Take Control of macOS Media Apps Kirk McElhearn,2024-04-12 Discover Apple's Music, TV, Podcasts, and Books apps Version 1.9, updated April 12, 2024 Are you bewildered with the apps that replaced iTunes in macOS? Befuddled by Apple Music? Do you want to customize the Music app sidebar? Wish you could organize your podcasts? Wondering what the difference is between loves and stars? In this book, Kirk McElhearn (author of three previous Take Control titles on iTunes, going back to 2010) explains not only how Apple's media apps work, but also how normal people can make the Music, TV, Podcasts, and Books apps do what they want. Starting in macOS 10.15 Catalina, Apple finally did away with iTunes. In its place are three new apps—Music, TV, and Podcasts—with audiobooks now handled by the Books app and syncing of mobile devices handled by the Finder. Where once iTunes was an all-purpose media hub, now you may use up to five apps to accomplish the same things. The new apps also add more features (while, sadly, removing a few things too). Take Control of macOS Media Apps is your guide to the post-iTunes world. Kirk McElhearn, whose earlier books on iTunes 10, 11, and 12 collectively sold nearly 14,000 copies, is back with a new book that shows you how to manage your music, videos, podcasts, and audiobooks in Catalina and later. Whether you just want to play your media, or you want to go deeper with special features like Genius, Shuffle, Playing Next, Apple Music, and iTunes Match, this comprehensive guide has the answers you need. Kirk also looks at various ways of bringing audio and video into Apple's media apps, tagging songs and videos so you can find them more easily later, creating playlists, sharing your library over a home network, and syncing media with your iPhone, iPad, or iPod. The book covers how to:

- **Play Music:** Learn the basics of playing audio (and even music videos) in the Music app. You'll also find tips on making quick playlists with Genius and Playing Next, learn the best ways to search for the music you want to hear, stream music to other devices in your home, and view lyrics while tunes play.
- **Stream Music:** Use Apple Music, a paid service, to listen to any of 100 million tracks. Or listen to live broadcasts from Apple Music Radio (including Apple Music 1).
- **View Your Music and Other Content:** Learn how to use the sidebar, view your music library, and work with contextual menus in the Music app.
- **Store Your Music Library in the Cloud:** What are the pros and cons of using the Sync Library setting to store your music in the cloud? How do Music and iTunes Match figure out whether to upload your music when that setting is enabled? You'll get answers to these questions and more.
- **Use the iTunes Store:** iTunes may be gone, but the iTunes Store is still open for business! Find tips on shopping in the iTunes Store, and get advice on sharing your purchases with family members and among your various Apple devices.
- **Tag Your Music:** Tags are bits of information (also known as “metadata”) that can describe your media. Learn which tags to bother changing, the best ways to add lyrics and album art, how to rate songs with stars, loves, or both, and more.
- **Organize Your Music:** Make a simple playlist of romantic songs, workout songs, or whatever theme you like. You'll learn how to create smart playlists that, for example, comprise only your 5-star faves or only tunes you haven't heard recently, and how to transfer playlists to the Apple Watch. You'll also find help with operational issues like eliminating duplicates from your music library.
- **Manage and Share Media Files:** Whether you want to casually share a playlist from your laptop when visiting a friend or you want to make all your media available on all your home's computers, you'll find out how Media Sharing and Home Sharing make sharing possible. You'll also learn how to manage massive media libraries and store media files on external drives.
- **Listen to Audiobooks:** Discover how to download and play audiobooks in the Books app, and how to manage your audiobook library.
- **View Movies and TV Shows:** Use the TV app (with or without the forthcoming Apple TV+ service) to watch videos, including those purchased or rented from the iTunes Store and those you add yourself.
- **Listen to and Watch Podcasts:** You'll be sampling and subscribing to podcasts in no time with Kirk's advice, plus you'll pick a method of syncing podcast episodes to your iPhone or iPad and even learn about creating your own podcast station.
- **Sync Media:** You've put all your media on your Mac...now, how do you transfer it to a mobile Apple device such as an iPhone, an iPad, an old-school iPod, or an Apple Watch? And how do you use an Apple TV to enjoy the media on your Mac? Learn the best approach for your situation.
- **Rip, Burn, and Print:** Add content to your media apps with Kirk's detailed steps for “ripping” music CDs and audiobooks. Also learn how to burn music from Music onto a CD, and get directions for printing a song list—for example, to include in the jewel case of said CD.
- **Extend with AppleScript:** Mac users can make the Music and TV apps do more with AppleScript. Learn about key AppleScripts that you can download to make your media apps jump through even more hoops.

Assembling a Black Counter Culture DeForrest Brown,2020-11-10 In this critical history, DeForrest Brown, Jr makes techno Black again by tracing the music's origins in Detroit and beyond In Assembling a Black Counter Culture, writer and musician DeForrest Brown, Jr, provides a history and critical analysis of techno and adjacent electronic music such as house and electro, showing how the genre has been shaped over time by a Black American musical sensibility. Brown revisits Detroit's 1980s techno scene to highlight pioneering groups like the Belleville Three before jumping into the origins of today's international club floor to draw important connections between industrialized labor systems and cultural production. Among the other musicians discussed are Underground Resistance (Mad Mike Banks, Cornelius Harris), Drexciya, Juan Atkins (Cybotron, Model 500), Derrick May, Jeff

Mills, Robert Hood, Detroit Escalator Co. (Neil Olliviera), DJ Stingray/Urban Tribe, Eddie Fowlkies, Terrence Dixon (Population One) and Carl Craig. With references to Theodore Roszak's *Making of a Counter Culture*, writings by African American autoworker and political activist James Boggs, and the techno rebels of Alvin Toffler's *Third Wave*, Brown approaches techno's unique history from a Black theoretical perspective in an effort to evade and subvert the racist and classist status quo in the mainstream musical-historical record. The result is a compelling case to make techno Black again. DeForrest Brown, Jris a New York-based theorist, journalist and curator. He produces digital audio and extended media as Speaker Music and is a representative of the Make Techno Black Again campaign.

Causal Inference Scott Cunningham,2021-01-26 An accessible, contemporary introduction to the methods for determining cause and effect in the social sciences Causation versus correlation has been the basis of arguments--economic and otherwise--since the beginning of time. *Causal Inference: The Mixtape* uses legit real-world examples that I found genuinely thought-provoking. It's rare that a book prompts readers to expand their outlook; this one did for me.--Marvin Young (Young MC) Causal inference encompasses the tools that allow social scientists to determine what causes what. In a messy world, causal inference is what helps establish the causes and effects of the actions being studied--for example, the impact (or lack thereof) of increases in the minimum wage on employment, the effects of early childhood education on incarceration later in life, or the influence on economic growth of introducing malaria nets in developing regions. Scott Cunningham introduces students and practitioners to the methods necessary to arrive at meaningful answers to the questions of causation, using a range of modeling techniques and coding instructions for both the R and the Stata programming languages.

Walk Like a Man Robert J. Wiersema,2011-09-02 There are dozens of books about the Boss, exploring every facet of his career. So what's left to say? Nothing objective, perhaps. But when it comes to music, objectivity is highly overrated. Robert Wiersema has been a Springsteen fan since he was a teenager. By most definitions, he's a fanatic: following tours to see multiple shows in a row, watching set lists develop in real time via the Internet, ordering bootlegs from shady vendors in Italy. His attachment is deeper than fandom, though: he's grown up with Springsteen's music as the soundtrack to his life, beginning with his working-class youth in rural British Columbia and continuing on through dreams of escape, falling in love, and becoming a father. *Walk Like a Man* is liner notes for a mix tape, a frank and inventive blend of biography, music criticism, and memoir over the course of thirteen tracks. Like the best mix tapes, it balances joy and sorrow, laughter seasoning the dark-night-of-the-soul questions that haunt us all. Wiersema's book is the story of a man becoming a man (despite getting a little lost along the way), and of the man and the music that have accompanied him on his journey.

Clarks in Jamaica Al Fingers,2021-06 In Jamaica, Clarks are loved like no other brand. They are the island's ruling name in footwear -- the champion shoes -- and it has been that way for as long as anybody can remember. This book celebrates the rich history of Clarks in Jamaica, with a focus on the Jamaican reggae and dancehall musicians who have worn and sung about Clarks shoes through the years. Documenting the origins of the Clarks brand in 1825 through to the introduction of their shoes into Jamaica in the 1920s and the impact of styles such as the Desert Boot, Wallabee and Desert Trek on the island, Clarks in Jamaica explores how footwear made by a Quaker firm in the quiet English village of Street, Somerset became the baddest shoes in Jamaica and an essential part of the island's culture. Building on the success of the first release in 2011, this updated second edition includes new interviews, previously unseen photographs, insights into Jamaica's favourite styles of Clarks from former company employees, and an expanded chapter on Jamaican fashion detailing the histories of island fashion staples such as the mesh marina (string vest), Arrow shirt, knits ganzie and beaver hat. Beautifully presented and thoroughly researched, Clarks in Jamaica is a wonderful document of Clarks' deep roots in Jamaican culture, a fitting tribute to the rich cultural exchange that has taken place between Jamaica and the UK that will appeal as much to Jamaicaophiles and lovers of Clarks shoes as to musicologists, fashion stylists and cultural historians.
