**The Routledge Companion to Australian Literature** Jessica

Gildersleeve, 2020-12-22 In recent years, Australian literature has experienced a revival of interest both domestically and internationally. The increasing prominence of work by writers like Christos Tsiolkas, heightened through television and film adaptation, as well as the award of major international prizes to writers like Richard Flanagan, and the development of new, high-profile prizes like the Stella Prize, have all reinvigorated interest in Australian literature both at home and abroad. This Companion emerges as a part of that reinvigoration, considering anew the history and development of Australian literature and its key themes, as well as tracing the transition of the field through those critical debates. It considers works of Australian literature on their own terms, as well as positioning them in their critical and historical context and their ethical and interactive position in the public and private spheres. With an emphasis on literature's responsibilities, this book claims Australian literary studies as a field uniquely positioned to expose the ways in which literature engages with, produces and is produced by its context, provoking a critical re-evaluation of the concept of the relationship between national literatures, cultures, and histories, and the social function of literary texts.

## **Lacan on Psychosis Jon Mills, David L. Downing, 2018-09-21**

This is the first book of its kind that attempts to distill Lacan's views on psychosis for both a specialized and non-specialized audience. An attempt is made to present Lacan's unorganized theories to apply to conceptual paradigms in psychoanalysis and the humanities as well as applied clinical practice. This effort is in the spirit of fostering dialogue and educating different theoretical orientations within psychoanalysis on what Lacan and his followers have contributed to emerging contemporary perspectives on psychotic phenomena in both normative and pathological populations. Within Lacanian circles there is debate over what constitutes psychosis, including defining the ordinary from pathological variants that have historically defined the phenomena as a mental illness. Here psychosis is not defined by hegemonic authoritarian psychiatry, but rather as a conceptual framework or philosophical perspective supported by descriptive narrative and symptomatic phenomenology that challenges preconceived notions of what we typically consider psychosis to entail. In this book a variety of perspectives are presented by internationally respected scholars and clinicians who examine what Lacan had to say about psychosis, from his nuanced theories represented in select texts,

including omissions, extrapolations, and new applications, as well as how clinical methodology and technique have been adapted and advanced by practitioners treating psychotic individuals. Lacan on Psychosis will be of interest to academics, scholars, researchers, and practitioners in the fields of psychoanalysis, psychotherapy, philosophy, cultural theory, the humanities, and the behavioral sciences.

*Deeper Souls, Less Shoes* Nadine Mercey, 2008-11 Imagine a top producing real estate salesperson, single mom, bad relationships with men, unhealthy, self-styled dumb blonde... who awakens to her destiny of healing bodies, minds and souls. Meet Nadine Mercey, high vibrational healer. This is her personal story. Reading it will change yours. Her mission is raising awareness about the potential in all of us to boost our personal vibration so

we can be healthy, in loving relationships, and laughing often and out loud. lol About the Author Nadine Mercey is a high vibrational healer. She grew up in Brantford, Ontario, and confesses to having never done well at formal education. My mind just didn't work like other people's. Looking back, she recognizes signs of mild autism in her behavior. For twenty years, Nadine worked in real estate, rising to become one of Canada's top realtors. Her success came from an uncanny ability to intuitively understand the needs and motivations of buyers and sellers. Her awakening to the extent of her intuitive capabilities came from selling a haunted house -- one that had been featured in her dreams since childhood. Soon she was experiencing great vibrational development -- and receiving messages in her mind from voices who identified themselves as angels. She is guided and protected by the Gabrielle Collective and other energies. Nadine conducts readings, often at great distances, during which she communicates with the client's spirit guide(s) and/or angel(s). These entities provide instruction about what is required to raise the person's vibration, in order to restore balance to soul, mind and body. Generally energy flows into the person's body as Nadine visualizes areas that need help. Healing happens through creative visualization, and only when intended for the

highest and best interest -- to help that person progress toward his or her predetermined life purpose. Blessed with extraordinarily high vibration, Nadine devotes a portion of her practice to healing other intuitives and to making people aware of their own intuitive capabilities. She is a medical intuitive, who has helped doctors identify illnesses in their patients. Nadine is a dynamic presenter at seminars, and has been the subject of a documentary film. Discussions are underway about hosting a television show. She is also developing her own line of healing products. Nadine lives in Ancaster, Ontario, Canada with her two teenaged sons, Eric and Jaxon. She loves to dance and laugh. And she does own way too many shoes. Reviews Nadine's healing is amazing. Pro and amateur athletes will gain new awareness and better health by reading her new book. -- Peter Zezel, NHL hockey legend and coach Nadine Mercy is the most powerful healer that I know and will astonish even her most ardent skeptic. This profound book is a must read! -- renown psychic medium Karyn Reece (as seen on Lifetime Channel, TLC and Discovery Channel) Deeper Souls, Less Shoes is a fascinating and breezy narrative. At first I felt like a voyeur, but soon I realized this book was all about me, too! Nadine's tale gives me permission to fully embrace the many odd

occurrences that fall into my life daily and to expect that these occurrences or clues, will fit together to create a picture, MY LIFE, larger, more fulfilling and powerful than I can currently imagine. After reading Nadine's book I am filled with confidence to look, and guess what... it's there. Thank you, sister! -- Linda Schaumleffel, Olympic athlete and brain fitness expert

**Friends of the Dusk** Phil Rickman,2016-03-03 A medieval legend spawns an unhealthy cult, and a terrifying 13th case for Merrily Watkins When autumn storms blast Hereford, centuries-old human bones are found among the roots of a tree blown down on the city's Castle Green. But why have they been stolen? At the nearby Cathedral, another storm is building around a new, modernizing bishop who believes that if the Church is to survive it must phase out irrelevant archaic practices. Not good news for Merrily Watkins, consultant on the paranormal or, as it used to be known, diocesan exorcist. Especially as she's now presented with the job at its most medieval. In the moody countryside on the edge of Wales, a rambling 12th-century house is thought to be haunted. Although its new owners don't believe in ghosts, they do believe in

spiritual darkness and the need for exorcism. But their approach to Merrily is oblique and guarded. No-one can be told—least of all, the new bishop. Merrily's discovery of the house's links with the medieval legend of a man who resisted mortality threatens to expose the hidden history of a more modern cult and its trail of insidious abuse—a trail that may not be closed.
