Myanmar's Education Reforms Marie Lall, 2020-11-02 This book reviews the state of education in Myanmar over the past decade and a half as the country is undergoing profound albeit incomplete transformation. Set within the context of Myanmar's peace process and the wider reforms since 2012, Marie Lall's analysis of education policy and practice serves as a case study on how the reform programme has evolved. Drawing on over 15 years of field research carried out across Myanmar, the book offers a cohesive inquiry into government and non-government education sectors, the reform process, and how the transition has played out across schools, universities and wider society. It casts scrutiny on changes in basic education, the alternative monastic education, higher education and teacher education, and engages with issues of ethnic education and the debate on the role of language and the local curriculum as part of the peace process. In so doing, it gives voice to those most affected by the changing landscape of Myanmar's education and wider reform process: the students and parents of all ethnic backgrounds, teachers, teacher trainees and university staff that are rarely heard.

Miss Burma Charmaine Craig, 2017-05-02 "Craig wields powerful and vivid prose to illuminate a country and a family trapped not only by war and revolution, but also by desire and loss." –Viet Thanh Nguyen, Pulitzer Prize-winning author Miss Burma tells the story of modern-day Burma through the eyes of Benny and Khin, husband and wife, and their daughter Louisa. After attending school in Calcutta, Benny settles in Rangoon, then part of the British Empire, and falls in love with Khin, a woman who is part of a long-persecuted ethnic minority group, the Karen. World War II comes to Southeast Asia, and Benny and Khin must go into hiding in the eastern part of the country during the Japanese occupation, beginning a journey that will lead them to change the country's history. Years later, Benny and Khin's eldest child, Louisa, has a danger-filled, tempestuous childhood and reaches prominence as Burma's first beauty queen soon before the country falls to dictatorship. As Louisa navigates her newfound fame, she is forced to reckon with her family's past, the West's ongoing covert dealings in her country, and her own loyalty to the cause of the Karen people. Based on the story of the author's mother and grandparents, Miss Burma is a captivating portrait of how modern Burma came to be and of the ordinary people swept up in the struggle for self-determination and freedom. "At once beautiful and heartbreaking . . . An incredible family saga." –Refinery29 "Miss Burma charts both a political history and a deeply personal one—and of those incendiary moments when private and public motivations overlap." –Los Angeles Times

Untangling the Web National Security Agency (NSA), 2013 Use the internet like a real spy. Untangling the Web is the National Security Agency's once-classified guide to finding information on the internet. From the basic to the advanced, this 650-page book offers a fascinating look at tricks the real spies use to uncover hidden (and not-so-hidden) information online. Chapters include: Google hacks Metasearch sites Custom search engines Maps & mapping Uncovering the invisible internet Beyond search engines: Specialized research tools Email lookups Finding people Researching companies A plain english guide to interworking Internet toolkits Finding ISPs Cybergeography Internet

privacy and securityand over a hundred more chapters. This quote from the authors hints at the investigative power of the techniques this book teaches: Nothing I am going to describe to you is illegal, nor does it in any way involve accessing unauthorized data, [...but] involves using publicly available search engines to access publicly available information that almost certainly was not intended for public distribution. From search strings that will reveal secret documents from South Africa (filetype: xls site: za confidential) to tracking down tables of Russian passwords (filetype: xls site: ru login), this is both an instructive and voyeuristic look at how the most powerful spy agency in the world uses Google.

Almost Englishmen Ruth Fredman Cernea, 2007 Before the Second World War, two golden 'promised lands' beckoned the thousands of Baghdadi Jews who lived in Southeast Asia: the British Empire, on which 'the sun never set, ' and the promised land of their religious tradition, Jerusalem. Almost Englishmen studies the less well-known of these destinations. The book combines history and cultural studies to look into a significant yet relatively unknown period, analyzing to full effect the way Anglo culture transformed the immigrant Baghdadi Jews. England's influence was pervasive and persuasive: like other minorities in the complex society that was British India, the Baghdadis gradually refashioned their ideology and aspirations on the British model. The Jewish experience in the lush land of Burma, with its lifestyles, its educational system, and its internal tensions, is emblematic of the experience of the extended Baghdadi community, whether in Bombay, Calcutta, Shanghai, Singapore, or other ports and towns throughout Southeast Asia. It also suggests the experience of the Anglo-Indian and similar 'European' populations that shared their streets as well as the classrooms of the missionary societies' schools. This contented life amidst golden pagodas ended abruptly with the Japanese invasion of Burma and a horrific trek to safety in India and could not be restored after the war. Employing first-person testimonies and recovered documents, this study illuminates this little known period in imperial and Jewish histories.

Information Science in Transition Alan Gilchrist, 2009 Are we at a turning point in digital information? The expansion of the internet was unprecedented; search engines dealt with it in the only way possible - scan as much as they could and throw it all into an inverted index. But now search engines are beginning to experiment with deep web searching and attention to taxonomies, and the Semantic Web is demonstrating how much more can be done with a computer if you give it knowledge. What does this mean for the skills and focus of the information science (or sciences) community? Should information designers and information managers work more closely to create computer based information systems for more effective retrieval? Will information science become part of computer science and does the rise of the term informatics demonstrate the convergence of information science and information technology - a convergence that must surely develop in the years to come? Issues and questions such as these are reflected in this monograph, a collection of essays written by some of the most pre-eminent contributors to the discipline. These peer reviewed perspectives capture insights into advances in, and facets of, information science, a profession in transition. With an introduction from Jack Meadows the key papers are: Meeting the challenge, by Brian Vickery The developing foundations of information science, by David Bawden The last 50 years of knowledge organization, by Stella G Dextre Clarke On the history of evaluation in IR, by Stephen Robertson The information user, by Tom Wilson The sociological turn in information science, by Blaise Cronin From chemical documentation to chemoinformatics, by Peter Willett Health informatics, by Peter A Bath Social informatics and sociotechnical research, by Elisabeth Davenport The evolution of visual information retrieval, by Peter Enser Information policies, by Elisabeth Orna Disparity in professional qualifications and progress in information handling, by Barry Mahon Electronic scholarly publishing and open

access, by Charles Oppenheim Social software: fun and games, or business tools?, by Wendy A Warr Bibliometrics to webometrics, by Mike Thelwall. This monograph previously appeared as a special issue of the Journal of Information Science, published by Sage. Readership: Reproduced here as a monograph, this important collection of perspectives on a skill in transition from a prestigious line-up of authors will now be available to information studies students worldwide and to all those working in the information science field.

Social Media at BBC News Valerie Belair-Gagnon, 2015-02-11 Since the emergence of social media in the journalistic landscape, the BBC has sought to produce reporting more connected to its audience while retaining its authority as a public broadcaster in crisis reporting. Using empirical analysis of crisis news production at the BBC, this book shows that the emergence of social media at the BBC and the need to manage this kind of material led to a new media logic in which tech-savvy journalists take on a new centrality in the newsroom. In this changed context, the politico-economic and socio-cultural logic have led to a more connected newsroom involving this new breed of journalists and BBC audience. This examination of news production events shows that in the midst of transformations in journalistic practices and norms, including newsgathering, sourcing, distribution and impartiality, the BBC has reasserted its authority as a public broadcaster. United States Export Controls John R. Liebman, Roszel Cathcart Thomsen, James E. Bartlett, 2011-11-22 There should be no question in the mind of any exporter about the government's intention to enforce applicable legislation and regulations. The penalties imposed by export laws and regulations are severe. Violations often lead to heavy fines and, in serious cases, to debarment from contracting with the U.S. Government, and possibly imprisonment. Additionally, the privilege of exporting can be withdrawn from firms or individuals who have violated the regulations, either for specified periods or indefinitely. Ample resources are devoted by the government to the detection and prosecution of violators. The Departments of Defense, Commerce, Homeland Security, Justice, and the several intelligence agencies cooperate in this endeavor. Knowing and willful violations receive, of course, the heaviest sanctions, but unintentional violations are by no means exempt from penalties. Parties to an export transaction are expected to know and comply with the regulations. United States Export Controls, Sixth Edition provides a reference to which exporters, and those who work closely with them, can refer in their daily business operations in order to comply with the myriad export rules and regulations. Thorough knowledge of the regulations is essential in finding practical solutions to export licensing problems related to specific transactions, in formulating export marketing plans to minimize the impact of controls, and in the organizing company resources to deal correctly and efficiently with both the legal requirements and the day-to-day operational demands of the export control regulations.

Livelihoods, poverty, and food insecurity in Myanmar: Survey evidence from June 2020 to December 2021 Myanmar Agriculture Policy Support Activity (MAPSA), 2022-02-02 Ten rounds of the Rural-Urban Food Security Survey (RUFSS) have been conducted between June 2020 and December 2021 to assess the impacts of Myanmar's economic, political, and health crises on various dimensions of household welfare. RUFSS interviews about 2000 mothers of young children per round from urban Yangon, the rural Dry Zone, and recent migrants from these areas.

Market integration with ASEAN and beyond: The case of Myanmar Ajmani, Manmeet, Joshi, Pramod Kumar, Vr, Renjini, Roy, Devesh, 2018-11-29 In this paper, we address the question of market integration of Myanmar with the Association of Southeast Asian Nations (ASEAN) and its other top trading partners. Focusing on agricultural trade, we use indicators - 'Trade Potential' and 'Competition Indices' to assess the nature and extent of the integration. This study highlights the exports of Myanmar which are competitive in the ASEAN markets and have high export potential. A higher trade potential with lower competition (value or volume) would indicate an opportunity for higher returns for agricultural producers. In the case of Myanmar, "dried legumes and beans," "crustaceans," "frozen fish," "other oilseeds," "maize," and "preserved fruits and nuts" are identified as high-potential exports with lower competition in ASEAN markets which can be targeted for trade expansion. Finally, to demonstrate the upward movement in the value chain, possibly due to quality upgradation, we present the dynamics of the unit value of Myanmar's agricultural exports.

Writer, Rebel, Soldier, Lover Akshaya Mukul, 2022-07-24 An outstanding literary biography AMITAV GHOSH Mukul writes beautifully, and brings to life a man who has often been misunderstood BENJAMIN MOSER This book is a remarkable contribution to the world of Indian letters: ANNIE ZAIDI Sachchidanand Hirananda Vatsyayan 'Agyeya' is unarguably one of the most remarkable figures of Indian literature. From his revolutionary youth to acquiring the mantle of a (highly controversial) patron saint of Hindi literature, Agyeya's turbulent life also tells a history of the Hindi literary world and of a new nation-spanning as it does two world wars, Independence and Partition, and the building and fraying of the Nehruvian state. Akshaya Mukul's comprehensive and unflinching biography is a journey into Agyeya's public, private and secret lives. Based on never-seen-before archival material-including a mammoth trove of private papers, documents of the CIA-funded Congress for Cultural Freedom and colonial records of his years in jail-the book delves deep into the life of the nonconformist poet-

novelist. Mukul reveals Agyeya's revolutionary life and bomb-making skills, his CIA connection, a secret lover, his intense relationship with a first cousin, the trajectory of his political positions, from following M.N. Roy to exploring issues dear to the Hindu right, and much more. Along the way, we get a rare peek into the factionalism and pettiness of the Hindi literary world of the twentieth century, and the wondrous and grand debates which characterized that milieu. *Writer, Rebel, Soldier, Lover* features a formidable cast of characters: from writers like Premchand, Phanishwarnath Renu, Raja Rao, Mulk Raj Anand and Josephine Miles to Prime Minister Jawaharlal Nehru, revolutionary Chandra Shekhar Azad and actor Balraj Sahni. And its landscapes stretch from British jails, an intellectually robust Allahabad and modern-day Delhi to monasteries in Europe, the homes of Agyeya's friends in the Himalayas and universities in the US. This book is a magnificent examination of Agyeya's civilizational enterprise. Ambitious and scholarly, *Writer, Rebel, Soldier, Lover* is also an unputdownable, whirlwind of a read.

An evolving paradigm of agricultural mechanization development: How much can Africa learn from Asia? Diao, Xinshen, ed., Takeshima, Hiroyuki. ed., Zhang, Xiaobo, ed., 2020-12-07 Agricultural mechanization in Africa south of the Sahara – especially for small farms and businesses – requires a new paradigm to meet the needs of the continent's evolving farming systems. Can Asia, with its recent success in adopting mechanization, offer a model for Africa? *An Evolving Paradigm of Agricultural Mechanization Development* analyzes the experiences of eight Asian and five African countries. The authors explore crucial government roles in boosting and supporting mechanization, from import policies to promotion policies to public good policies. Potential approaches presented to facilitating mechanization in Africa include prioritizing market-led hiring services, eliminating distortions, and developing appropriate technologies for the African context. The role of agricultural mechanization within overall agricultural and rural transformation strategies in Africa is also discussed. The book's recommendations and insights should be useful to national policymakers and the development community, who can adapt this knowledge to local contexts and use it as a foundation for further research.

In a time when social media are revolutionizing and galvanizing politics in the United States and around the world, this encyclopedia is a must-have reference. It reflects the changing landscape of politics where old modes and methods of political communication from elites to the masses (top down) and from the masses to elites (bottom up) are being displaced rapidly by social media, and where activists are building new movements and protests using social media to alter mainstream political agendas. **Key Features** This three-volume A-to-Z encyclopedia set includes 600 short essays on high-interest topics that explore social media's impact on politics, such as "Activists and Activism," "Issues and Social Media," "Politics and Social Media," and "Popular Uprisings and Protest." A stellar array of world renowned scholars have written entries in a clear and accessible style that invites readers to explore and reflect on the use of social media by political candidates in this country, as well as the use of social media in protests overseas. Unique to this book is a detailed appendix with material unavailable anywhere else tracking and illustrating social media usage by U.S. Senators and Congressmen. This encyclopedia set is a must-have general, non-technical resource for students and researchers who seek to understand

how the changes in social networking through social media are affecting politics, both in the United States and in selected countries or regions around the world.
