illustrate the various aspects of organizational management. These case histories do much more than summarize the sequence of events. They also point out what was learned from the successes and failures alike. Of particular interest is the new material on how the range of activities assigned to tactical units has expanded dramatically since September 11, 2001 and how the law enforcement community has been forced to respond to its newest critics. Emphasis is placed on how decision-makers must not only be organizational managers and administrators but also on how they should possess a firm grasp of confrontation tactics and leadership principles.

To Live or Die in the Broox Shawn M. Robinson, 2021-09-26 This story is set in the early 1990s. Our prime character in this hood novel is Jacob Johnston, who was brought up in Brooklyn by his estranged mother. They were estranged due to his mother's neglect and use of drugs. She is desperately trying to be a better mother, but Jacob can't forget the hardships she bestowed on him at an early age. Jacob, who is mostly called Jake, takes on a proposal from a childhood friend that could be better summed up as making a deal with the devil. Jake's family is now having money troubles, and Jake is ready to step in again and help out, as well as get his own place. These are but a few reasons he takes on this scheme. Shortly after his success with his childhood friend's proposition, things begin to take on a boomerang effect and hit Jake where it hurts. Sort of a tit for tat becomes this for that, and lives are lost. Unbeknownst to Jake, his main foe is located in the Bronx. This menace has no plans to slow or back down from the war that has been waged. Will this hellish roller coaster come to an end before it's too late? The only two things left in Jake's mind were to live or die in the Broox.

When Biometrics Fail Shoshana Magnet, 2011-11-11 This book examines the proliferation of surveillance technologies—such as facial recognition software and digital fingerprinting—that have come to pervade our everyday lives. Often developed as methods to ensure national security, these technologies are also routinely employed to regulate our personal information, our work lives, what we buy, and how we live.

Tom and Huck Don't Live Here Anymore Ron Powers, 2002-09-14 From a Pulitzer Prize-winning author, *Tom and Huck Don't Live Here Anymore* is a powerful, disturbing, and eye-opening dispatch from the homefront that will take its place alongside the works of Antony Lucas, Robert Coles, and Tracy Kidder. Ron Powers' hometown is Hannibal, Missouri, home of Mark Twain, and therefore birthplace of our image of boyhood itself. Powers returns to Hannibal to chronicle the

horrific story of two killings, both committed by minors, and the trials that followed. Seamlessly weaving the narrative of the events in Hannibal with the national withering of the very concept of childhood, Powers exposes a fragmented adult society where children are left adrift, transforming isolation into violence. Powers's storytelling style keeps such good control over the pacing, readers will know they're not headed for a disappointment at the ending. - Publishers Weekly
