Minecraft Seeds Steve Ranger, Jr., 2016-01-12

Minecraft seeds are a great way to immerse yourself in the world which can be played by anyone and everybody. Minecraft seeds position the user in charge of what and where they would like to play inside a current world. Minecraft seeds are unique for each edition and version of the game. Differences among consoles are inexistent regarding the seed algorithm. Both Minecraft 1.21 for the PlayStation systems, Minecraft TU30 for Xbox 360 and Minecraft CU18 have interchangeable seeds. These are different from the ones found in Minecraft 1.8.8 for PC as they use the programming language C++ instead of the infamous Java for the RNG. Minecraft PE 0.13.0 is the world in itself. As far as the world generator does not change, the seeds keep being useful after an update. The seeds we share here work for the versions stated above, but may break in the future.
