The Lively Science Michael Agar, 2021-05-10 *The Lively Science* is Michael Agar's accessible, idiosyncratic, often humorous, and sometimes controversial explication of his own polestar truth: Research on humans in their social world by other humans is not a traditional science like the one created by Galileo and Newton. However, if the social world is not a lab, neither is it a collection of random events. The book lays out a clear, straightforward path to carrying out the basic scientific tasks of forming questions and answering them to explore and account for that non-randomness. The author deploys myriad engaging examples drawn from a lifetime of applied and basic research to demonstrate how human science researchers can produce discoveries that are scientifically defensible and useful in the real world. Agar grounds his how-to guide in an approachable discussion of epistemology and draws on thinkers whose writings may be unfamiliar to many social scientists. He blends that work with new intellectual tools, such as complexity theory, disasters research, and conversational analysis. The result is an innovative and practical methodology that is true to the realities and surprises of research

by and about humans, yet preserves scientific standards of falsifiability, empiricism, logic, and systematic presentation of results. This book represents the best of Michael Agar's visionary work. With a new foreword by Michael Brown celebrating Agar's enormous contribution to social science methodology, *The Lively Science* is for all researchers who seek to explore the full potential of a human social science.

A Rock Is Lively Dianna Hutts Aston, 2013-09-03 From the award-winning creators of *An Egg Is Quiet*, *A Seed Is Sleepy*, and *A Butterfly Is Patient* comes a gorgeous and informative introduction to the fascinating world of rocks. From dazzling blue lapis lazuli to volcanic snowflake obsidian, an incredible variety of rocks are showcased in all their splendor. Poetic in voice and elegant in design, this book introduces an array of facts, making it equally perfect for classroom sharing and family reading. Plus, this is the fixed format version, which looks almost identical to the print edition.

Lively Capital Kaushik Sunder Rajan, 2012-04-02 This collection of anthropology of science essays explores the new forms of capital, markets, ethical, legal, and intellectual property concerns associated

with new forms of research in the life sciences.

Life in the Garden Penelope Lively, 2019-06-11 From the Booker Prize winner and national bestselling author, reflections on gardening, art, literature, and life Penelope Lively takes up her key themes of time and memory, and her lifelong passions for art, literature, and gardening in this philosophical and poetic memoir. From the courtyards of her childhood home in Cairo to a family cottage in Somerset, to her own gardens in Oxford and London, Lively conducts an expert tour, taking us from Eden to Sissinghurst and into her own backyard, traversing the lives of writers like Virginia Woolf and Philip Larkin while imparting her own sly and spare wisdom. Her body of work proves that certain themes never go out of fashion, writes the New York Times Book Review, as true of this beautiful volume as of the rest of the Lively canon. Now in her eighty-fourth year, Lively muses, To garden is to elide past, present, and future; it is a defiance of time.

Damaged Spirits Jennifer Lively, 2013-09 Jenn Lively's *Damaged Spirits* is a captivating, powerful and riveting read that captures the complex world of addiction. It is one of the most exhilarating and compelling books I have read in my 40+year addiction career. It engulfs the reader in vivid portrayals of the human faces of addiction and the triumphant spirit of recovery. What an incredible resource for patients, families, caregivers, and professionals. It truly will become a beacon of hope for those entangled in the tentacles of addiction. Carmen F. Ambrosino is a 40+year veteran of the addiction field and is currently the CEO of Wyoming Valley Alcohol and Drug Services, Inc. and CarmenAmbrosino.com *Damaged Spirits* is a collection of short vignettes that reflect the impact addiction yields to individuals, families, communities and society; and the realization that addiction affects everyone. Addiction does not discriminate and it is a disease of excess. Unlike any other disease addictions continue to be stigmatized, scrutinized and negatively judged by society. Jennifer Lively grew up and went to school in Bergen County New Jersey. She graduated with a Bachelor of Arts degree from Fairleigh Dickensen University and moved to rural Northeast Pennsylvania where she

had spent summers vacationing with her mother's family. After graduating from college and having had an interest in wines and spirits she found success working as a wine and spirits marketing representative. Eventually she became disillusioned with the direction liquor marketing had taken, and having had an aaah haaa moment during the tragic days of 9-11, she decided to leave the liquor industry and return to school; making an about face in her career and life work. Instead of promoting consumption of alcohol she would now promote recovery from alcohol and drug addiction. Now focused on a new career, she received her Master's of Education, focusing on addictions, from Penn State University and has worked in the addictions field ever since. Jenn has been a counselor at several different venues of addiction care and most recently has been the clinical director of a private non-profit outpatient drug and alcohol facility. In addition to her degrees, Jenn has many state and national addictions certifications and is a speaker and lecturer for several continuing education trainings.

The Lively Science Michael Agar,2021 This book represents the best of Michael Agar's visionary work in the social sciences - how to make a research question, and answer it with the human in social science. With his usual uncompromising clarity and dry wit, Agar examines why human social science is still very definitely a science, and what that means in practice for researchers. With a new foreword by (TBC) celebrating Agar's enormous contribution to the methodology, The Lively Science is for all social science researchers, students and qualitative methodologists who believe in putting the 'social' back into social science--
